

**Public Participation in a City Council Meeting:**

The Public Comment portion of the meeting is the time to address the Mayor and City Council on topics not on the agenda. If a member of the public wishes to comment on an item on the agenda, they may do so while that item is being discussed by coming to the microphone and stating your name and address. Comments should be limited to 3 minutes or less and should be addressed to the Mayor and Council as a whole and not individually. Response from elected officials or staff is at the Mayor's discretion.

**CITY OF MARSHALLTOWN COUNCIL AGENDA  
CITY HALL COUNCIL CHAMBERS

## **MISSION STATEMENT**

**The City of Marshalltown collaborates to provide a welcoming, safe, vibrant, and growing community.**

Please visit the City's website for the complete agenda packet and to subscribe to agenda notices and department news at [www.marshalltown-ia.gov](http://www.marshalltown-ia.gov).

**COUNCIL PROCEEDINGS**  
**APRIL 22, 2024**

Mayor Greer called the meeting to order at 5:30 p.m., April 22, 2024, at the City Hall Council Chambers, 10 W State Street, and led the pledge of allegiance. Roll call—Present: Kell, Ladehoff, Mitchell, Nichols, Schneider, Thompson. There is a vacancy for 4<sup>th</sup> Ward Councilor.

**PUBLIC COMMENT**

- Jimmy Landt, 610 N 4th Ave, asked how to handle parking and nuisance complaints.
- John Worden, Green Mountain, voiced concern with the public library and citizen's resources to remedy such situations.
- Jim Shaw, 522 N 2<sup>nd</sup> St, spoke about a dog bite incident that occurred in town.
- Ray Mitchem, 1402 S 3<sup>rd</sup> Ave, voiced concern about the library board and allowing discussion.

**MAYOR, COUNCIL, ADMINISTRATOR COMMENTS**

- Mayor Greer recognized the Marshalltown Fire Department team who won 1<sup>st</sup> place in the 2024 Firefighter Challenge for the Des Moines Fight for Air Climb.
- Mayor Greer recognized Alicia Hunter, City Clerk for 20 years of service.
- Mayor Greer presented a Proclamation in recognition of Arbor Day on April 26<sup>th</sup>.
- Councilor Ladehoff thanked everyone who joined the Ward 1 clean-up.
- Councilor Mitchell thanked citizens for reporting code violations.
- Mayor Greer shared a donation request from the National Police Association a citizen received that says "Marshalltown City Council needs to hear from you!" The City is not involved with this fundraising campaign.
- Mayor Greer thanked Cleaniac and everyone who has helped with community clean up and recognized the ribbon cutting at Karl Auto Group.

Motion carried 6-0.

#### **DISCUSSION**

Cindy Kendall, Consultant, outlined changes in the city's general insurance policy to include changing from a policy-wide deductible to a structure location deductible based on valuations. Wind and hail coverages will be calculated at 2% of the sum of the values of all the units of coverage that sustain loss in one occurrence. It was recommended to establish a \$500,000 reserve over the next 5 years for these changes and staff will bring forward a resolution to implement. Public comment: Leigh Bauder, 401 Orchard Dr, encouraged a higher reserve. Jim Shaw, 522 N 2<sup>nd</sup> St, was glad local option sales tax wasn't brought up. Mr. Bradbury, 12 N 10<sup>th</sup> Ave confirmed flooding is included. Linda Clark, 306 S 2<sup>nd</sup> Ave, encouraged planning for major events.

Cindy Kendall, Consultant, reviewed the Iowa Code requirements for the sale of property in an urban renewal area. The city has multiple properties to sell in urban renewal area no. 4. It is recommended to have an appraisal done as a benchmark when reviewing proposals. Motion by Nichols, second by Schneider to proceed with issuing an RFP for appraisals on the properties. Motion carried 6-0.

#### **ADJOURNMENT**

The meeting adjourned at 6:31 p.m.

Respectfully Submitted,

---

Alicia Hunter, City Clerk

CITY OF MARSHALLTOWN, IOWA

---

Joel Greer, Mayor

ATTEST:

**COUNCIL PROCEEDINGS**  
**MAY 1, 2024**

Mayor Greer called the special meeting for a work session to order at 8:30 a.m., May 1, 2024, at the City Hall Council Chambers Conference Room, 10 W State Street. Present: Ladehoff, Mitchell, Nichols. Absent: Kell, Schneider, Thompson. There is a vacancy for 4<sup>th</sup> Ward Councilor.

**DISCUSSION**

This meeting was scheduled with representatives from our Sister City in Zdolbuniv, Ukraine to start discussions on how we can aid each other through our Sister City agreement. Collaboration was discussed in the areas of youth exchange, arts and culture, veteran rehabilitation, and health care. Marshalltown representatives were invited to visit Zdolbuniv in the future. Our agencies will schedule quarterly update meetings through 2025.

The meeting was adjourned at 9:05 am.

Respectfully Submitted,

---

Alicia Hunter, City Clerk

**RESOLUTION TO CERTIFY THE SCHEDULE OF SPECIAL ASSESSMENTS  
AGAINST PROPERTIES WITH UNPAID FEES FOR COLLECTION WITH  
PROPERTY TAXES**

**WHEREAS**, in accordance with the City of Marshalltown's Cash Management Policy, unpaid accounts shall be assessed to taxes when applicable; and

**WHEREAS**, the Council finds this policy is in the best interest of the citizens of Marshalltown, Iowa; and

**WHEREAS**, the Schedule of Special Assessments is now on file in the office of the City Clerk of Marshalltown, Iowa.

**THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:**

**Section 1.** The City Clerk is hereby direct to certify the final schedule to the Marshall County Treasurer and to publish notice of the schedule once each week for two consecutive weeks.

**Section 2.** On or before the second publication of the notice, the City Clerk shall send by mail to each property owner whose property is subject to assessment a copy of the notice.

Passed this 13<sup>th</sup> day of May 2024 and signed this \_\_\_\_ day of May 2024.

CITY OF MARSHALLTOWN, IOWA

I O W A

Joel Greer, Mayor  
24 North Center Street  
Marshalltown, IA 50158  
PH 641.754.5701 | FX 641.754.5717

---

**TO:** Mayor and City Council  
**FROM:** Alicia Hunter, City Clerk  
**DATE:** May 6, 2024  
**RE:** Special Assessments

---

**Strategic Plan:**

- ☐ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☒ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** Maintain a financially healthy organization.

**Recommendation:** Approve certification of unpaid fees for collection through property taxes.

**Budget Impact:** Over \$40,000 in revenue collected through County.

**Description/Background:** The City Clerk annually reviews accounts for nuisance and rental program charges that are unpaid past 90 days. These accounts are eligible for assessment to property taxes. Special assessments are due on the September installment of taxes. This list will be due to the County by 9/30/24.

**CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

You are hereby notified that the schedule of assessments against the said property for Nuisance Abatement and Rental Registration Charges has been adopted and levied by the City of Marshalltown, and that said schedule of assessments will be certified to the County Treasurer of Marshall County, Iowa.

Payments for these fees and charges may no longer be made to the City of Marshalltown. You are advised to pay these charges with the Marshall County Treasurer. Assessments are payable in one installment, with interest on the unpaid balance, all as provided in Section 384.65, Code of Iowa. You are further notified that assessments may be paid in full without additional interest at the office of the County Treasurer of Marshall County, Iowa if paid in full by September 30, 2024. Payments received on or after October 1, 2024, including those instances when the last day of September is a Saturday or Sunday, and will draw additionally the same delinquent interest as ordinary taxes.

All said properties will be assessed for the cost of abating each issue. The amount of each assessment having been set out in the Schedule of Assessments, which is now on file in the office of the City Clerk of Marshalltown, Iowa. For further information, you are referred to the said schedule of assessments. This notice is given by the direction of the Council of the City of Marshalltown, Iowa, as prescribed by Section 364.13 of the Code of Iowa.

Notice to be published in the Times-Republican May 15, 2024 and May 22, 2024.

/s/ Alicia Hunter, City Clerk, Marshalltown, Iowa

**RESOLUTION SETTING A PUBLIC HEARING FOR THE CONVEYANCE AND  
TRANSFER OF TITLE OF CITY OWNED VACANT LOTS**

**WHEREAS**, the City of Marshalltown is selling multiple vacant lots which were acquired through the Dangerous and Dilapidated Building Program. Demolition of all structures on each property was completed and all utilities were disconnected;

**WHEREAS**, the City is offering a Quit Claim Deed for the properties that are being sold as is. Sealed bids were solicited and accepted by 10:00 a.m. on May 7, 2024, with the highest bid for each lot was selected as the winning bid;

**WHEREAS**, the Council of the City of Marshalltown, Iowa finds it is in the best interest of the City and proposes to convey and transfer by Quit Claim Deed the following described properties in Marshalltown, Marshall County, Iowa;

**510 East Main Street, legally described as:** The West Half of Lot 11, Block 7, Marshalltown, Marshall County, Iowa. From the City of Marshalltown to RMB Cooperative. The consideration for such conveyance shall be the sum of \$1,500 (One Thousand Five Hundred and 00/100).

**406 Lee Street, legally described as:** Lot 4, Block 1, Church & Cottle's Addition to Marshall, Marshall County, Iowa, subject to easements and restrictions of record. From the City of Marshalltown to RMB Cooperative. The consideration for such conveyance shall be the sum of \$1,500 (One Thousand Five Hundred and 00/100).

**708 Lee Street, legally described as:** Lot 13 and the East One-half of Lot 12, all in Block 8, in Sunrise Addition to the Original Town of Marshall, Marshall County, Iowa, subject to easements and restrictions of record, if any. From the City of Marshalltown to RMB Cooperative. The consideration for such conveyance shall be the sum of \$1,500 (One Thousand Five Hundred and 00/100).

**WHEREAS**, the property being transferred by the City of Marshalltown, Iowa is real estate which is not being used to the full advantage of the City, and is not required for any other public purpose, and no rights of private persons will be adversely affected; and

**WHEREAS**, the City of Marshalltown hereby proposes the transfer of said property, subject to easements being retained and rights of way of utilities, and access to and maintenance of said utilities. Said easements, rights of way and access will be retained until such time as the utility no longer utilizes or needs facilities in this location.

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:**

**Section 1.** The City Clerk shall cause to be published the notice required by law, by publication

once in the Marshalltown Times-Republican, a newspaper having general circulation in the City of Marshalltown, Iowa, the publication to be not less than four (4) days nor more than twenty (20) days prior to the date hereinafter fixed in the City Hall, 10 W State Street, Marshalltown, Iowa, on May 28, 2024, 5:30 pm to consider any and all comments filed with the City Clerk or made in open Council to the proposal for conveyance as herein contained and to take final action thereon.

Passed this 13<sup>th</sup> day of May 2024, and signed this \_\_\_\_\_ day of May 2024.

## **REQUEST FOR SEALED BIDS FOR THE PURCHASE OF VACANT LOTS**

The City of Marshalltown is selling 3 vacant lots. The City is offering a quit claim deed for the properties, which are being sold as is. The highest bid for each lot will be selected as the winning bid.

Sealed bids are due by **10:00 AM CST on Tuesday, May 7, 2024**. Bids must include the dollar amount of the bid and the following information (if available):

- Property address and bid amount
- Name of bidder
- Address of bidder
- Telephone number of bidder
- Email address of bidder
- Name for tax deed (will only use if the highest bidder)
- Address for the tax statement to be sent (will only use for the highest bidder)

If bidding on multiple lots, please provide a separate bid for each property. The City will contact you after the bids are due to let you know if you are the highest bidder or not. The bid should be in a sealed envelope marked "Sealed Bid for Vacant Lots" and submitted to the City Clerk by the date and time above at: City of Marshalltown Attn: City Clerk, 24 North Center Street Marshalltown, Iowa 50158.

Bids received after the due date and time will not be accepted. The City reserves the right to reject all bids and to waive any irregularities.

Following the acceptance of bids, the City of Marshalltown will have resolutions setting public hearings on the sale of the parcels at the May 13<sup>th</sup> City Council meeting. The public hearings will be held at the May 28<sup>th</sup> City Council meeting, following consideration of a resolution to approve the sale. Closing on the properties will take place after May 28<sup>th</sup>, with the purchaser to provide payment in full before the quit claim deed is provided. The information below is a brief description of each of the properties for sale.

### **CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

**Please note that an accessory building will not be allowed as the only structure on each of these parcels, unless an adjoining property owner is the purchaser and provides an affidavit of non-separation.**

**510 East Main Street (Parcel 8418-26-484-013)**

Zoning: Mixed-Use

Size: 60x180

Mixed office, retail, and residential uses in neighborhood centers or in close proximity to residential areas. No driveway or parking shall be allowed on the empty parcel unless the parcel is developed with authorized use. An accessory structure, such as a garage, is not allowed unless the lot is combined with an adjacent lot that contains an authorized primary use building. Installation of commercial parking lots are only allowed if limited use requirements are followed.

**406 Lee Street (Parcel 8418-26-430-018)**

Zoning: Medium-Density Residential (RM) Size: 50x125

Lot will allow for new residential structure to be built. Single-family and duplex homes, townhomes, or small multiple-family developments, at a density of 6-18 units per acre. No driveway or parking shall be allowed on the empty parcel unless the parcel is developed with authorized use. An accessory structure, such as a garage, is not allowed unless the lot is combined with an adjacent lot that contains an authorized primary use building. Installation of commercial parking lots are only allowed by Special Use Permit.

**708 Lee Street (Parcel 8418-25-308-012)**

Zoning: Medium-Density Residential (RM) Size: 63x138

Lot will allow for new residential structure to be built. Single-family and duplex homes, townhomes, or small multiple-family developments, at a density of 6-18 units per acre. No driveway or parking shall be allowed on the empty parcel unless the parcel is developed with authorized use. An accessory structure, such as a garage, is not allowed unless the lot is combined with an adjacent lot that contains an authorized primary use building. Installation of commercial parking lots are only allowed by Special Use Permit.

**RESOLUTION SETTING A PUBLIC HEARING FOR THE STATUS OF FUNDING  
UPDATE OF AN IOWA ECONOMIC DEVELOPMENT AUTHORITY COMMUNITY  
DEVELOPMENT BLOCK GRANT DISASTER RECOVERY HOUSING (CDBG-DRH)  
PROJECT FOR THE CONSTRUCTION OF A 30-UNIT APARTMENT BUILDING**

**WHEREAS** the City of Marshalltown was awarded an Iowa Economic Development Authority “IEDA” CDBG 2020 Derecho Housing Grant as a sub-recipient; and

**WHEREAS** the City is working with Region 6 Resource Partners on the administration of this grant; and

**WHEREAS**, a public hearing is required to be held to provide the public with a status of funding update on the project and is proposed for May 28, 2024, at 5:30 pm; and

**WHEREAS** the City Council has reviewed the request and found it to be in the best interest of the City.

**NOW, THEREFORE BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:**

**Section 1.** The Council will meet at 5:30 pm in the council chambers in the City Hall, Marshalltown, Iowa, on the 28<sup>th</sup> day of May 2024, and will hold a public hearing to consider any and all comments with the City Clerk or made in open council to the status of funding update on the 2020 Derecho Housing Project.

**Section 2.** The City Clerk shall cause to be published notice of said hearing required by law, by publication once in the Marshalltown Times Republication, a newspaper having general circulation in the City of Marshalltown, Iowa. The publication shall not be less than four (4) days nor more than twenty (20) days prior to the date therein fixed for the public hearing

**TO:** Mayor & City Council  
**FROM:** Alicia Hunter, City Clerk  
**DATE:** May 9, 2024  
**RE:** Status of funding public hearing

---

**Strategic Plan:**

- ☒ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** Increase housing opportunities at all levels.

**Recommendation:** Set a public hearing for the May 28<sup>th</sup> Council Meeting.

**Budget Impact:** Publication notice.

**Description/Background:** The City of Marshalltown is the pass-through recipient of 3 awards for a Community Development Block Grant-Disaster Recovery (CDBG-DR) grant. We have development agreements for these projects. Region 6 is providing grant administration on these projects. A public hearing on the status of funding is required at the projects half-way point. The project for the construction of a 30-unit apartment building is now at the half-way point. The public hearing will be scheduled for the May 28<sup>th</sup> meeting.

**CITY COUNCIL**

Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

**NOTICE OF PUBLIC HEARING**  
**30-UNIT APARTMENT BUILDING CDBG-DRH STATUS OF FUNDED ACTIVITIES**

Notice is hereby given that the City of Marshalltown will be holding a public hearing on the status of a Community Development Block Grant - Disaster Recovery Housing (CDBG-DRH) project for the construction of a 30-unit apartment building at 5:30pm on May 27<sup>th</sup>, 2024, at Marshalltown City Hall, 10 W State Street, Marshalltown, IA 50158. At the hearing the following information will be covered: general accomplishments, expenditures, and remaining work to be completed. The project is being funded in part through a CDBG-DRH grant provided by the Iowa Economic Development Authority. If you have any questions concerning the project or if you require special accommodations to attend the hearing such as handicapped accessibility or translation services, please contact 641-754-5760. Persons interested in the status of funding or the progress of the project, are welcome to attend this meeting.

Alicia Hunter  
City Clerk of Marshalltown

**RESOLUTION ACCEPTING BID AND AUTHORIZING THE PURCHASE OF THREE 2024 DODGE DURANGO POLICE PACKAGE VEHICLES FROM STEW HANSEN DODGE FOR THE PRICE OF \$119,508.00 AND ONE 2024 FORD F150 POLICE PACKAGE TRUCK FROM STIVERS FORD FOR THE PRICE OF \$46,897.00 FOR USE IN THE POLICE DEPARTMENT AS EMERGENCY RESPONSE VEHICLES**

**WHEREAS**, the City of Marshalltown (hereinafter referred to as the “City”), State of Iowa, is a political subdivision organized and existing under the law and the Constitution of the State of Iowa (the “State”); and

**WHEREAS**, the City desires to procure three 2024 Dodge Durango SUV police package vehicles from Stew Hansen Dodge (Urbandale, Iowa). Staff recommends the purchase of one 2024 Ford F150 police package truck from Stivers Ford (Waukee, Iowa); and

**WHEREAS**, Stew Hansen Dodge of Urbandale, Iowa submitted a bid for three 2024 Dodge Durango police vehicles for a total purchase price of \$119,508.00 (\$39,836.00 per vehicle); and

**WHEREAS**, Stivers Ford of Waukee, Iowa submitted a bid for one Ford F150 police package truck for a total purchase price of \$46,897.00; and

**WHEREAS**, the acceptance of these bids is in the best interest of the City.

**NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF MARSHALLTOWN, IOWA:**

**Section 1.** The City accepts the bid from Stew Hansen Dodge for the purchase of three 2024 Dodge Durango SUV police package vehicles to be used as police response vehicles for a total purchase price of \$119,508.00.

**Section 2.** The City accepts the bid from Stivers Ford for the purchase of one Ford F150 police package truck to be used as a police K9 response vehicle for a total purchase price of \$46,897.00.

**Section 3.** The Chief of Police of the City is hereby authorized to enter into agreements on behalf of the City to purchase said vehicles at the above referenced price and conditions.

Passed this 13<sup>th</sup> day of May 2024, and signed this \_\_\_\_ day of May 2024.

**TO:** Mayor Joel Greer & City Council  
**FROM:** Michael W. Tupper, Chief of Police  
**DATE:** 8 May 2024  
**RE:** Police Department Vehicle Purchase FY25

---

**Strategic Plan:**

- ☐ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☒ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** City policy requires governing body approval of all vehicle purchases. This vehicle purchase will enhance city services provided by the police department by supplying staff with safe vehicles for patrol operations.

**Recommendation:** Staff recommends approving the purchase of three 2024 Dodge Durango SUV police package vehicles from Stew Hansen Dodge (Urbandale, Iowa) for a total purchase price of \$119,508.00 (\$39,836.00 per vehicle). Staff recommends the purchase of one 2024 Ford F150 police package truck from Stivers Ford (Waukee, Iowa) for a total purchase price of \$46,897.00. These vehicles will be utilized in the police department's uniform patrol division as marked police vehicles. The Ford F150 will be specially utilized as a police K9 vehicle.

Police vehicles currently in the police department fleet will be traded to offset costs. These vehicles have not been fully vetted by staff and approved for trade at this time. The department will bring a resolution at a later time declaring which vehicles are being traded and for what value they are traded for.

**Budget Impact:** The CIP budget for FY25 has sufficient funds for this vehicle purchase.

**Description/Background:** MPD staff will be present at the May 13, 2024 meeting of the Marshalltown City Council to answer questions regarding this vehicle purchase.

#### Funding Sources (Division 3 Only)

|                                   |    |                  |              |
|-----------------------------------|----|------------------|--------------|
| LOST (Reallocation from Edgewood) | \$ | 68,900.00*       |              |
|                                   | \$ | <b>68,900.00</b> | <b>TOTAL</b> |

\*Please note: City staff recommended the reallocation of LOST funds designated towards the Edgewood project to this Division of the S 7<sup>th</sup> Ave project. This reallocation will cover the cost of the improvements to the Edgewood Street / Highway 14 intersection. The total LOST shown above includes this reallocation.

### Description/Background:

The Contractor has completed all requirements of this construction contract, submitted necessary records in conjunction with Bolton & Menk who provided some design and observation, and the Engineer is recommending accepting these Divisions as complete.

#### CITY COUNCIL

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

The project completion dates are:

Substantial Completion: December 1, 2023

Ready for Final Payment: April 10, 2024

Engineer's Notice of Acceptability: April 19, 2024

Council Approval of Completion: May 13, 2024

The substantial completion certificate indicates the date at which the project was sufficiently complete so that the work can be utilized for the purposes for which it was intended and also the date when the warranty/bond period begins. This was within the time of completion allowed by the construction contract, as amended. There is a 4-year warranty bond that is in effect until 4 years after project substantial completion (December 1<sup>st</sup>, 2027).

The notice of acceptability of work document indicates the date at which the project is complete, without remaining punch list items and the Engineer has received/reviewed any necessary project records.

With the Council's approval this evening of completion. Pending no claims, the city may release project retainage that was held after 30 days, but no later than 40 days from today's date.

Please note: Division 3 was a change order to the contract and is being treated as a separate project in relation to completion / final payment dates.

# CERTIFICATE OF SUBSTANTIAL COMPLETION

Owner: City of Marshalltown Owner's Project No.: ECO22-001  
Engineer: Bolton & Menk / City of Marshalltown Engineer's Project No.:  
Contractor: ConStruct, Inc. Contractor's Project No.:  
Project: S Seventh Avenue Extension Project (Division 3: Highway 14 & Edgewood St)  
Contract Name: Divisions 3 Only, with CO #5 (Div 3) & CO #7

This ☒ Preliminary ☒ Final Certificate of Substantial Completion applies to:

☐ All Work ☒ The following specified portions of the Work:

**All work outlined in Division 3 to the contract, which was added in Change Order #5, in addition to items added in Change Order #7.**

Date of Substantial Completion: **12/1/2023**

The Work to which this Certificate applies has been inspected by authorized representatives of Owner, Contractor, and Engineer, and found to be substantially complete. The Date of Substantial Completion of the Work or portion thereof designated above is hereby established, subject to the provisions of the Contract pertaining to Substantial Completion. The date of Substantial Completion in the final Certificate of Substantial Completion marks the commencement of the contractual correction period and applicable warranties required by the Contract.

A punch list of items to be completed or corrected is attached to this Certificate. This list may not be all-inclusive, and the failure to include any items on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

Amendments of contractual responsibilities recorded in this Certificate should be the product of mutual agreement of Owner and Contractor; see Paragraph 15.03.D of the General Conditions.

The responsibilities between Owner and Contractor for security, operation, safety, maintenance, heat, utilities, insurance, and warranties upon Owner's use or occupancy of the Work must be as provided in the Contract, except as amended as follows:

Amendments to Owner's Responsibilities: ☒ None ☐ As follows:

**n/a**

Amendments to Contractor's Responsibilities: ☒ None ☒ As follows:

**n/a**

The following documents are attached to and made a part of this Certificate:

**n/a**

This Certificate does not constitute an acceptance of Work not in accordance with the Contract Documents, nor is it a release of Contractor's obligation to complete the Work in accordance with the Contract Documents.

# NOTICE OF ACCEPTABILITY OF WORK

Owner: City of Marshalltown Owner's Project No.: ECO22-001  
Engineer: Bolton & Menk / City of Marshalltown Engineer's Project No.:  
Contractor: ConStruct, Inc. Contractor's Project No.:  
Project: S Seventh Avenue Extension Project (Division 3: Highway 14 & Edgewood St)  
Contract Name: Divisions 3 Only, with CO #5 (Div 3) & CO #7  
Notice Date: April 19, 2024 Effective Date of the Construction Contract September 25, 2023  
When CO #5 Executed:

The Engineer hereby gives notice to the Owner and Contractor that Engineer recommends final payment to Contractor, and that the Work furnished and performed by Contractor under the Construction Contract is acceptable. This Notice of Acceptability of Work (Notice) is made expressly subject to the following terms and conditions to which all who receive and rely on said Notice agree:

1. This Notice is for work designated as Division 3 Only.
2. This Notice has been prepared with the skill and care ordinarily used by members of the engineering profession practicing under similar conditions at the same time and in the same locality.
3. This Notice reflects and is an expression of the Engineer's professional opinion.
4. This Notice has been prepared to the best of Engineer's knowledge, information, and belief as of the Notice Date.
5. This Notice is based entirely on and expressly limited by the scope of services Engineer has been employed by Owner to perform or furnish during construction of the Project (including observation of the Contractor's Work) under the Owner-Engineer Agreement, and applies only to facts that are within Engineer's knowledge or could reasonably have been ascertained by Engineer as a result of carrying out the responsibilities specifically assigned to Engineer under such Owner-Engineer Agreement.
6. This Notice is not a guarantee or warranty of Contractor's performance under the Construction Contract, an acceptance of Work that is not in accordance with the Contract Documents, including but not limited to defective Work discovered after final inspection, nor an assumption of responsibility for any failure of Contractor to furnish and perform the Work thereunder in accordance with the Contract Documents, or to otherwise comply with the Contract Documents or the terms of any special guarantees specified therein.
7. This Notice does not relieve Contractor of any surviving obligations under the Construction Contract, and is subject to Owner's reservations of rights with respect to completion and final payment.

**RESOLUTION APPROVING CONTRACT CHANGE ORDER #4 FOR THE  
MARSHALLTOWN DOWNTOWN REVITALIZATION-FAÇADE IMPROVEMENTS  
PROJECT #ECO 21-001**

**WHEREAS**, the City of Marshalltown, Iowa, has heretofore entered into a contract with Cornerstone Commercial Contractor, Inc, for the labor and material for the Downtown Façade Improvements Project #ECO 21-001; and

**WHEREAS**, an increase is requested for items to complete the project.

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:**

**Section 1.** That the contract Change Order #4 for the Downtown Façade Improvements Project #ECO 21-001 in the increased amount of \$41,251.00 is hereby accepted and approved.

Passed this 13<sup>th</sup> day of May 2024, and signed this \_\_\_\_\_ day of May, 2024.

CITY OF MARSHALLTOWN, IOWA

24 North Center Street  
Marshalltown, IA 50158  
PH 641.754.5701 | FX 641.754.5717

**TO:** Mayor Greer and City Council  
**FROM:** Heather Thomas, Public Works Director (*filling in for Community Development Director*)  
**DATE:** May 13, 2024  
**RE:** Marshalltown Downtown Revitalization Change Order #4 – Façade Improvements (ECO 21-002)

### Strategic Plan:

- ☒ Strategy 1: Expand and improve development in the community.
- ☒ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

### Plan Objective:

Invest in Downtown redevelopment & Reduce Blight

### Recommendation:

Approve Change Order #4 in the amount of \$41,251.00.

### Budget Impact:

This is an increase in expenses; the project budget has expenses that are still fully funded. The project budget (*For Information Only*) is shown below:

| EXPENSES                                     |             |                |                                                  |
|----------------------------------------------|-------------|----------------|--------------------------------------------------|

**CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

**Description/Background:**

As changes are identified as either a need or possibilities, Region 6, MCBD, and city staff work with the property owner to determine if they will provide owner share of the change. If they do and the non-owner share is within the budget established through grant or city sources for contingency, authorization is given to proceed to the Contractor.

This change order is for Building 5, 21 W Main, related to conditions encountered for the roof replacement increasing the scope of work. See attached change order; however, a bulk of the cost is due to there already being four roof systems on top of each other; this provides for tear off of 3 additional systems that was not previously expected in addition to needing to plywood the parapet walls as a result of the spray foam encountered. We are still awaiting asbestos testing results to know if that will also be an additional expense. This change order includes:

- Demolition 3 layers of roofing at \$23,660/1,785 Sq Ft = \$13.25 per Sq Ft
- Install Plywood on Parapet walls at \$11,751/\$3/110 LF = \$106.83 per LF
- Masonry repointing scope included in above \$740/\$37 per Sq Ft = 20 Sq Ft
- Assume 2 Dumpsters @ \$1,350 / 2 = \$675.00 Each
- G/C @ 10% = \$3,750
- Total Change Order = \$41,251

The following should be noted with regards to this change order:

- Roof Area is assumed to be approximately: 1,785 Sq Ft
- This change order does not include the credit for the ability to utilize some existing plywood in roof deck areas which could potentially be an estimated cost of \$7,000 - \$8,000. This deduct will be forthcoming.
- This change order does not include if parapet walls need rebuilt at an estimated masonry cost of \$ 74.00 per SF
- A final change order to reconcile extra dumpsters above what would have been needed for the original roof demolition will come later. This change order assumes 2 additional dumpsters; Dumpsters cost would be added at \$ 675.00 per dumpster.
- The project is still awaiting asbestos testing results to determine if abatement is needed.

Due to the time sensitivity of needing to keep construction, we are recommending this change order with the understanding that additional changes are forthcoming. Approval of this change order would provide the ability to potentially swap roof decking areas that we may be able to salvage (up to 7-8k deduct) as a swap of overruns due to parapet wall rebuilding or asbestos. Depending on results of asbestos, city may authorize abatement of roof materials prior to the next council meeting if pricing is reasonable. It does appear funds are available within the project.

Overall Project Background: This project stemmed from the desire to improve blight, especially following the 2018 Marshalltown Tornado and the 2020 Derecho. This construction work is limited to the front facades (and in some cases, where authorized, the side façade or the roof) of several buildings within the targeted area. The building included in this project are:

The substantial completion date for this project is currently June 30, 2024. A change order to extend the project as a result of significant scope that was added with Change Order 2 to include new upper story windows for Buildings 2 & 3 is needed. On April 3<sup>rd</sup>, 2024, the City requested a project extension for the CDBG grant funds to a project grant completion date of November 22, 2024. CDBG asked that the grant extension request hold off until the windows added in Change Order 2 are on site. We will need to get grant extension concurrence from CDBG prior to issuing any formal change order to delay project completion directly with the Contractor. That change order will come back for council approval at an upcoming meeting. However, specific to this work, an extension request of 15 working days is recommended which will extend the Substantial Completion date to July 20, 2024.

## CHANGE ORDER

### PROJECT

Downtown Façade Improvements  
Marshalltown, Iowa

### ARCHITECT

RDG Planning & Design  
301 Grand Avenue  
Des Moines, IA 50309-1718

### CONTRACT

For: General Construction  
Date: April 24, 2023

### CONTRACTOR

Cornerstone Commercial Contractr.  
401 7th Street  
Corning, IA 50841-1615

### CHANGE ORDER

Change Order: 4  
Date: May 8, 2024

### OWNER

City of Marshalltown  
24 North Center Street  
Marshalltown, IA 50158

### THE CONTRACT IS CHANGED AS FOLLOWS:

|                      |                                                        |     |    |           |
|----------------------|--------------------------------------------------------|-----|----|-----------|
| Change Order Req #19 | Building 5: remove additional roofing and make repairs | Add | \$ | 39,766.00 |
|                      | Building 5: additional dumpsters allowance             | Add | \$ | 1,485.00  |

Owner Notes (Heather Thomas) to include in the change order:

1. Roof Area is assumed to be approximately: 1,785 Sq Ft
2. This change order does not include the credit for the ability to utilize some existing plywood in roof deck areas at an estimated cost of \$7,000 - \$8,000. This deduct will be forthcoming.
3. This change order does not include if parapet walls need rebuilt at an estimated masonry cost of \$ 74.00 per SF
4. A final change order to reconcile extra dumpsters above what would have been needed for the original roof demolition will come later. This change order assumes 2 additional dumpsters; Dumpsters cost would be added at \$ 675.00 per dumpster.
5. The project is still awaiting asbestos testing results to determine if abatement is needed.

|        |    |              |
|--------|----|--------------|
| TOTAL  | \$ | 41,251.00    |
|        | \$ | 1,153,023.00 |
| Deduct | \$ | (80,200.00)  |
|        | \$ | 1,072,823.00 |
|        | \$ | 41,251.00    |
|        | \$ | 1,114,074.00 |
| Add    |    | 15           |
|        |    | 7/20/2024    |

The original Contract Sum was

The net change by previously authorized Change Orders

The Contract Sum prior to this Change Order was

The Contract Sum will be modified by this Change Order in the amount of

The new Contract Sum including this Change Order will be

The Contract time will be adjusted in days

The new date of Substantial Completion will be

**NOTE:** This Change Order does not include adjustments to the Contract Sum or Guaranteed Maximum Price, or the Contract Time, that have been authorized by Construction Change Directive until the cost and time have been agreed upon by both the Owner and Contractor, in which case a Change Order is executed to supersede the Construction Change Directive.

## REQUEST FOR INTERPRETATION

**Project:** Marshalltown Façade Rehab

**R.F.I. Number:** 07

Various locations, Marshalltown, Iowa

**From:** Jaime Johnston

**To:** RDG Planning & Design

**Date:** 05-02-2024

Scotney Fenton

**A/E Project Number:** \_\_\_\_\_

**Re:** Building 5 roof

**Contract For:** \_\_\_\_\_

RECEIVED  
05/02/2024  
RDG

See attached photos of pull test completed yesterday. Everything looks good except for around the last 20' of decking closest to the gutter edge, which we assumed we will be changing out as part of the scope. Also, attached is a core cut from the roof and a core cut on the wall. There are four roof systems on this building currently. First, is a metal rolled roofing, probably the original roof. Second, is a mop down tar with pee gravel. We have samples of this and need to get it tested for asbestos. Third is a spray foam coating system. Fourth, is the EPDM roof. There is also spray foam coating on the front wall and the wall closet to the alley. Instead of tearing off the spray foam on these old brick walls we propose sheathing them with plywood. I think if we start tearing off all the foam on the walls it is going to open up a bigger can of worms than needed. There is already a section at the back of the building that will need to be tuckpointed prior to roofing. On the other wall 2x4 nailer will need to be added along with 2x4 added at the gutter edge. We have attached a submittal drawing roof plan for reference. We will work on getting you pricing for the nailer, sheathing, and the extra roof tear off. The roofer plans on dropping the roof samples off today in Iowa City for asbestos testing, if asbestos is found that is going to add to the cost.

Four layers 2"x4" nailer needs added  
existing coping to be reused.  
Dura Last membrane will need extended on neighboring roof.

PROVIDE POLYCARBONITE PANEL SKYLIGHT  
SYSTEM AT EXISTING SKYLIGHTS:

COORDINATE WITH ADJACENT PARAPET  
CAPS AND ROOFING.

REMOVE EXISTING MEMBRANE,  
SHEATHING AND INSULATION;  
PROVIDE NEW; SEE STRUCTURAL.  
INSULATION TO BE MINIMUM 4".

PROVIDE 6" GUTTER.

PROVIDE 3" x 4" DOWNSPOUTS:  
DISCHARGE TO ALLEY.

C3

### BUILDING 5: 21 WEST MAIN STREET - ROOF PLAN

1/16" = 1'-0"

1/2" or 5/8" plywood sheathing  
is needed on walls to cover existing roof  
coating spray foam.

Termination Bar

**RESOLUTION APPROVING CONTRACT CHANGE ORDERS #8 AND #9 FOR THE  
STATE STREET RECONSTRUCTION PROJECT #STR21004**

**WHEREAS**, the City of Marshalltown, Iowa, has heretofore entered into a contract with Con-Struct Inc. for the labor and material for the State Street Reconstruction Project #STR21004; and

**WHEREAS**, a decrease is requested for items to complete the project.

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:**

**Section 1.** That the contract Change Order #8 for the State Street Reconstruction Project #STR21004, in the decreased amount of \$713.45 is hereby accepted and approved.

**Section 2.** That the contract Change Order #9 for the State Street Reconstruction Project #STR21004, in the decreased amount of \$24,608.04 is hereby accepted and approved

Passed this 13<sup>th</sup> day of May 2024, and signed this \_\_\_\_\_ day of May 2024.

CITY OF MARSHALLTOWN, IOWA

**FROM:** Heather Thomas, Public Works Director  
**DATE:** April 22, 2024  
**RE:** State Street Reconstruction (STR 21-004) \_Change Orders #8 & #9

### Strategic Plan:

- ☒ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

### Plan Objective:

Plan for and construct new infrastructure & Invest in Downtown redevelopment

### Recommendation:

Staff recommends approval of Change Order #8 in the amount of a deduct of \$713.45 and Change Order #9 in the amount of a deduct of \$24,608.04.

### Budget Impact:

#### Construction Costs:

### CITY COUNCIL

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

\*Note 1: Per Resolution 2024-065, some of these funds may be pulled from previous 2020 GO Bond.

**Description/Background:**

These change orders include the following:

Change Order 8

- \$21,839.45 deduct: Remove monument foundation and viewing area from northwest quadrant of State Street and Center Street. (In coordination with and direction from Arts and Culture Alliance). This will include the city paying for material pricing of 3 GFCI pedestals that are unable to be returned and assuming ownership.
- \$4,074.00 deduct: Modification of drive alignment into City T Lot, resulting in loss of 1 tree. This will include the city paying for material pricing of 1 tree frame and grate that are unable to be returned and assuming ownership.
- \$30,600.00 deduct: Removed some of the contaminated soil line item as none has been found to date.
- \$2,750.00: An additional sump pump and private area drain was found during excavation; this is to extend it & tie it to the new storm sewer system.
- \$53,050.00: Installation of a footing drain around the Carnegie Building, installing a damp proof / water stop sealant to the foundation of Carnegie Building, and addition of a sump pump. The cost here was higher than estimated; however, the scope did increase slightly. Initial plans to utilize existing sump pump were not feasible due to ability to get the drain line to the existing sump pump. The existing sump pump is not located near the exterior wall in the basement. In lieu of excavating the concrete floor in the basement to extend piping to the existing pit, a second sump pump will be installed closer to the exterior wall so that the drain can come through the wall to the pit. City Fund 030 for CIP will aid in some of this cost and \$25,000 has been added to revenue for the project funding.

Change Order 9

- \$920 deduct: Modification of pavement markings near State Street and Center Street.
- \$15,388.04 deduct: Removing the cycle track from 2<sup>nd</sup> St to 3<sup>rd</sup> St on the north side of the road and adding additional landscaping areas with limestone edging to tie to RACOM landscaping. This will include the city paying for material pricing of 4 tree frame and grates that are unable to be returned and assuming ownership.
- \$24,000.00 deduct: Discussion with RACOM to restore their parking lot with PCC in lieu of HMA.
- \$15,700.00: Request by Park & Rec to switch mulch on this project from hardwood to rubber. (Park & Rec utilizes rubber in Parking Lot H and has plans to replace the mulch in the pickleball pocket park with rubber as well. This will provide more consistency and uniformity downtown in public areas. The plan will be to utilize rubber as we go into next phases along Main St as well.

The substantial completion date for this project remains August 31<sup>st</sup>, 2024.

| <b>Change Order Description</b>  | The City of Marshalltown requested to add to the project a footing drain collector to be placed along the building footing of 24 North Center St and a sump pump for the building. The City of Marshalltown also requested to change the driveway location for the city-owned parking lot at 13 W State Street and to remove from the project the monument foundation and plaza on the northwest corner of the State St/ Center St intersection. Also included is the removal of a portion of the disposal of contaminated soils quantity. No contaminated soils have been found to date so a portion will be removed while leaving some to cover anything in the future if found. |

| <b>Change Order Description</b>  | The City of Marshalltown requested to revise the design of the project from 3rd St to 2nd St. This is due to a change in the City of Marshalltown bicycle route master plan. The plan is now to route bicycles north and southbound on 2nd St instead of 3rd St. This means that the cycle track from 3rd St to 2nd St is now unnecessary. This change order includes removing the 5", 6" and 8" colored PCC cycle track from this block and adding in additional landscaping. The City of Marshalltown also requested to change most of the mulching within the project to a rubber mulch. |

**RESOLUTION AUTHORIZING THE REQUEST OF CERTAIN DELINQUENT  
PROPERTIES BE DESIGNATED FOR THE 2024 PUBLIC NUISANCE TAX SALE**

**WHEREAS**, there are numerous parcels of real property within the City of Marshalltown (the “City”) with delinquent taxes, which will have tax certificates offered for sale as part of the annual tax sale conducted by the Marshall County Treasurer; and

**WHEREAS**, these parcels have been abandoned, are assessed as residential property or as commercial multi-family housing property, is, or is likely to become, a public nuisance, and each parcel is suitable for use as housing following rehabilitation; and

**WHEREAS**, Iowa Code Chapter 446.19B requires that the City designate such properties on or before May 15<sup>th</sup> of each year; and

**WHEREAS**, the City identified certain parcels with unpaid taxes as ones which are abandoned but which there was a desire to rehabilitate or demolish the structures on the property as part of the public nuisance tax sale on June 17, 2024;

**NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA**, the following properties are requested by the Marshall County Treasurer to be listed on the Public Nuisance Tax Sale, assuming current year taxes and other assessments remain unpaid at the time of the tax sale:

| <b>Parcel Number</b> | <b>Address</b>                  |
|----------------------|---------------------------------|
| 8418-26-453-026      | 208 ½ N, 3 <sup>rd</sup> Avenue |
| 8418-36-256-019      | 1303 E. Madison Street          |
| 8418-36-327-015      | 920 Jackson Street              |

**BE IT FURTHER RESOLVED**, all parties interested in the potential purchase and rehabilitation or demolition of one of these properties must register online through [iowataxauction.com](http://iowataxauction.com) prior to the Public Nuisance Tax Sale.

Passed this 13<sup>th</sup> day of May 2024, and signed this \_\_\_\_ day of May 2024.

**TO:** Mayor and City Council  
**FROM:** Cindy Kendall  
**DATE:** May 9, 2024  
**RE:** Declaring the City's interest in properties eligible for Public Nuisance Tax Sale

---

**Strategic Plan:**

- ☒ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** To encourage rehabilitation or demolishing of structures that have been abandoned which are assessed as residential, which are currently or could likely become a public nuisance, and are delinquent in paying property taxes.

**Recommendation:** Passage of the Resolution attached to the Council packet will list those parcels as part of the Public Nuisance Tax Sale (unless the property the delinquent taxes or other assessments are paid before the time of the tax sale).

**Budget Impact:** None unless

**Description/Background:**

On June 17, 2014, the County Treasurer will conduct the annual Tax Sale for delinquent tax parcels. A Public Nuisance Tax Sale occurs at the same time as the regular tax sale but requires potential bidders to sign an agreement with the City to be registered for the Public Nuisance Tax Sale. Only those registered can bid on the properties through this separate tax sale. The purchaser of the tax certificate can determine that a property is not able to be rehabilitated and request permission to demolish it from the City. If a tax certificate is not purchased and taxes are not paid, the City has the option to request the tax certificate from the County and proceed with obtaining a tax deed to the property. This year's list is much smaller than past years, but it is likely to get smaller prior to the tax sale as people continue to pay their taxes.

**RESOLUTION SETTING PUBLIC HEARING FOR AN AMENDMENT TO THE 28E AGREEMENT BETWEEN THE CITY OF MARSHALLTOWN AND THE MARSHALL COUNTY COMMUNICATIONS COMMISSION FOR THE LEASE OF SPACE AT 909 SOUTH SECOND STREET, MARSHALLTOWN**

**WHEREAS**, there has been presented to the Marshalltown City Council a form of lease for approval by the City of Marshalltown, Iowa, and the MARSHALL COUNTY COMMUNICATIONS COMMISSION of Marshalltown, Iowa for an indefinite term from and after the 1<sup>st</sup> day of September, 2019, as per the 28E Agreement, made a part of this Resolution, for the use and occupancy by lessees of the area used to operate a joint communications services and ancillary services at 909 South Second Street, in Marshalltown, Iowa; and

**WHEREAS**, pursuant to Section 364.7 of the Iowa Code, leases longer than three years require a public hearing; and

**WHEREAS**, this Council will consider the terms, conditions and intended use of such room or space, together with the provisions provided for termination, and rights of inspection by the City, which is to be without cost or expense of the City for any remodeling, repair or maintenance and that such lease is in the best interest of the city.

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:**

**Section 1.** The City of Marshalltown, Iowa, by this Tentative Resolution proposes to consent to the 28E agreement with the MARSHALL COUNTY COMMUNICATIONS COMMISSION of Marshalltown, Iowa, which is incorporated and made a part of this tentative resolution, for an indefinite term from and after the 1<sup>st</sup> day of September 2019, as per the 28E Agreement, made a part of this Resolution, for the use and occupancy by the MARSHALL COUNTY COMMUNICATIONS COMMISSION of the area used to operate a joint communications services and ancillary services at 909 South Second Street.

**Section 2.** The lease amount of \$1 shall be paid by the MARSHALL COUNTY COMMUNICATIONS COMMISSION upon approval of the commission and is due prior to October 31 of each year.

**Section 3.** The City Clerk shall cause to be published the notice required by law, by publication once in the Marshalltown Times-Republican, a newspaper having general circulation in the City of Marshalltown, Iowa, and published at least once weekly, the publication to be not less than four (4) nor more than twenty (20) days prior to the date hereinafter fixed for public hearing concerning this matter. Said public hearing is hereby fixed the 28<sup>th</sup> day of May 2024, at the Council meeting to commence at 5:30 PM in the Council Chambers, 10 W. State Street, Marshalltown, Iowa. Said public hearing shall convene to consider any and all comments filed with the City Clerk or made in open council meeting in response to the proposed action as recited herein, and the Council shall have authority to take final action at that time.

Passed this 13<sup>th</sup> day of May 2024, and signed this \_\_\_\_\_ day of May 2024.

**TO:** Mayor and City Council  
**FROM:** Cindy Kendall, Consultant  
**DATE:** May 9, 2024  
**RE:** Set Public Hearing on Proposed Amendment to MCCC 28E Agreement

---

**Strategic Plan:**

- ☐ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☒ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Description/Background:** On December 22, 2023 the Council discussed a proposed amendment to the Marshall County Communication Council 28E agreement for the dispatch center located in the Marshalltown Police and Fire Building. The proposed changes included:

- Updated language to reflect continued operation.
- Added the word "rent" in #2.
- Added a new #4 establishing an annual utility reimbursement of \$12,000/year. This is based on 10% of the total buildings annual electric and gas usage. Language includes evaluating the amount each budget cycle.

After discussing the item, the Council consensus was to present the proposed agreement to the Communication Commission at their January 4<sup>th</sup> meeting. At that meeting the Commission tentatively agreed to the proposed terms. As this is a long-term lease agreement, a public hearing is required. An item was placed on the January 22<sup>nd</sup> agreement to set a public hearing for February 12<sup>th</sup>. The public hearing was held February 12<sup>th</sup> and approved by the City Council.

The Marshall County Communications Commission presented the agreement for signature at their April 2024 meeting and requested a revision of the word "rent" to lease in #2. In #6 it was added that should the agreement be canceled, the utility reimbursement for the final quarter of occupancy shall be prorated to the end date of occupancy. The agreement will go into effect July 1, 2024.

A new public hearing is required with this revision and would be set for May 28, 2024.

**Amendment to the 28E Agreement Between the City of Marshalltown and the Marshall County  
Communications Commission for the Use of Space at 909 South Second Street**

WHEREAS, the Marshall County Communications Commission was created on January 16, 2018 following the adoption of a 28E agreement by the City of Marshalltown, Marshall County, the 911 Joint Services Board, and the Marshall County Emergency Management Commission; and

WHEREAS, the City of Marshalltown and the Marshall County Communications Commission adopted a 28E agreement that became effective on September 1, 2019 for the use of space as the county-wide 911 communications center in the southern portion of the second floor in the Marshalltown Police and Fire Department Headquarters located at 909 South Second Street in Marshalltown, Iowa; and

WHEREAS, both parties desire to maintain the existing relationship at said location for the foreseeable future and understand the need to update the agreement and therefore enter into this amended 28E agreement for use of facilities as authorized by Iowa Code section 28E.18.

**IT IS THEREFORE AGREED AS FOLLOWS:**

1. The City of Marshalltown agrees to continue to operate and maintain a building for joint communications services and ancillary services. The Marshall County Communications Commission shall continue to operate and provide 911 Communications services for Marshall County at the Marshalltown Police and Fire Department Headquarters located at 909 South Second Street, Marshalltown, Iowa for the duration that the facility is occupied for Marshalltown Police or Fire.
2. The Marshall County Communications Commission shall pay \$1 lease for consideration for the use of space prior to October 31 each year.
3. The Marshall County Communications Commission shall provide insurance coverage for all the personnel, equipment and property belonging to the Commission in use at 909 South Second Street at the following coverage levels:
  - a. Comprehensive General Liability \$1,000,000 per occurrence/\$2,000,000 aggregate
  - b. Worker's Compensation as required by law
  - c. Professional Liability for Errors and Omissions \$2,000,000

The Commission shall also name the City of Marshalltown as an additional insured party and include a non-waiver of governmental immunity endorsement/clause in their coverage.

4. The Marshall County Communications Commission agrees to pay the City of Marshalltown \$12,000 annually each fiscal year beginning in FY2025, payable at the beginning of each quarter, as a utility reimbursement. This amount is based on approximately 10% of the annual electric and gas utility charges for the building. This amount will be evaluated with MCCC during each October as part of the annual budget cycle and is subject to change during the duration of this agreement, while staying consistent with 10% of electric and gas costs, upon a affirmative vote by the Marshall County Communications Commission.

5. This agreement shall remain in effect until the property at 909 South Second Street is no longer used for the operations of 911 communications in Marshall County.
6. This agreement may be canceled upon a 1-year written notice by either party to the other. The agreed amount of utility reimbursement for the final quarter of occupancy shall be prorated to the end date of occupancy.

**RESOLUTION TO APPROVE THE FACADE GRANT APPLICATION FOR THE WEST  
SIDE AT 11-13 NORTH 1<sup>st</sup> STREET, MARSHALLTOWN, IOWA**

**WHEREAS**, the City created a program under which grants are provided to owners or business tenants of buildings in the Urban Renewal Area No. 4 for the purpose of improving building facades (the “Façade Improvement Program”) and the Marshalltown Central Business District administers the Façade Improvement Program; and

**WHEREAS**, the Downtown Incentive Grant Committee has received an application for the west side at 11-13 N. 1st Street., which is owned by Gabriela Vargas Avalos, for replacement of bricks, tuckpointing, and painting; and

**WHEREAS**, the property owner(s) or business tenant(s) who will make at least \$5,000 in qualifying improvements are eligible to receive a matching grant and the grant can reimburse eligible construction costs up to 25% or up to \$8,500 for a 1 story structure or \$12,500 if it also relates to upper story improvements, whichever is less; and

**WHEREAS**, the owner has provided an estimate of eligible construction costs of \$14,194 so 25% would be \$3,548.50; and

**WHEREAS**, the Downtown Incentive Grant Committee is recommending that Council approve this grant application since the project meets the requirements and funds certified for the façade grant are available to cover this expenditure.

**THEREFORE, IT IS HEREBY RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN**, to approve the grant up to \$3,548.50 for the reimbursement to Gabriela Vargas Avalos for the facade improvement on the west side of 11-13 N. 1<sup>st</sup> Street.

Passed this 13<sup>th</sup> day of May, 2024, and signed this \_\_\_\_ day of May, 2024.

City Council  
Marshalltown, IA

April 30, 2024

Dear Mayor and Councilors,

I am pleased to present a grant application for Gabriela “Gabby” Vargas Avalos, proprietor of Abarrotes La Salud, situated at 13 N. and 17 N. 1st St. The forthcoming enhancements include tuckpointing and brick repair for the facade of 17 N. 1st Street. Additionally, the north facade of 13 N. 1st Street is slated for new EIFS application and a fresh coat of paint.

On April 18th, the Downtown Incentive Committee convened to deliberate on this grant proposal, which is outlined as follows:

Grant 1: North Side EIFS (Address: 17 N. 1st St.)

The second story will undergo EIFS installation and painting, with an estimated cost of \$7,310.00 and a proposed grant award of **\$1,827.50**.

Grant 2: West Side (Address: 11-13 N. 1st St.)

This involves the replacement of damaged bricks, tuckpointing, and painting, with an estimated cost of \$14,194.00 and a proposed grant award of **\$3,548.50**.

**The total grant amount requested sums to \$5,376.00.**

This application adheres to the established guidelines of the Facade Grant program. Committee members Diana Steiner, Joe Roenfelt, and Deb Millizer have endorsed this application for approval. Doug Husak was not present for the review.

Your continued support for the revitalization and growth of downtown Marshalltown is immensely appreciated. Thank you for considering this grant request as we strive for a vibrant and thriving community.

Regards,

Deb Millizer  
Executive Director  
Marshalltown Central Business District

- Elevator repair or installation;
- Interior floor or ceiling replacement and repair; and,
- Architect work; to include drawings

**RESOLUTION TO APPROVE THE FACADE GRANT APPLICATION FOR THE  
SECOND STORY OF THE NORTH SIDE AT 17 NORTH 1<sup>st</sup> STREET,  
MARSHALLTOWN, IOWA**

**WHEREAS**, the City created a program under which grants are provided to owners or business tenants of buildings in the Urban Renewal Area No. 4 for the purpose of improving building facades (the “Façade Improvement Program”) and the Marshalltown Central Business District administers the Façade Improvement Program; and

**WHEREAS**, the Downtown Incentive Grant Committee has received an application for the second story on the north north side of 17 N. 1st Street., which is owned by Gabriela Vargas Avalos, for EIFS installation and painting on the second story; and

**WHEREAS**, the property owner(s) or business tenant(s) who will make at least \$5,000 in qualifying improvements are eligible to receive a matching grant and the grant can reimburse eligible construction costs up to 25% or up to \$8,500 for a 1 story structure or \$12,500 if it also relates to upper story improvements, whichever is less; and

**WHEREAS**, the owner has provided an estimate of eligible construction costs of \$7,310 so 25% would be \$1,827.50; and

**WHEREAS**, the Downtown Incentive Grant Committee is recommending that Council approve this grant application since the project meets the requirements and funds certified for the façade grant are available to cover this expenditure.

**THEREFORE, IT IS HEREBY RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN**, to approve the grant up to \$1,827.50 for the reimbursement to Gabriela Vargas Avalos for the facade improvement on the second story at 17 N. 1<sup>st</sup> Street.

Passed this 13<sup>th</sup> day of May 2024, and signed this \_\_\_\_ day of May, 2024.

City Council  
Marshalltown, IA

April 30, 2024

Dear Mayor and Councilors,

I am pleased to present a grant application for Gabriela “Gabby” Vargas Avalos, proprietor of Abarrotes La Salud, situated at 13 N. and 17 N. 1st St. The forthcoming enhancements include tuckpointing and brick repair for the facade of 17 N. 1st Street. Additionally, the north facade of 13 N. 1st Street is slated for new EIFS application and a fresh coat of paint.

On April 18th, the Downtown Incentive Committee convened to deliberate on this grant proposal, which is outlined as follows:

Grant 1: North Side EIFS (Address: 17 N. 1st St.)

The second story will undergo EIFS installation and painting, with an estimated cost of \$7,310.00 and a proposed grant award of **\$1,827.50**.

Grant 2: West Side (Address: 11-13 N. 1st St.)

This involves the replacement of damaged bricks, tuckpointing, and painting, with an estimated cost of \$14,194.00 and a proposed grant award of **\$3,548.50**.

**The total grant amount requested sums to \$5,376.00.**

This application adheres to the established guidelines of the Facade Grant program. Committee members Diana Steiner, Joe Roenfelt, and Deb Millizer have endorsed this application for approval. Doug Husak was not present for the review.

Your continued support for the revitalization and growth of downtown Marshalltown is immensely appreciated. Thank you for considering this grant request as we strive for a vibrant and thriving community.

Regards,

Deb Millizer  
Executive Director  
Marshalltown Central Business District

- Elevator repair or installation;
- Interior floor or ceiling replacement and repair; and,
- Architect work; to include drawings

# **2023 ANNUAL REPORT**

---

**Marshalltown Police Department  
Chief Michael Tupper**

# CHIEF'S MESSAGE

---

Dear Citizens of Marshalltown,

We are pleased to present the 2023 Annual Report, which details the activities and accomplishments of the Marshalltown Police Department. I hope this report thoroughly explains the efforts the police department makes to deliver quality and professional police services in Marshalltown.

2023 was another busy year for the Marshalltown Police Department. Your police department remains committed to providing professional public safety services that you can rely upon 24/7. There are three primary challenges facing law enforcement agencies all over the United States. These challenges have remained consistent for the past several years. These challenges are also all related to one another.

1. Recruitment and retention of quality police employees.
2. Building strong community relationships through trust and transparency.
3. Budget challenges.

In 2024, we are addressing a fourth important challenge, officer wellness. Serving as a law enforcement officer, or civilian police employee, is a challenging and stressful endeavor. Our police employees are fatigued. Our police employees are often overworked. Police employees are exposed to a great deal of trauma. Some of these traumas are significant. There can also be a thousand mini traumas that accumulate over time and cause a myriad of health and social problems. Police officers have higher than normal rates of post-traumatic stress disorder as compared to the general public. Police officers have a significantly lower life expectancy than the general public. Divorce rates are high in law enforcement. Suicide rates are high as well. We need to do a better job of helping officers improve and maintain their overall wellness. We will be focusing on physical, mental, and emotional wellness strategies in 2024.

Budget challenges are real and will remain issues of concern for years to come. Local government has been doing more with less for years now. We are at a point of no return where less means we have to reduce or change the services we provide. Continuous changes made by the Iowa legislature as it relates to how property taxes are collected and utilized by cities are going to dramatically impact how cities provide services and how cities budget for these services. These state-level changes have been ongoing for several years now and have resulted in several challenges for local governments as they try to maintain quality services with shrinking revenues. Public safety budgets rely upon property tax revenue almost exclusively. The City of Marshalltown has many budgetary priorities to balance. How the city manages these priorities will affect how we staff city departments, how much we can pay employees, how we train employees, and how we equip our employees. Law enforcement salaries are exploding across Iowa. This trend continued in 2023.

# CHIEF'S MESSAGE

---

Our department is competing with Cedar Rapids and Des Moines metro area police departments for a limited pool of qualified police officer applicants. Oftentimes these other agencies have significantly higher salary packages. These agencies are also actively recruiting law enforcement professionals from other agencies like ours. This problem is not subsiding.

We have a very large body camera and vehicle camera replacement project in the department's near future. This equipment is no longer optional. The city will need to make ongoing, and costly, investments in this equipment annually. The community demands our officers utilize camera technology and our police officers will not work without it. Cameras allow law enforcement to be transparent and accountable. Body-worn cameras legitimize our work. Cameras assist with evidence gathering and help us solve crimes. Cameras also protect our hardworking team members from false allegations of misconduct.

The recruitment and retention of law enforcement professionals is a national crisis and has been so for five years. Hiring quality individuals to serve in the important role of a police officer is a priority for our police department. Unfortunately, it has become very difficult to attract quality candidates willing to take on the job of a police officer. This is a problem affecting law enforcement agencies all over the country. Applications are down significantly and the job market has become very competitive. It seems that every police department in the country is hiring and the applicant pool is shallow. Iowa and Marshalltown have not been immune from these challenges.

The workforce has changed dramatically since 2020. Young people entering the workforce value time off and have legitimate work-life balance concerns. Working nights, holidays, and weekends is a tough sell for many people. We are working hard to recruit locally and to look for non-traditional applicants who have tried other careers and want something that allows them to serve their community. Our police department has become more representative of the demographics in our community but we still have work to do in this regard. We also need to find a way to attract more female applicants.

We are understaffed in the Marshalltown Police Department. We have a budgeted strength of forty-two police officers but have worked for fifty police officers. This problem has existed for over a decade. Our police department staff has done a remarkable job of doing more with less. We will continue to work with the community and our city council to find ways of meeting community needs. We must look for ways to leverage technology and policy as force multipliers so we can successfully address public safety challenges and meet service expectations. The use of automated traffic enforcement technology is one of example of using technology to address a significant community concern. Traffic safety is a common concern I hear about in the community. Excessive speeding is the primary traffic safety concern. We do not have enough uniformed police officers to address all of these concerns. Utilizing automated traffic enforcement is one method we are trying to address community concerns, enhance safety for the motoring public, and do all of this within budget. The use of Flock Public Safety camera technology will also serve as a force multiplier for our department. This technology will enhance our ability to solve crime quickly and effectively.

# CHIEF'S MESSAGE

---

The Marshalltown Police Department enjoys a positive working relationship with the public. These relationships are always fragile. We must protect and nurture community relationships. Building trust and operating transparently are daily responsibilities. We are always looking for ways to enhance our community outreach efforts. Programs like Cops on the Court, citizens police academy, citizen ride-a-longs, Coffee with a Cop, and many others allow us to interact with the public in non-enforcement settings. These programs build trust. They humanize the person behind the badge. These programs also allow us to receive input from the public which we use to improve our services.

The Marshalltown Police and Community Team (MPACT), continues to thrive. MPACT is a partnership between the police department and YSS of Marshall County. In 2021, MPACT was a pilot project to study the delivery of social and crisis services in our community differently by embedding these services into police operations and culture. MPACT has become a vital public safety resource. YSS community advocates work alongside police officers in the field to assist officers in responding to the many different social problems our community members face daily. Thanks to the generous support of the city council, and our community, MPACT was implemented with the hope of providing our community with crisis resources that are timely and effective. MPACT has been a bridge of hope for community members who face daily challenges associated with mental health, addiction, poverty, homelessness, and family crisis concerns. MPACT is working to divert people from the criminal justice system and from unnecessary emergency room hospital visits. MPACT currently has enough funding to continue at least through fiscal year 2025. It will be important that we find funding to ensure this resource is available as a permanent service provided in our community. MPACT is an innovative partnership that we are leveraging to build trust and legitimacy in the community. MPACT is making a difference and our community is safer because of this program.

I remain concerned about the trafficking of illegal narcotics and an opioid crisis that is affecting communities across the United States. Methamphetamine use and trafficking continue to be the criminal problem that drives most of our crime in Marshalltown. However, the dangers of heroin, fentanyl, and prescription drug abuse cannot be ignored. These problems keep me awake at night. As a community, we must carefully monitor how the opioid crisis is affecting Marshalltown. We are increasing our efforts to combat drugs in our community by assigning a detective sergeant to work directly inside the drug task force. We have also been providing additional drug interdiction training for our patrol officers so they can be more involved in combatting the illegal drug trade.

The problems of addiction will require a multi-disciplinary response. Law enforcement alone cannot effectively address problems associated with addiction. Law enforcement should be the call of last resort. Public and private partnerships will be necessary with the goal of ensuring people have access to treatment and recovery services. These services must be readily available and delivered timely.

# CHIEF'S MESSAGE

---

Gun violence has been a problem affecting many communities across the United States. Fortunately, we have not had these same experiences here in Marshalltown. However, these are issues we are concerned about. Your police department routinely trains and prepares for active shooter events. We offer free violent intruder preparedness training for community members and community organizations. We will continue to work with our community partners to do all we can to prevent this type of violence from becoming a problem in our community.

Marshalltown continues to be a safe place in which to live, work, and raise a family. We continue to emphasize community policing initiatives and partnerships to combat crime. The problems we routinely face require strong partnerships between the police department, community members and community organizations. As members of the Marshalltown community, we all have a shared obligation for the policing that occurs here. The members of the police department embrace the daily opportunities we have to serve the public and address community concerns.

The men and women working in the police department continue to embrace the philosophy and goals of the Marshalltown City Council. We deliver services to our community with pride and professionalism, recognizing we are always ambassadors of the city. Despite resource challenges and ever-changing technology needs, we understand our objective remains to serve the residents and guests of our community in a superior manner. Average is not acceptable and we recognize this high standard of professionalism is an expectation in our community.

The future of our police department is bright. We have the best leadership group serving the department in the history of our organization. We also have brought on a group of very talented young police professionals who are fully engaged with our mission and our policing values. I am very proud of the Marshalltown Police Department and the great group of employees serving our community. For nearly thirteen years now, I have asked our staff members to serve the community with Passion & Compassion. They have been up to the task. We will continue to work with our community to solve problems and provide public safety services, which make Marshalltown proud.

We love this community and we are honored to serve.

Best regards,

A handwritten signature in blue ink, appearing to read 'Michael W. Tupper', with a stylized, flowing script.

## MISSION STATEMENT

As part of our community, the MPD works to enhance trust, safety, and quality of life for All. We serve with empathy and compassion while treating all with dignity and respect.

## VISION STATEMENT

- We are a department with innovative equipment and software to perform their duties at a high level.
- We are a model department for policing and program across the state & nation.
- We are a diversified department that is properly staffed to meet the needs of the community and are proactive in safety and inclusion.
- We are a department that utilizes up to date methods, technology and resources to promote safety and well-being.
- We are a department whose employees promote the city and department and the opportunities they present.
- We have an established social media network with the ability to reach the vast majority of people on a daily basis.
- We are a department that prioritizes the wellness and professional development of staff.

# SUPPORT SERVICES

The Support Services Division is responsible for Police Records, Police Citizen Volunteer program, Grant Management, Training and Internal Affairs-Professional Standards. The members of the Support Services Division are dedicated to providing crucial support services to the other divisions within the department and to the public as well.

## CRIME SCENE TECHNICIAN

The crime scene technician assists the Detective Division with methodical processing of crime scenes, small and large. Processing includes scene documentation, evidence processing and evidence collection. The CST works with the state DCI crime lab submitting evidence when needed for further analysis. The CST also serves as the evidence technician handling all physical and digital evidence. This role is vital for maintaining chain of custody for the integrity of cases.

| EVIDENCE | 2021 | 2022 | 2023   |
|----------|------|------|--------|
| Physical | 8358 | 7447 | 10,193 |
| Drugs    | 278  | 343  | 325    |
| Firearms | 25   | 44   | 56     |
| Money    | 16   | 3    | 5      |
| Vehicles | 33   | 15   | 22     |

The charts shown break down evidence by type. An upward trend is the amount of digital evidence managed by the property section. The amount of digital evidence recovered continues its upward trend and is expected to rise dramatically due to the increased use of body cameras, in-car cameras, commercial and residential surveillance cameras as well as the Marshall County Crime Stoppers video evidence.

# SUPPORT SERVICES

## SCHOOL RESOURCE OFFICER

The department has partnered with the Marshalltown Community School District for over a decade to place a police officer in the Marshalltown High School. The School Resource Officer (SRO) provides several services within the high school including crime investigation and prevention, community services, criminal justice education, and enhanced safety for teachers and students. The SRO's daily interactions with teachers, staff, and students improve communication between the community and the Marshalltown Police Department.

In the academic year of 2023, School Resource Officer (SRO) Wolf continued to exemplify dedication to fostering positive relationships within the school community. Officer Wolf's focus on creating, building, and maintaining positive rapport with students and staff has been a cornerstone of his approach to ensuring a safe and supportive educational environment.

Officer Wolf's interpersonal skills and commitment to the well-being of the school community have resulted in the establishment of a positive rapport with both students and staff members. Through regular engagement and open communication, Officer Wolf has become a trusted figure within the school, enhancing the overall sense of security and camaraderie.

A notable highlight of Officer Wolf's initiatives in 2023 is the introduction of "Project Silver Cord." This program, launched with the aim of connecting students with volunteer opportunities in the community, has proven to be a resounding success. Recognizing the importance of community engagement in fostering personal growth and a sense of civic responsibility, Officer Wolf has seamlessly integrated this program into the school's culture.

# SUPPORT SERVICES

## TRAINING REPORT

The Marshalltown Police Department emphasizes training and education. This year, there were 623 documented training sessions attended by employees. This includes in-service training, individual officer training, and specialized training. This does not include training for specialized teams like SWAT and K9. There are a number of training topics each year that officers are required to attend. There are many other elective training opportunities provided to officers.

The Marshalltown Police Department has a number of certified instructors on staff. This allows the instructors to plan and organize training for members of the department. There are also many training opportunities outside the department. MPD employees are encouraged to attend training to improve their job skills and knowledge. Police Legal Sciences (PLS) is an online platform that provides relevant training to officers. MPD utilizes PLS to provide monthly training on a variety of topics. These courses are self-paced and let officers complete them as time allows.

The following are some training topics covered by MPD staff in 2023:

### Police Legal Sciences

- Diverse Communities & Bias Prevention (2 lessons)
- De-Escalation
- Implicit Bias
- Human Trafficking Investigations
- Caselaw Update (4 lessons)
- Legislative Update
- Officer Mental Health
- Sovereign Citizens

### Employee Training

- Leadership
- Accident Investigations
- Crisis Negotiations
- Cryptocurrency Investigations
- Interview & Interrogation
- UAS Pilot Certification
- Human Trafficking
- Less Lethal Instructor
- Defensive Tactics Instructor
- Firearms Instructor
- Active Shooter
- Traffic Safety
- RDS Instructor
- School Safety
- School Resource Officer
- Homicide Investigations

### In-Service Training

- Electronic Control Devices
- Defensive Tactics
- Emergency Driving
- Crowd Control
- Building Search
- Firearms
- Law Update
- Mandatory Reporter
- CPR
- Hazmat
- Bloodborne Pathogens

# SUPPORT SERVICES

## GTSB

The Marshalltown Police Department had a busy year during the 2023 grant contract with the Iowa Governors Traffic Safety Bureau (GTSB). Speed is, and remains, the number one complaint our department hears about from the community. We hear you, and we are doing our best to address your concerns. The GTSB provides funding to specifically enforce speeding. The goal of this funding is to slow people down to save lives. In 2023 the Police Department issued 715 citations for speeding. Speed is one of the leading causes of injury and fatality crashes on Iowa roads. In 2023, 377 Iowans died in a motor vehicle crash. These deaths are largely attributable to speed and lack of seatbelt usage. In 2023 Marshall County had six fatality accidents, two of which occurred in Marshalltown. Of those two, one was likely preventable had the driver been wearing their seatbelt. The Police Department also responded to 368 crashes. Nine of these crashes resulted in ten serious injuries.

Throughout the year the GTSB contract allows for two seatbelt studies to be done. One takes place in the spring/summer, and the second in the fall. These surveys are done covertly, and study the seatbelt usage of the first 100 cars the recorder comes in contact with. The recorder reports the seatbelt usage of occupants of the front seats (driver and front passenger). The results of the studies were as follows: Although Seatbelt usage is high, the Marshalltown Police Department strives for a 100% usage rate. Seatbelts save lives, plain and simple.

The GTSB funding also provides funds for OWI enforcement. With these funds, the department provides extra enforcement near holidays and during large events where alcohol is consumed. Over the Labor Day holiday weekend, the Marshalltown Police Department partnered up with Deputies from the Marshall County Sheriff's Office for an alcohol enforcement project. During the project Officers/Deputies made four arrests for OWI. Over the entirety of the weekend, Officers/Deputies made nine total arrests for operating while intoxicated.

The Marshalltown Police Department patrol division, along with officers using impaired driving GTSB grant funding made 140 OWI arrests in 2023. That is 137% more than in 2022; an alarming trend. This number is significantly higher than those from 2021 and 2020. The Police Department also responded to a large number of hit-and-run accidents, which were likely alcohol-related. Many of these incidents are never resolved. Drinking and driving never mix. Members of the Police Department also participated in a speed project on HWY 330 with the Marshall County Sheriff's Office and the Iowa State Patrol Air wing. During this project officers routinely stopped and cited drivers at 90+ MPH speeds.

# SUPPORT SERVICES

## IOWA LAW ENFORCEMENT ACADEMY

We had many officers graduate basic training. In 2023, Officer Markle graduated from the Iowa Law Enforcement Academy with the 308th Basic Level I Training Class. Officer Solorio graduated from the Iowa Regional Law Enforcement Academy with the 90th Basic Level II Academy Class. Officer Birdwell graduated from the Iowa Law Enforcement Academy with the 310th Basic Level I Training Class. Officers Henson, Morrison and Smith graduated from the Iowa Law Enforcement Academy with the 312th Basic Level I Training Class. The ILEA Basic Training School is 619 hours in length lasting 16 weeks. Recruits are required to stay at ILEA Sunday-Thursday for classes. Training areas consist of Foundations of American Policing, Communication Skills, Life Skills, Legal Topics, Patrol Procedures, Investigations, and Tactical Skills. Upon graduation, officers are required to go through an internal Field Training Officer program before being released for solo patrol duty.

## CAPTAIN KIEL STEVENSON

### INVESTIGATIONS

The Marshalltown Police Department's Detective Division had a busy 2023. Notably, Detectives worked on 3 homicide investigations and 4 attempted murder cases. These cases take a lot of work and dedication and all were completed successfully. The division collectively worked 175 cases, while being short 1 detective for half the year.

In 2023 the Detective Division added two new detectives, Detective Garcia and Detective Tuttle. Both detectives are fairly new to the Police Department but have been great additions to the division.

The Detective Division has a Violence Against Women Detective who is responsible for reviewing all domestic violence, sexual assault, stalking, and violation no contact order cases. In 2023 there were 114 domestic violence cases, 75 sexual assault cases, 2 stalking, and 72 violation no-contact order cases that the Police Department handled and this specialized detective reviewed.

Detective Lageschulte was tasked with taking over the Police Department's Negotiation Team in July. From July through December, the team responded to three events. Detective Garcia is our Internet Crimes Against Children Task Force Officer. He worked on five ICAC cases in 2023.

Throughout 2023 the Detective Division was tasked with many community outreach presentations and events as well as radio spots. The division did over 2 dozen of these community outreach events speaking to different businesses, private organizations, and others. This is something that all of the detectives enjoy doing.

Cases by Type

# OPERATIONS

## CAPTAIN CHRISTOPHER JONES

The Operations Division led by Captain Christopher Jones, is comprised of uniformed officers who are the first responders to calls for service. Considered the foundation of the agency, officers assigned to this division are tasked with preventing and deterring criminal activity while enforcing local and state laws. Specialized assignments assist officers in accomplishing our public service goals. Bike Patrol, Traffic Crash Investigators, K-9, and Drug Recognition Experts all help supplement patrol services with advanced specialized training when needed.

The men and women of the Marshalltown Police Department are focused 24 hours a day on patrolling the streets, traffic control, responding to emergency calls, and conducting police activities in the neighborhoods and business district of Marshalltown. The Operations Division is the most visible section of the department and provides a full range of services seven days a week, twenty-four hours a day. Officers patrol the business districts, parks, recreational areas, walking/bicycle paths, and residential neighborhoods day and night. Patrol officers handle a wide range of responsibilities, calls, and incidents during every shift. Some of their duties include; routine patrol, responding to emergency 911 calls for service, assisting Fire/EMS, traffic enforcement, conducting house checks, assisting motorists, OWIs, and general enforcement. Additionally, officers respond to crimes in progress, domestic situations, violent altercations, burglaries, high-risk incidents, and armed subjects. The Operations Division is committed to working hard to serve the citizens of Marshalltown and build the public's trust.

The city is divided into three patrol areas to equally distribute police resources around the city. Dividing the city into specific patrol areas helps increase public safety and police service in several ways. The defined areas allow shift leaders to better allocate staffing resources, ensure quicker response times, and increase police visibility. At any given time there is a minimum of 5 patrol officers working 24/7, 365 days a year.

## USE OF FORCE

January 1, 2022, the Marshalltown Police Department implemented an electronic use of force reporting system. Having reports entered in a digital format allows for more accurate accounting of use of force incidents, more consistency in reporting, and more accountability through shift level and administrative review. The new system allows our agency to track additional non-lethal force options that were not recorded in previous years.

## MARSHALL COUNTY CRIME STOPPERS

On September 1, 2015, the MPD joined forces with the newly established Marshall County Crime Stoppers Program to launch a telephone, text, and online service to solicit anonymous crime tips from the general public. In 2023, the Marshall County Crime Stoppers solicited over 442 tips, regarding potential criminal activity ranging from Homicide, Robbery, Theft, Warranted Persons, Drug Information and incidents of Child Welfare. Of these tips, 6 of them resulted in awards totaling \$700 for 2023.

Due to the program's overwhelmingly positive community reception, Marshall County Crime Stoppers has quickly gained the full support of all area law enforcement agencies and has been an extremely valuable tool for the Marshalltown Police Department in obtaining timely information on a variety of public safety concerns. More information on the program is available on their website at [www.marshallcountycs.com](http://www.marshallcountycs.com) and Facebook at [www.facebook.com/marshallcountycs/](https://www.facebook.com/marshallcountycs/)

# OPERATIONS

## AUTOMATED TRAFFIC ENFORCEMENT

On May 23, 2023, the City of Marshalltown began an Automated Traffic Enforcement program to reduce excessive speeding at (2) fixed Marshalltown locations. One fixed location is on Lincoln Way near the intersection of Orchard Lane. The second location is on Governor Road near Benjamin Drive. Owners of vehicles traveling more than 10 miles per hour over the posted speed limit.

## SECOND-HAND SALES AND LEADS ONLINE

In 2023, the Marshalltown Police Department collaborated with local business owners and Leads Online continued to collaborate to help reduce the amount of stolen property being sold within our community. The Second-Hand Sales program allows businesses exchanging second-hand property for money to record their transactions in a secure database for law enforcement investigators to cross reference with items of property reported stolen. This program has been developed in other surrounding communities and allows officers more opportunity to track criminals who bring property into our community that has been reported stolen. Marshalltown currently has 6 licensed Second-Hand Sales dealers.

## RESERVE OFFICER PROGRAM

The Reserve Officer program has been an integral, and vitally important, part of the Marshalltown Police Department for decades and we hope to continue the program for many more years to come. The department started 2023 with two certified Reserve Officers and one in training.

# OPERATIONS

## BOBCAT READY PROGRAM

Since 2018, the Marshalltown Police Department in collaboration with the Marshalltown High School and Marshalltown Community College has participated in the Marshalltown High School's Bobcat Ready program. This program is designed to provide junior and senior high school students with an opportunity to earn both high school and college credit while exploring various career fields. For the last 6 years, Marshalltown police officers have taught a class exploring the criminal justice system. Beyond the study of law enforcement, students are taught about the history and makeup of the criminal justice system and how law enforcement, the court system, and our correctional system all work together to serve their respective communities. College credit earned in this course may be used in the furtherance of a student's work toward obtaining an Associate's or Bachelor's degree.

# OPERATIONS

## SWAT- SPECIAL WEAPONS AND TACTICS

The Marshalltown Police Department and Marshall County Sheriff's Office combine resources to form the Special Weapons and Tactics Team. The SWAT team covers high-risk operations occurring anywhere in Marshall County. The SWAT team is comprised of a group of officers who receive extra training in dealing with a variety of high-risk situations. Members of the SWAT team are held to high standards for work performance, physical fitness, and weapons proficiency. The Marshalltown SWAT Team members attend monthly training to maintain proficiency in the latest law enforcement tactics.

The SWAT team currently has 13 officers with specialized training and experience. Several officers on the team are certified instructors in a variety of law enforcement topics including Firearms, Advanced Law Enforcement Rapid Response Training (ALERRT), Citizen Response to Active Shooter Events (CRASE), Defensive Tactics, Less Lethal Munitions, Taser, Ballistic Shield Operation, Driving, and Combat Medical Aid.

The SWAT team is trained to handle a variety of high-risk and complex situations. In 2023, the SWAT team was requested to assist with 8 operations. These operations included high-risk search warrant service, arrest warrant service, barricaded subject resolution, and surveillance. The SWAT team strives to bring these incidents peacefully under control to protect the citizens of Marshalltown.

In 2023, suspects taken into custody by the SWAT team were charged with crimes including Attempted Murder, Armed Robbery, Going Armed with Intent, Possession of a Firearm as a Felon, Reckless Use of a Firearm, Possession of a Dangerous Weapon by a Minor, Theft 1st Degree, Criminal Mischief 4th Degree, Burglary 3rd Degree, Possession of a Controlled Substance with Intent to Deliver, and Violation of a No Contact Order.

SWAT Operations

- High Risk Search Warrant
- Arrest Warrant
- Barricaded Subject
- Surveillance

# OPERATIONS

## DAY SHIFT- LT CHAD HILLERS

In 2023, the Marshalltown Police Department Day Shift was split into two patrol teams comprised of 1 Sergeant and 5 Officers. There was 1 Lieutenant assigned to the day shift who oversaw both patrol teams.

The officers assigned to the day shift are busy and handle a high volume of calls. In addition to routine patrol work, several of the officers have additional responsibilities including SWAT, Hostage Negotiations, Child Safety Seat Technician, IT specialist, Defensive Tactics Instructor, Firearms Instructor, Citizen Response to Active Shooter Events Instructor (CRASE), Advanced Law Enforcement Rapid Response Training Instructor (ALERRT), Field Training Officer, Drone Operator, Bike Patrol, Tobacco Compliance, and K-9 unit.

In 2023, day shift patrol responded to 10,497 calls for service resulting in 1,662 reports being taken and 951 arrests being made. Additionally, day shift patrol made 1,275 traffic stops resulting in 927 citations and 445 written warnings being issued.

# OPERATIONS

## NIGHT SHIFT- LT AJ ACCOLA

Night shift works 19:00-07:00 and consists of two shifts which each cover half the year over the course of 2023. While the roster constantly changed due to manpower and training needs, typically one sergeant and five officers were assigned to each shift with a lieutenant overseeing both shifts. Over the course of 2023, Nights handled 5,899 calls for service, many in difficult and stressful circumstances; took 1,181 reports; conducted 2,575 traffic stops and wrote 1,504 traffic citations; and made 783 arrests. The kinds of calls are typical, but not limited to, on night shift, include burglaries, bar fights, domestic disturbances, drinking and drugged drivers, criminal mischief, alarm responses, medical emergencies, motor vehicle accidents, and weapons calls. Due to the nature of our profession, some nights can be slow and even boring, while others are fast-paced and chaotic. The following are examples of calls the night shift handled in 2023:

In July officers took a report of a missing child who may be the victim of a sexual assault. Officers who arrived to talk to the calling party were greeted by many concerned family and friends of the missing juvenile. Many statements were taken, and information was gathered. Officers on scene had to sift through the information given to come up with a plan of action. Eventually, the detectives were called in, several more interviews were conducted and a warrant was obtained for a local motel. The missing juvenile was located and the information gathered by the shift and the detective division led to the arrest of the suspect.

In August officers were called to a drive-by shooting on the north side of town. Dispatch advised there was at least one person who had been hit by the gunfire. Officers arrived on scene and immediately gave aid to the victim. At the same time, officers started getting statements from bystanders on the scene and took immediate measures to document and preserve the crime scene. While some people at the scene were unable or unwilling to give us much information on the shooting, officers were able to find, document, and seize evidence at the scene. The detective division was then called and took over the investigation. While the shift had no more involvement in the case, the work done on scene was the basis for an investigation that lasted more than three months and led to the arrest of the shooter.

Also, in the month of August 2023, officers responded to the Plaza Mexico (903 W Lincoln Way) for a male subject making threats with a firearm. Officers on scene interviewed witnesses and victims. The detective division also assisted with this. As a result, felony warrants were issued for the suspect's arrest. In early September officers' night shift was able to locate the suspect in an apartment complex. When officers attempted contact, the suspect fled into a common attic space and fell through the ceiling into an adjacent apartment. The Marshalltown SWAT team and K9 Unit were called in and executed a search warrant. The suspect was taken into custody.

# OPERATIONS

## NIGHT SHIFT- LT AJ ACCOLA

In October 2023 officers responded to a domestic assault. Officers interviewed witnesses and victims and found that the suspect had been threatening the victims with a firearm on multiple occasions including pointing the firearm at the victims. The defendant was found to be illegally in possession of a handgun, which was recovered on scene. The defendant was arrested on multiple felony counts including Domestic Assault with a Dangerous Weapon, Child Endangerment with Injury, Violation of a No-Contact Order, and Possession of Narcotics.

While our officers' main duty is to respond to calls, many officers also have additional duties and responsibilities. Our largest commitment is to the training of new officers. This training necessitates multiple field training officers to facilitate the daily training. The night shift had four FTOs: Lt. Accola, Sgt Roush, Officer Shelangoski, and Officer Ortiz. In addition to field training, night shift officers attended other trainings including Technical Accident Investigator, Firearms Instructor, Less Lethal and Chemical Munitions Instructor, SWAT Team Leader School, and Basic Crisis Negotiator.

Officer Ortiz and Sergeant Roush were also given additional responsibilities. They finished the 2022-23 school year as extra duty school resource officers at Miller Middle School. They spent on average four hours each week on campus interacting with school staff, students, and parents. Officer Ortiz and Sgt Roush's emphasis was on school safety and positive relationships. Over the summer break, both were able to attend a School Resource Officer Conference where they learned more about issues specific to the classroom.

# OPERATIONS

## K-9 OFFICERS

### MPD K9 TEAMS

The Marshalltown Police Department Canine Unit currently has two dual-purpose canine teams. K9 Atlas and K9 Timber are both German Shepherd/Belgian Malinois cross. K9 Atlas is handled by Officer Nick Svoboda. K9 Timber is handled by Officer Ross Wolken.

### PATROL WORK

Police canine teams play a vital role in the detection and prevention of crime. MPD K9 teams are trained in patrol work, which includes obedience, evidence recovery, tracking, human scent detection, and criminal apprehension. Police canines are primarily used for their ability to detect human scent and illegal drugs. MPD canine teams are trained to detect methamphetamine, cocaine, and heroin. They are also trained to detect the derivatives of these drugs. The two main drugs encountered by the MPD K9 teams are methamphetamine and marijuana.

### K9 TRAINING

The Marshalltown Police Department follows best practice guidelines for canine training. At a minimum, each canine team participates in an average of 16 hours of training per month in patrol skills and narcotics detection. Canine teams conduct in-house training as well as receiving training from outside sources.

Officer Wolken & K9 Timber

Officer Svoboda & K9 Atlas

### 2023 K9 Deployments

■ Patrol-12 ■ Detection-21

# OPERATIONS

## K-9 OFFICERS

K9 Timber

K9 Timber joined the MPD in 2023. In 2023 K9 Timber and Officer Wolken attended a 10-week basic patrol dog course in Minnesota that included instruction on evidence search, This team also attended a 4-week narcotic detector course.

### 10-WEEK BASIC PATROL DOG COURSE:

The class includes instruction on evidence search, building search, tracking, obedience, agility, tactical deployments, muzzle work, passive gunfire, K-9 first aid, use of force, and report writing. Early class obedience work lays the foundation for all other forms for both dog and handler.

### 4-WEEK NARCOTIC DETECTOR COURSE:

The dogs are trained to the passive alert and are imprinted on Methamphetamine, cocaine, crack, tar heroin, brown powder heroin, ecstasy, and molly. K-9 first aid, report writing, and search warrant preparation are included.

Officer Svoboda and K9 Atlas attending a community event.

K9 Atlas was successfully certified in USPCA Narcotic detection in Black Hawk County in March of 2023 and USPCA Patrol Dog in Le Mars in August of 2023.

# THANK YOU FOR YOUR SUPPORT MARSHALLTOWN!

### **Message from the Chief**

The members of the Marshalltown Fire Department (MFD) are pleased to offer you this annual report for the year 2023. This working document addresses your fire departments daily activities and accomplishments. It is our goal to offer the highest level of service possible for the citizens and to the business community of Marshalltown.

The trend of increasing requests for service continued, but at a smaller percentage. In 2023, the department responded to 3,476 calls for service, which represents a 1.5 % increase from 2022. Overlapping calls increased again in 2023. As discussed in previous years this is a trend that has the potential for serious implications as there may not be a unit available to respond, or greatly delayed, to an emergency.

Like 2022, 2023 was a stable year in terms of employment as no staff changes occurred. In 2024, two members of the department have indicated they will retire.

In 2023, costs for goods and services continued to increase and, in some cases, have doubled creating strains on the operations budget. Additionally, supply chain issues for essential supplies and equipment have continued to be a challenge. Suppliers tell us things are getting better and will continue to improve in 2024. Time will tell if that is true.

Fire code compliance inspections increased for a second consecutive year. Our partnership with Iowa Inspections LLC has helped the department by completing inspections of business/mercantile type occupancies, allowing the department to focus on occupancies that require an operational permit to function. Additionally, the department began revising and digitizing preplans making them more readily available to crews as they are responding to fires. In addition to preplans, old inspection and arson investigation records are being digitized.

The 2023 Annual Report will be the last report submitted by me as I am retiring in 2024. I am appreciative of the opportunity that was afforded me in 2014 when the City Council hired me to be the Fire Chief. It has been an honor to work with the men and women of the department and the city.

Sincerely,

*David Rierson*

David Rierson - Fire Chief

# Organizational Structure

## Administrative Staff & Officers

David Rierson – Fire Chief

Christopher Cross – Deputy Chief

Joshua Warnell – Fire Marshal

Nathan White - Captain

Curtis Raue - Captain

Don Barker - Captain

Jason Johnston - Lieutenant

Nick Hanus - Lieutenant

Matt Gorder - Lieutenant

# Reports and Statistics

## Incident Breakdown

As an all-hazards department, Marshalltown Fire Department responds to emergencies that include fires, emergency medical calls, hazardous materials incidents, water and ice rescue, trench and confined space rescue, and vehicle extrication. In 2023, the department responded to 3,476 requests for service, which represents an increase of 1.5 percent over 2022 (3,423). Listed below are explanations of the categories and a chart breaking down fires by type and other calls for service as well as maps showing distribution of calls throughout the City.

1. EMS: Includes emergency medical calls and extrications.
2. Fires: Includes structural, vehicle, brush and weeds, and rubbish.
3. False Alarm: Includes accidental alarm trips.
4. Service Calls: Includes Smoke or odor scares, animal rescues, water problems, and public assistance.
5. Hazardous Materials: Includes release, containment, and mitigation of a hazardous substance.
6. Good Intent: Includes dispatched & cancelled, smoke scare or odor, authorized controlled burn. And steam, fog, or dust thought to be smoke.

| <b>2023 Fires By Incident Type</b> | <b>Number</b> |
|------------------------------------|---------------|
| Building Fire                      | 22            |
| Cooking Fire (contained)           | 9             |
| Chimney/Flue Fire (contained)      | 1             |
| Outside Storage                    | 3             |
| Outside Rubbish, Trash, Waste Fire | 8             |
| Dumpster Fire                      | 4             |
| Passenger Vehicle Fire             | 10            |
| Mobile Property Fire               | 2             |
| Grass Fire                         | 10            |
| Brush or Brush/Grass Mix Fire      | 2             |
| Overheated Motor/Equipment Failure | 9             |
| Mobile Home                        | 1             |
| <b>Total Fires</b>                 | <b>81</b>     |

### **Turnout/Response Time Fires/Rescues**

In 2023, the average turnout time for fires/rescues/tech rescues is 2:36 and response time of 7:40.

### **Fire Loss**

In 2023 property fire loss is valued at \$225,500, which is a decrease from 2022 (\$449,320). This can be attributed to 17 less structure fires in 2023 vs. 2022. Content fire loss is \$109,600.

### **Fires**

## **EMS**

Marshalltown Fire Department responds with UnityPoint EMS on specific medical calls. In some instances, the department arrives on scene prior to the ambulance and begins patient care. EMS calls responded to include cardiac arrest/CPR, difficulty breathing, seizures, diabetics, strokes, and traumatic injuries. Additionally, there are times when the fire department crew, depending on patient condition, help either render patient care in the ambulance or drive it for the EMS crew to the hospital. In 2023, the department responded to 2,439 medical calls with an average turnout time of 2:14 and response time of 6:05.

## **Apparatus Utilization in Hours**

### Overlapping Calls:

Overlapping calls are those times when the department has more than one call for service occurring at the same time. This is an important statistic to track as it could result in either delayed or no response. In 2023, we experienced a slight increase in overlapping calls (858 vs. 841), which represents 24.70% of our total calls. A visual graph of the overlaps is located below.

### Calls by Day of Week:

### Calls By Hour of the Day:

As in previous years, the department remains busiest between the hours of 8:00 am and 8:00 pm.

## Training

As an all-hazards department, training is an important part of our annual activity. Department training is provided through a combination of in-house instruction, online classes, and outside classes and training. 1,987 person-hours were spent training in the areas of EMS, fire, hazmat, OHSA, and technical rescue (confined space, ropes, and water rescue). Below is a breakdown of the hours.

## **Fire Marshal's Office**

In 2023, total inspection numbers increased to 424, up from 308 in 2022. Each year, the department focuses inspection activities on occupancies that require an annual operational permit to conduct business. This includes restaurants, churches, bars, repair garages, body shops, and hazardous processes. In 2023, the department completed 266 permit inspections. Business occupancies were not being inspected consistently, if at all. To help the inspection process, the department contracted with Iowa Inspections LLC in 2022 to inspect business occupancies in the City. In 2023, Iowa Inspections completed 158 inspections compared to 97 in 2022. The department continued its association with the Compliance Engine. The Compliance Engine sends notification to property owners who have fire protective systems (sprinklers, hood systems, alarm systems) when service is due, as well as when there are deficiencies in need of correction. In 2023, the Compliance Engine reported 682 system inspections of which 68 were non-compliant (9%). In addition to inspections, the department began revising building preplans and making the information available in fire apparatus through our new report management software. Fire Investigators conducted 9 fire investigations of which two were determined to be arson.

### **2023 Activity**

## Compliance Engine Reported Inspections - 2023

### **Fire Prevention & Education**

Each year the fire department conducts learn not to burn training, provides station tours, and participates in community activities. In 2023, the total number of events was 35.

### **Retirements, Deaths, New Employees, Promotions, and Anniversaries**

For those of us in the fire service, the people we work with become our second families. As such, we celebrate members who have reached milestones in their careers and honor those who are no longer with us. Unfortunately, we report the death of retired Captain Tim Hillygus. Additionally, there were no retirements or promotions.

## Anniversaries

Cody German      5 years  
Nick Hanus      15 years  
Patrick Cornwell      15 years (MFD)

## **Department Improvements/Updates**

In 2022, the department took the initial steps in implementing a new records/report management system. Implementation continued into early 2023 with completion in March. The new system provides the department with a more robust fire inspections module and the system combines our building pre-planning with the fire inspections module so when an entry is made in one module it automatically updates the other. This provides the officer-in-charge with immediate information about an occupancy while enroute to the scene. Additionally, the system meets the new state and federal requirements for EMS reporting.

Building preplans and old inspection and arson investigation records are being digitized. This will clean/free up file space in the Fire Marshal's office.

In 2023, the department continued its public-private partnership with Iowa Inspections LLC for the inspection of business occupancies.

In December, the department began the process of replacing our R-177. Fire equipment and apparatus delivery times have not recovered post COVID with delivery times still between 2 – 3 years. Additionally, prices are increasing 10 to 15 percent per year. In January 2024, the department will ask the City Council to approve entering into an agreement to purchase the new vehicle. This will save the city two-year's worth of price increases with delivery in 2026 when the current vehicle is scheduled for replacement.

## **The Future**

The department will continue to see increases in calls for service, driven mostly by the need for emergency medical services. From a budget standpoint, like other departments in the city, it will be challenged to find more cost effective ways to provide service as available resources decrease.

The department is training a member as a Fire Education Specialist to work with the schools and kids on fire safety. This person will also receive Juvenile Firesetter training and work with our younger citizens who have or have the identified propensity for starting fires.

Fire Officers will continue work on their development plans, meeting with the Fire Chief and Deputy Chief quarterly to check progress. Additionally, officers will be provided the opportunity to job shadow the administrative officers as a part of development.

The future of the department will be in the hands of a new Fire Chief. After nearly 10 years with the city and 40 years in the fire service, I have decided to retire. It has been an honor to serve as your Fire Chief and I am appreciative of the opportunity that was given me in 2014. More importantly, it has been a privilege to serve with the members of Marshalltown Fire Department. I wish you all the best!

**RESOLUTION ESTABLISHING A GENERAL INSURANCE STORM, WIND AND  
HAIL DEDUCTIBLE RESERVE FUND**

**WHEREAS,** The City of Marshalltown has been notified of substantial changes to the general insurance policies through ICAP; and

**WHEREAS,** certain catastrophic deductions will now be based individually on structures, vehicles and personal property calculations; and

**WHEREAS,** the city desires to be fiscally responsible and establish a reserve fund set aside program to make monies available for catastrophic insurance deductible amounts; and

**WHEREAS,** Monies shall be set aside into reserve accounts as follows:

- 1) Property tax levy for general insurance when the Council authorizes such a levy during the budget process. Currently available cash: FY 24 \$50,000.
- 2) Property Tax Relief from Local Option Sales Tax, \$100,000/year for FY 24 through FY 26 less any amount levied as part of Tort Liability levy for the reserve.
- 3) Road Use Tax for various equipment stored outside in various locations: Current available cash: \$50,000/ year for FY 24, \$25,000/year FY 25 through FY 28.
- 4) Water Pollution Control \$100,000/year for FY 24 through FY 28.
- 5) Transit. One-time \$25,000 in FY 24.

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:** that such reserves be established as herein designated, with review of balances during budget preparation each fiscal year to meet demands of the current insurance policy.

Passed this 13<sup>th</sup> day of May 2024 and signed this \_\_\_\_\_ day of May 2024.

CITY OF MARSHALLTOWN, IOWA

\_\_\_\_\_  
Joel Greer, Mayor

ATTEST:

\_\_\_\_\_

# MARSHALLTOWN

— I O W A —

Joel Greer, Mayor  
24 North Center Street  
Marshalltown, IA 50158  
PH 641.754.5701 | FX 641.754.5717

**TO:** Mayor and City Council  
**FROM:** Cindy Kendall  
**DATE:** May 7, 2024  
**RE:** General Insurance Deductible Reserves

## Strategic Plan:

- ☐ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☒ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** To stabilize premium and deductible coverage under new changes

**Recommendation:** Direct a resolution be draft for a cash reserve for catastrophic insurance deductions

**Budget Impact:** A reserve (set-aside) will not impact expenditure budgets unless a catastrophic deductible is imposed due to storm damages.

**Description/Background:** At the April 22 meeting, the Council discussed a reserve for insurance deductions motivated by changes from ICAP. Questions posed during that meeting include: A) Should there be seed or startup funding, B) what fund are available and at what levels and C) how many vehicles/equipment are stored outside? (IE: exposure to storm damage)

As most of the funding sources are designated as governmental or proprietary, the recommendation to fund the insurance deductions are listed in the same manner:

Governmental : this includes all police, fire, parks, recreation , library, city hall, public works, and street

Funding:

- 1) Property tax levy for general insurance. This is, of course is only available when the Council considers a change in the tax levy during budget planning. Currently available cash: \$50,000
- 2) Property Tax Relief from Local Option Sales Tax . Recommended available cash: \$100,000/year.
- 3) Road Use Tax for various equipment stored outside in various locations: Current available cash: \$50,000

Possible FY 24 available for reserve: \$200,000. This would accomplish a \$500,000 goal in less than 3 years.

## CITY COUNCIL

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson

Proprietary : this includes all of the utilities which are self-supporting. Funding for deductions:

- 1) Water Pollution As water pollution has the greatest exposure, it should have the largest reserve.  
Recommended available cash: \$100,000/year
- 2) Transit. The transit exposure is limited due to the inside storage built into the PW facility. However, storms still occur when the busses may be in route. Recommend one-time \$25,000.
- 3) Possible FY 24 available for reserve: \$125,000. This would accomplish a \$500,000 goal in less than 4 years.

A resolution is prepared for your consideration and attached to the Council packet.

**CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson

**RESOLUTION APPROVING A MORATORIUM ON PERMITS FOR ACCESSORY  
SOLAR PANEL ARRAYS**

**WHEREAS**, the City Council has identified various issues with the terms and conditions of the City’s Zoning Ordinance concerning “accessory solar panel arrays;” and

**WHEREAS**, to allow the City Plan and Zoning Commission an opportunity to review those portions of the Zoning Ordinance concerning accessory solar panel arrays, including but not limited to Section 156.C.007(G)(3)(a) Ground Mounted and to make recommendations to the Council regarding the same; and to allow the City Council to act on such recommendations, the City Council finds it appropriate to limit the issuance of permits for placement of accessory solar panel arrays while said review is underway; and

**WHEREAS**, in furtherance of the above and foregoing, until such time that the Council modifies or otherwise rescinds the directives of this Resolution, City Staff shall not issue any permits for the placement of accessory solar panel arrays pursuant to City Code Section 156.C.007(G)(3)(a) Ground Mounted; and

**WHEREAS**, the City Council finds that a temporary moratorium on the issuance of permits for the placement of accessory solar panel arrays pursuant to City Code Section 156.C.007(G)(3)(a) Ground Mounted, consistent with the above and foregoing directives, and until such time as the Zoning Ordinance can be reviewed, updated, and amended as deemed appropriate and necessary, is in the best interest of the City, the public in general, and those desirous of installing accessory solar panel arrays.

**NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MARSHALLTOWN, IOWA:** that the above and foregoing moratorium the issuance of permits for the placement of accessory solar panel arrays is hereby approved and that this moratorium shall continue in full force and effect until repealed by further Resolution of the City Council.

**TO:** Mayor and City Council  
**FROM:** Cindy Kendall  
**DATE:** May 9, 2024  
**RE:** Moratorium on Permits For Ground Mounted Accessory Solar Panel Arrays

---

**Strategic Plan:**

- ☒ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** To adopt a moratorium on permits for ground mounted accessory Solar Panel Arrays under City Zoning Code Section 156.C.007(g)(3)(a) "Ground mounted solar arrays" as the Planning and Zoning Commission prepares changes to the City Zoning ordinance addressing this topic.

**Recommendation:** As solar array installations are becoming very active in Marshalltown; certain portions of the Zoning Code need to be better defined to eliminate unaddressed or ambiguous language pertaining to the ground mounted solar arrays. Rather than allowing installations that are not consistent with current or future zoning regulations, the Commission is seeking a moratorium on issuing such permits.

**Budget Impact:** None

**Description/Background:** In recent weeks, the Planning and Zoning Commission have been researching and taking public input on the installation of in ground solar arrays. Until these changes go through the required process and public hearings, the Commission is seeking the moratorium on issuing permits. With the passage of this Council's moratorium information will be available to all businesses selling solar arrays as well as to the public.

**RESOLUTION OF SUPPORT FOR CITY OF MARSHALLTOWN, TRAILS INC, THE IOWA NATURAL HERITAGE FOUNDATIONS AND THE HARDIN COUNTY TRAILS COMMISSION TO SUBMIT A JOINT APPLICATION FOR A FEDERAL ACTIVE TRANSPORTATION INFRASTRUCTURE INVESTMENT PROGRAM (ATIIP) GRANT FOR COMPLETION OF THE 34 MILE- IOWA RIVER’S EDGE TRAIL (IRET)**

**WHEREAS**, TRAILS Inc., in unison with Iowa Natural Heritage Foundation and the Hardin County Trails Commission, is pursuing a federal ATIIP ([https://www.fhwa.dot.gov/environment/bicycle\\_pedestrian/atiip/](https://www.fhwa.dot.gov/environment/bicycle_pedestrian/atiip/)) grant project; and

**WHEREAS**, the total proposed project will be approximately \$19,000,000 with trail to be completed from Eldora to the City of Marshalltown bringing recreational and economic development opportunities through all IRET communities including Steamboat Rock, Eldora, Gifford, Union, Liscomb, Albion and into Marshalltown; and

**WHEREAS**, the City of Marshalltown, as a local governmental organization is eligible to apply for the ATIIP grant, and such application is due on or before June 17<sup>th</sup> 2024; and

**WHEREAS**, the ATIIP application will request \$12,000,000; and,

**WHEREAS**, the remaining \$7,000,000 will be from cash-on-hand, private donations and pledges, grants, and funds given or pledged by local, state, and federal governments.

**NOW, THEREFORE, BE IT RESOLVED BY CITY COUNCIL OF THE CITY OF MARSHALLTOWN**, to support the application and be the applicant of record for the ATIIP Iowa River’s Edge Trail project, which includes \$19,000,000 in project costs supported with the application of \$12,000,000 in ATIIP funds, and the Mayor and City Clerk are directed to execute the documents necessary for the City of Marshalltown applications.

Passed this 13<sup>th</sup> day of May, 2024 and signed this \_\_\_\_\_ day of May, 2024.

**TO:** Mayor Greer and the City Council  
**FROM:** Cindy Kendall, Consultant  
**DATE:** May 9, 2024  
**RE:** Resolution of Support and Applicant of record for ATIIP grant

---

**Strategic Plan:**

- ☒ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☒ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** To provide support for Completion of Iowa River's Edge Trail

**Recommendation:** To approve the resolution as proposed

**Budget Impact:** Cost of coordination and cooperation with other partners to present a successful grant application

**Description/Background:** The City has an opportunity to participate in a joint application for a Federal Active Transportation Infrastructure Investment Program (ATIIP) Grant. This grant would enable multiple jurisdictions (Eldora, Gifford, Union, Liscomb, Albion and Marshalltown) to complete a 34 mile bike path. The \$19,000,000 project, if successful in the application process, would be \$12,000,000 federal dollars and \$7,000,000 from cash-on-hand, private donations and pledges, other grants and funds given or pledged by local, state and federal programs.

This project fulfills multiple goals as listed in the Marshalltown Comprehensive Plan for economic development, open spaces and recreational bike paths. Bonus is the interconnectivity with surrounding communities which will foster greater use of the trail to all destinations.

## Bid Form – 411 West Linn Street

Describe the intended use for the property, bidder's experience in residential property development and construction, and any other relevant information. Please attach a separate sheet of paper if needed:

Property will be used as the site of a single family dwelling, moved from 110 W. Linn St.

See attached document for more information on the details of the move and bidder's experience.

Please provide the following information about the residential property to be built:

|                 |                        |                    |          |
|-----------------|------------------------|--------------------|----------|
| Square Footage: | 1456 sq ft             | Construction Cost: | \$50,000 |
| Number Stories: | 2                      | Number Bedrooms:   | 3        |
| Type of Home:   | Single family detached | Number of Units:   | 1        |

My bid for 411 West Linn Street: \$ 1,000

Please list any local (Marshall County) subcontractors or suppliers:

Ciro Dilorio Masonry & Landscaping, LLC

Ferneau & Sons House Moving & Raising, LLC

CH I acknowledge and agree to all of the requirements detailed in the bid notice and specifically acknowledge and agree to the requirement to complete construction of a home on the Property suitable for occupancy within 24 months.

CH I acknowledge and agree to fully comply with the requirements of the Marshalltown Code of Ordinances as it may relate to construction activities upon the Property.

CH I acknowledge and agree the City of Marshalltown has the right to reject any or all bids.

### Bidder Information:

RE: Proposal to Purchase City Owned Lot at 411 W Linn St

Dear Mayor Joel Greer & City Clerk Alicia Hunter:

This is a proposal to purchase the vacant lot located at 411 W. Linn St. in Marshalltown, Iowa from the City of Marshalltown by Linn Street Properties, LLC.

Linn Street Properties, LLC ("LSP") is attempting to purchase and then move two houses currently owned by the Friends of the Marshalltown Public Library ("Friends") and needs to find nearby vacant lots to move the houses to. Currently the Friend's houses are located on the 100 block of W. Linn St. and the lot at 411 W. Linn St. would be a perfect location for one of the houses since it minimizes the distance to move the home.

As you may know, the Marshalltown Public Library is considering expanding the physical size of the library in the near future and would like the land that the houses are currently located for that expansion. Other uses include a garage to store the book mobile. Instead of demolishing the houses, it would be mutually beneficial if the houses were instead moved to a vacant lot in the city and then sold to a local family. This would add another good house back onto the tax rolls for the city and provide a place for a family to call home in the tight housing market of Marshalltown.

LSP shall purchase the houses from the Friends, the vacant lot from the City, and contract the overall move of the houses. The Friends shall retain the land the houses are located on for the future library expansion and save on demolition expenses.

Recently LSP purchahsed 406 W. Linn St, from the city. That lot along with 411 W. Linn St. will allow LSP to begin construction of the foundations and moving of the houses. Both lots were needed to begin construction since building both together will save time and money.

LSP proposes to buy the lot at 411 W. Linn St. for \$1000.00

Sincerely,

Craig Harabedian  
President  
Linn Street Properties, LLC

**TO:** Mayor and City Council  
**FROM:** Alicia Hunter, City Clerk  
**DATE:** March 21, 2024  
**RE:** Sealed bid process for 411 W Linn St

## Strategic Plan:

- ☒ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** Increase housing opportunities at all levels.

**Recommendation:** Issue sealed bid for neighborhood improvement for 411 W Linn Street.

**Budget Impact:** Revenue from sale of lot.

**Description/Background:** The city property at 411 W Linn Street was part of the in-fill housing grant. At the March 11, 2024 council meeting, staff were directed to dispose of the lot by sealed bid. I was contacted by Craig Harabedian with Linn Street Properties who is interested in purchasing this lot. Mr. Harabedian has an agreement with the Friends of the Library to purchase and move the 2 houses they own. Mr. Harabedian was able to purchase the city property at 406 W Linn Street through the request for sealed bid for neighborhood improvement. He requested the opportunity to purchase 411 W Linn Street through this same process. Moving the houses to the same block would be ideal logistically for the project. Attached is the bid form that would be utilized outlining the bid requirements.

Staff request approval to issue the request for sealed bid with neighborhood improvement for 411 W Linn St. The request would be issued April 2<sup>nd</sup>, with bids due on May 7<sup>th</sup>. Council would review bids at the May 13<sup>th</sup> meeting. If the council would like to accept a bid the public hearing would be set on May 28<sup>th</sup> and the public hearing held on June 10<sup>th</sup> to approve the sale.

Included in the packet is the bid that was accepted for 406 W Linn Street for more information on the project.

## 05/09/24 UPDATE:

In the packet is the only proposal received for this RFP for your consideration.

## CITY COUNCIL

Al Hoop, Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson

---

**TO:** Mayor Greer and City Council  
**FROM:** Heather Thomas, Public Works Director (*assisting in Community Development Director and City Administrator duties*)  
**DATE:** May 13<sup>th</sup>, 2024  
**RE:** RFP for 20 E Main Street; Asbestos & LBP Findings

---

**Strategic Plan:**

- ☒ Strategy 1: Expand and improve development in the community.
- ☐ Strategy 2: Enhance Marshalltown's public image.
- ☐ Strategy 3: Continually improve and sustain the City's infrastructure, organization, and services.
- ☐ Strategy 4: Partner with citizens, for-profit, non-profit, and others to improve quality of life.

**Plan Objective:** Invest in Downtown redevelopment

**Recommendation:**

Proceed with issuing RFP, as presented. Do not proceed with City undertaking abatement or interim control measures associated with asbestos or lead based paint prior or independent of redevelopment of the building.

**Budget Impact:**

Releasing RFP will be done through the City's website, social media, and city partners that are involved with or communicate frequently with potential developers. No financial commitments are needed from Council at this time if the direction is to proceed with issuing RFP, as presented.

**Description/Background:**

Administrator Gaa brought forth a discussion item December 11, 2023 regarding issuing a request for proposal for disposal of city owned, 20 E Main Street. Council asked for additional information regarding the lead-based paint and asbestos present in the building and what the costs to abate that prior to a real estate transaction would take place.

City staff worked with Impact 7G, as part of our Brownfields Grant Program, and have summarized below where positive results for these materials were found during testing and an opinion of probable costs to control/abate.

City staff do not recommend the city proactively hire a Contractor to control or abate these materials at this time. Reasoning for this recommendation follow the test results and costs included herein.

City staff recommend proceeding with an RFP process to dispose of this building to someone committed to redeveloping the building. In order to do that:

- City staff met with the proposed selection committee for the RFP process to further discussion and define a process. Ultimately, we are recommending a two-step process where letters of

**CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

interest are collected first to identify developers that line up with the City's goals for the building and then invite them to submit a more robust proposal in a second step. We have updated Step 1 of the RFP (attached) to reflect those goals and that process. The proposed timeline of that Step 1 is:

- Issue RFP - Tuesday, May 14th
- Property Viewing 1 → Tuesday, May 21st @ 10 AM
- Property Viewing 2 → Tuesday, May 28th @ 10 AM
- Letters of Interest Due → Tuesday, June 11th @ 10 AM to City Clerk
- Cindy also has worked with an attorney to identify the requirements of issuing it as an RFP in relation to following Iowa Code 403.8. In order to follow that process, an RFP for appraisal services will be contracted later this month (Appraisal RFP due May 17<sup>th</sup>).
- The timeline for Step 2 will be determined at a later date.

#### **Lead Based Paint:**

Positive samples were identified as follows.

| <b>Component</b>  | <b>Location</b>                                                     | <b>Interim Controls Options</b>                                    | <b>Abatement Control Options</b> |
|-------------------|---------------------------------------------------------------------|--------------------------------------------------------------------|----------------------------------|
| Ceiling           | 1 <sup>st</sup> Floor Room 1;<br>Mezzanine Rooms 7, 8, Restroom 2   | Paint stabilization and then apply two coats of high quality paint | Enclose or replace components    |
| Wall              | 1 <sup>st</sup> Floor Room 2;<br>2 <sup>nd</sup> Floor Room 15      | Paint stabilization and then apply two coats of high quality paint | Enclose or replace components    |
| Floor             | 1 <sup>st</sup> Floor Room 2                                        | Paint stabilization and then apply two coats of high quality paint | Enclose or replace components    |
| Window Components | 1 <sup>st</sup> Floor Room 3;<br>2 <sup>nd</sup> Floor Rooms 11, 12 | Paint stabilization and then apply two coats of high quality paint | Enclose or replace components    |
| Wall Trim         | Mezzanine Room 8                                                    | Paint stabilization and then apply two coats of high quality paint | Enclose or replace components    |
| Door Components   | 2 <sup>nd</sup> Floor Room 15                                       | Paint stabilization and then apply two coats of high quality paint | Enclose or replace components    |
| Chair Rail        | 2 <sup>nd</sup> Floor Room 12                                       | Paint stabilization and then apply two coats of high quality paint | Enclose or replace components    |

Additional information can be found in RFP Attachment D. Within Attachment D:

- Standards and procedures to follow if LBP will be disturbed as part of a building renovation are included.
- The LBP Inspection Report is included as Appendix C.
- LBP Interim Control/Abatement opinion of probable cost is included as Appendix D where these items were done independent of a building renovation project. Control of LBP could be done utilizing either interim controls or abatement or a mix of both.
  - The opinion of probable cost for interim controls is estimated to be \$9,950 with another \$6,000 for cleanup and containment, totaling \$15,950.
  - The opinion of probable cost for abatement is \$21,050 with another \$6,000 for cleanup and containment, totaling \$27,050.

#### **CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

City staff are not recommending a project ahead of sale for the following reasons:

1. LBP is not a required abatement item when it is discovered.
2. The biggest concern with LBP is in areas where children under the age of 6 are more likely prone to come in contact with the paint and ingest it through chewing on it or touching it, then licking fingers.
3. With the structure needing substantial demolition and renovation – I don't see where lead control would be a worthwhile investment for the city to complete ahead of selling the property. In my opinion, it would not make sense for the city to go in and enclose or replace ceilings, walls, flooring, etc ahead of the sale. These items are likely to be a part of any demolition/renovation of the building.
4. When these items are part of a renovation, the concentration of lead as a percentage of the renovated materials being removed is anticipated to be small enough, that no additional measures are required (because they would not be considered hazardous) other than disposing as a normal Contractor would with any construction waste – just tell them not to lick their hands. [This is our interpretation of requirements only; Contractor shall investigate and follow all state and federal requirements and health recommendations.]

#### **Asbestos:**

Positive samples were identified as follows.

| Sample #   | Material Substance     | Color | Floor     | Location                                   | Asbestos Content | Est. Quantity     |
|------------|------------------------|-------|-----------|--------------------------------------------|------------------|-------------------|
| 20E-02 ABC | Boiler Insulation      | Gray  | B         | Room 19 on Boiler                          | 75% Chrysotile   | 110 SF            |
| 20E-03 ABC | Joint Mud              | White | B         | Throughout Basement                        | 30% Chrysotile   | 40 EA             |
| 20E-04 ABC | Pipe Insulation        | Gray  | B         | Throughout Basement                        | 65% Chrysotile   | 90 LF             |
| 20E-05 ABC | Duct Wrap              | White | B         | On Old Duct Locations                      | 70% Chrysotile   | 40 SF             |
| 20E-10 ABC | Tar Pipe Wrap          | Black | B         | North Side Main Room                       | 2% Chrysotile    | 15 LF             |

| 20E-57     | 12" x 12" Floor Tile   | Gray  | 2         | Randomly In Room 14                        | 3% Chrysotile    | Included in Above |
| 20E-58     | 12" Floor Tile Mastic  | Black | 2         | Randomly in Room 14                        | <1% Chrysotile   | 20 SF             |
| 20E-60     | Drywall Compound       | White | 2         | 2 <sup>nd</sup> Floor Walls                | <1% Chrysotile   | 1,500 SF          |
| 20E-63     | Window Frame Caulk     | White | Exterior  | Brick Window Union                         | <1% Chrysotile   | 20 LF             |
| 20E-65     | Brick Caulk            | Gray  | Exterior  | South Entrance on Top of Brick Façade      | 2% Chrysotile    | 2 LF              |

#### **CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

Additional information can be found in RFP Attachment D. Within Attachment D:

- Identified asbestos containing materials associated with the building and describes work processes that must be followed if asbestos is to be disturbed during renovation (or even demolition).
- The ACM Inspection Report is included in Appendix A.
- The ACM Abatement opinion of probable cost is included in Appendix B where these items were done independent of a building renovation project.
  - The opinion of probable cost to abate all ACM in the structure is \$37,945.

City staff are not recommending a project ahead of sale for the following reasons:

1. With the structure needing substantial demolition and renovation and some of the samples being taken from components of the project that are likely to be demolished, it may be more cost effective in certain circumstances to demolish/dispose of the entire object as asbestos containing material when compared to abating the asbestos in place and then coming back to demolish.
2. In addition, the floor tile located on the mezzanine tested positive. We believe that the mezzanine will likely need to be removed due to structural reasons. While we are not structural engineers, we question the capacity of the existing mezzanine to handle much construction/demolition on that level.
3. There may be circumstances where materials that contain asbestos do not need to be disturbed. Knowing that they are present is helpful to protect safety of construction workers and future plans, but the fact that they are present – isn't in itself an immediate health or safety concern.
4. Potential redevelopment funding opportunity for the Developer (see below).

#### **Opportunities for Clean-Up Funding:**

City staff met with representatives of several consulting and state agencies to better understand opportunities for financial assistance in these types of situations. Below are what we feel may be pursuable opportunities.

#### **City Ownership –**

The City would be eligible to make a request to the DNR's Brownfield Redevelopment Program for an environmental cleanup. This program could provide a 75% reimbursement grant (up to \$25,000) for abatement of the asbestos containing materials (ACM). A \$33,333 project would be required to meet the maximum the grant funding. This is a one and done funding pot, once you utilize clean-up funds on a property once, you can't receive additional. (See attached brochure.)

#### **Private Ownership –**

Based on the RFP we have drafted and City's goal for redevelopment, this project seems that it would be eligible for application to IEDA's competitive Redevelopment Tax Credit program. Given the identified asbestos, this site is classified as a Brownfield Site. Only private developers are eligible for this program.

The Redevelopment Tax Credit Program offers options to compete for a redeemable tax credit of 12% of the redevelopment of a commercial property that is sitting vacant, underutilized, or otherwise outdated (known as a Grayfield) or 24% if the site is classified as a Brownfield. This percent is based on the whole redevelopment, not just the extra environmental costs. In other words, leaving the asbestos unabated may make a developer's application stronger and double

#### **CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

the percentage of redevelopment costs that could be eligible for this program. Applications are due in late August of each year. In preliminary conversations, those familiar with the program think this building would have a very good project. Whether 12% or 24%, the maximum tax credit reimbursement award that can be received is \$1.5M.

Below is the link to the program and also attached are the program rules (IAC, Economic Development [261], Chapter 65).

<https://www.iowaeda.com/redevelopment-tax-credits/>

Also, for those potential developers interested, IEDA's contact person for more information on the Redevelopment Tax Credit program is shown below. It is important to note that this is a different program than the historic tax credit program that some buildings have used in the past.

matt.rasmussen@iowaeda.com

Until a better understanding, discussion, and ultimately a Development Agreement is put in place with the buyer of this property after evaluating RFPs, it seems there is enough of a reason for the City not to proceed with any abatement/interim controls at this time. There may be potential for future discussions with the selected proposal where a scenario where after coordination and communication, the city pursuing the DNR's Brownfield Redevelopment Program (while still in City ownership) may be advantageous for the Developer, but those discussions and decisions feel premature.

## IOWA BROWNFIELD REDEVELOPMENT PROGRAM TECHNICAL AND FINANCIAL ASSISTANCE

ENVIRONMENTAL SERVICES DIVISION | [WWW.IOWADNR.GOV](http://WWW.IOWADNR.GOV)

Brownfields are sites where environmental contamination concerns – whether real or perceived – have hindered resale, redevelopment and reuse. Brownfields may include former gas stations, petroleum bulk plants, fertilizer warehouses, or vacant industrial plants or factories, for example.

The Iowa Brownfield Redevelopment Program, funded by the federal Brownfield Revitalization Act, provides technical and financial resources to communities to help them find answers to environmental questions at brownfield sites. The program also assists with environmental cleanup planning and implementation to prepare sites for reuse or redevelopment.

### Eligibility

Cities, counties, area development corporations, and non-profit organizations that wish to acquire and redevelop

Above: Brownfield sites prior to redevelopment  
Below: Renovated factory site in Council Bluffs

brownfield sites are eligible for the program. Financial assistance cannot be provided to parties that have obtained sites without first conducting an environmental due diligence process, at petroleum sites where there is a liable and viable party, to private parties for their own environmental due diligence, nor directly to any entity that would have caused, or be responsible for, any potential contamination to be addressed.

### Services available

- Cost reimbursement for an "all appropriate inquiries" report about the recorded development and environmental history of a site prior to purchase (known as a Phase I environmental site assessment).
- Free services for Phase II pre-purchase environmental site assessments, involving sampling soil and groundwater for contaminants.
- Cost reimbursement for certified asbestos inspections.
- 75% cost-share for environmental cleanups (up to \$25,000), including:
  - Asbestos removal prior to demolition or renovation
  - Lead-based paint removal prior to renovation
  - Cleanup of soil or groundwater contaminants (requires enrollment in the Land Recycling Program, a certified cleanup program).

All financial assistance requires a contract with DNR before assessment and inspection activities may begin.

### Community involvement

The community should have a redevelopment and reuse plan for the site, and financial resources that would result in one of the following once the environmental issues are addressed:

- Direct economic redevelopment through resale and reuse of the site to create tax base and job creation
- Value-added use of direct benefit to the public (such as a new library, community center, historic preservation)
- Conversion to greenspace, recreational use, or natural habitat restoration.

CHAPTER 65  
BROWNFIELD AND GRAYFIELD REDEVELOPMENT

**261—65.1(15) Purpose.** The brownfield redevelopment program is designed to provide financial and technical assistance for the acquisition, remediation, or redevelopment of brownfield sites. The redevelopment tax credits program for brownfields and grayfields is designed to provide financial assistance for the acquisition, remediation, or redevelopment of brownfield and grayfield sites.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 9746B, IAB 9/7/11, effective 8/19/11; ARC 0007C, IAB 2/8/12, effective 3/14/12; ARC 1827C, IAB 1/21/15, effective 2/25/15]

**261—65.2(15) Definitions.** As used in these rules, unless the context otherwise requires, the definitions in Iowa Code section 15.292 shall apply to this chapter. The following definitions shall also apply:

*“Abandoned public building”* means a vertical improvement constructed for use primarily by a political subdivision of the state for a public purpose and whose current use is outdated or prevents a better or more efficient use of the property by the current owner. “Abandoned public building” includes vacant, blighted, obsolete, or otherwise underutilized property.

*“Acquisition”* means the purchase of brownfield or grayfield property.

*“Advisory council”* means the brownfield redevelopment advisory council as established in Iowa Code section 15.294 consisting of five members.

*“Affiliate”* or *“affiliated entity”* means any entity to which one or more of the following applies:

1. The entity directly, indirectly, or constructively controls another entity.
2. The entity is directly, indirectly or constructively controlled by another entity.
3. The entity is subject to the control of a common entity. A common entity is one which owns directly or individually more than 10 percent of the voting securities of the entity.

*“Authority”* means the economic development authority.

*“Board”* means the members of the economic development authority board appointed by the governor and in whom the powers of the authority are vested pursuant to Iowa Code section 15.105.

*“Brownfield site”* means an abandoned, idled, or underutilized industrial or commercial facility where expansion or redevelopment is complicated by real or perceived environmental contamination. A brownfield site includes property contiguous with the property on which the individual or commercial facility is located. A brownfield site shall not include property which has been placed, or is proposed for placement, on the national priorities list established pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. 9601 et seq.

*“CERCLA”* means Comprehensive Environmental Response, Compensation, and Liability Act as defined at 42 U.S.C. 9601 et seq.

*“Characterization”* means determination of both the nature and extent of contamination in the various media of the environment.

*“Community”* means a city or county, or an entity established pursuant to Iowa Code chapter 28E.

*“Contaminant”* means any hazardous substance found in the various media of the environment.

*“Council”* means the brownfield redevelopment advisory council, as established in Iowa Code section 15.294.

*“Fund”* means the brownfield redevelopment fund established pursuant to Iowa Code section 15.293.

*“Grant”* means the donation or contribution of funds with no expectation or requirement that the funds be repaid.

*“Grayfield site”* means an abandoned public building or an industrial or commercial property that meets all of the following requirements:

1. Infrastructure on the property is outdated or prevents an efficient use of the property, including vacant, blighted, obsolete, or otherwise underutilized property.
2. Property improvements and infrastructure are at least 25 years old and one or more of the following conditions exist:
  - Thirty percent or more of a building located on the property is available for occupancy and has been vacated or unoccupied for at least 12 months;

- Assessed value of improvements on the property has decreased by 25 percent or more;
- The property is used as a parking lot;
- Improvements on the property no longer exist.

*“Green development”* means development which meets or exceeds the sustainable design standards as established by the state building code commissioner pursuant to Iowa Code section 103A.8B.

*“Hazardous substance”* means “hazardous substance” as defined in 567—Chapter 137 and includes petroleum substances not addressed in 567—Chapter 135.

*“Loan”* means an award of assistance with the requirement that the award be repaid, and with term, interest rate, and any other conditions specified as part of the award. A deferred loan is one for which the payment of principal or interest, or both, is not required for some specified period. A forgivable loan is one for which repayment is eliminated in part or entirely if the borrower satisfies specified conditions. A loan guarantee is a third-party commitment to repay all or a portion of the loan in the event that the borrower defaults on the loan.

*“Political subdivision”* means a city, county, township, or school district.

*“Previously remediated or redeveloped”* means any prior remediation or redevelopment, including development for which an award of tax credits under this chapter has been made.

*“Qualifying investment”* means costs that are directly related to a qualifying redevelopment project and that are incurred after the project has been registered and approved by the board. “Qualifying investment” only includes the purchase price, the cleanup costs, and the redevelopment costs.

*“Qualifying investor”* means an applicant who has been accepted by the department to receive a redevelopment tax credit.

*“Qualifying redevelopment project”* means a brownfield or grayfield site being redeveloped or improved by the property owner. “Qualifying redevelopment project” does not include a previously remediated or redeveloped brownfield or grayfield site.

*“Redevelopment”* means construction or development activities associated with a qualifying redevelopment project that are undertaken either for the purpose of constructing new buildings or improvements at a site where formerly existing buildings have been demolished or for the purpose of rehabilitating, reusing or repurposing existing buildings or improvements. Redevelopment typically includes projects that result in the elimination of blighting characteristics as defined by Iowa Code section 403.2.

*“Redevelopment tax credits program”* means the tax credits program administered pursuant to Iowa Code sections 15.293A and 15.293B.

*“Remediation”* includes characterization, risk assessment, removal and cleanup of environmental contaminants located on and adjacent to a brownfield site. Funding awards used for remediation must comply with appropriate Iowa department of natural resources requirements and guidelines.

*“Risk evaluation”* means assessment of risks to human health and environment by way of guidelines established in 567—Chapter 137.

*“Sponsorship”* means an agreement between a city or county and an applicant for assistance under the brownfield redevelopment program in which the city or county agrees to offer assistance or guidance to the applicant. Sponsorship is not required if the applicant is a city or county.

*“Sustainable design”* means construction design intended to minimize negative environmental impacts and to promote the health and comfort of building occupants including, but not limited to, measures to reduce consumption of nonrenewable resources, minimize waste, and create healthy, productive environments. Sustainable design standards are also known as green building standards pursuant to Iowa Code section 103A.8B.

*“Vertical improvement,” “improvement” or “improved”* means the same as defined in Iowa Code section 15J.2.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 9746B, IAB 9/7/11, effective 8/19/11; ARC 0007C, IAB 2/8/12, effective 3/14/12; ARC 0944C, IAB 8/7/13, effective 9/11/13; ARC 1827C, IAB 1/21/15, effective 2/25/15; ARC 6042C, IAB 11/17/21, effective 12/22/21]

**261—65.3(15) Eligible applicants.** To be eligible to apply for program assistance, an applicant must meet the following eligibility requirements:

**65.3(1) *Site owner.*** A person owning a site is an eligible applicant if the site for which assistance is sought meets the definition of a brownfield or grayfield site. The brownfield redevelopment program requires that an applicant has secured a sponsor prior to applying for program assistance. Sponsorship is encouraged but not required for the redevelopment tax credits program for brownfields and grayfields.

**65.3(2) *Nonowner of site.*** A person who is not an owner of a site is an eligible applicant if the site meets the definition of a brownfield or grayfield site. The brownfield redevelopment program requires that an applicant has secured a sponsor prior to applying for program assistance. Prior to applying for financial assistance under the brownfield redevelopment program, an applicant who is not an owner of a site shall enter into an agreement with the owner of the brownfield site for which financial assistance is sought. The agreement shall at a minimum include:

- a.* The total cost for remediating the site.
- b.* Agreement that the owner shall transfer title of the property to the applicant upon completion of the remediation of the property. Title transfer is not required when the applicant is the owner of the property and no title transfer occurs.
- c.* Agreement that upon the subsequent sale of the property by the applicant to a person other than the original owner, the original owner shall receive not more than 75 percent of the estimated total cost of the remediation, acquisition or redevelopment.

**65.3(3) *Phased projects ineligible for tax credits.*** Tax credits for brownfield and grayfield redevelopment are only available for qualifying redevelopment projects. Because a qualifying redevelopment project does not include a previously remediated or redeveloped site, a project for subsequent redevelopment at the same site for which tax credits have already been awarded is not eligible for additional tax credits on redevelopment at that site. The authority and the council will determine whether a project constitutes subsequent redevelopment at the same site by considering the following factors:

- a.* Whether the redevelopment described in multiple proposed projects is planned for a single parcel.
- b.* Whether the redevelopment described in multiple proposed projects is planned for adjacent or contiguous parcels or parcels in very close physical proximity.
- c.* Whether all involved parcels are owned by the same entity, different entities, or affiliated entities.
- d.* Whether a proposed project is the result of the same planning process as another project.
- e.* Whether the proposed projects are being developed by the same entity, different entities, or affiliated entities.
- f.* Whether the development of one proposed project reflects a temporal connection to another proposed project.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 0007C, IAB 2/8/12, effective 3/14/12; ARC 0944C, IAB 8/7/13, effective 9/11/13; ARC 1827C, IAB 1/21/15, effective 2/25/15]

## **261—65.4(15) Eligible forms of assistance and limitations.**

**65.4(1) *Financial assistance.*** Eligible forms of financial assistance include grants, interest-bearing loans, forgivable loans, loan guarantees, tax credits, and other forms of assistance under the brownfield redevelopment program and the redevelopment tax credits program for brownfields and grayfields established in Iowa Code sections 15.292 and 15.293A.

**65.4(2) *Other forms of assistance.*** The authority may provide information on alternative forms of assistance.

**65.4(3) *Limitation on amount.*** An applicant shall not receive financial assistance of more than 25 percent of the agreed-upon estimated total cost of remediation, acquisition or redevelopment. This limitation does not apply to assistance provided in the form of tax credits pursuant to subrule 65.11(4).

**65.4(4) *Exclusions.*** Program funds shall not be used for the remediation of contaminants being addressed under Iowa's leaking underground storage tank (UST) program. However, a site's being addressed under the UST program does not necessarily exclude that site from being addressed under

the Iowa brownfield redevelopment Act if other nonpetroleum contaminants or petroleum substances not addressed under 567—Chapter 135 are present.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 9746B, IAB 9/7/11, effective 8/19/11; ARC 0007C, IAB 2/8/12, effective 3/14/12; ARC 1827C, IAB 1/21/15, effective 2/25/15]

**261—65.5(15) Repayment to economic development authority.** Under the brownfield redevelopment program only, upon the subsequent sale of the property by an applicant to a person other than the original owner, the applicant shall repay the authority for financial assistance received by the applicant. The repayment shall be in an amount equal to the sales price less the amount paid to the original owner pursuant to the agreement between the applicant and the original owner. The repayment amount shall not exceed the amount of financial assistance actually disbursed to the applicant by the authority.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 9746B, IAB 9/7/11, effective 8/19/11; ARC 0007C, IAB 2/8/12, effective 3/14/12]

**261—65.6(15) General procedural overview.**

**65.6(1)** Subject to availability of funds, applications to the brownfield redevelopment program will be accepted, reviewed and scored by economic development authority staff and by the advisory council on an annual basis. Brownfield redevelopment funds will be scored on a competitive basis by the council, which will make recommendations on award amounts to the board.

**65.6(2)** Subject to availability of funds, applications to the redevelopment tax credits program for brownfields and grayfields will be accepted and reviewed by economic development authority staff and scored by the advisory council on an annual basis. For the fiscal year beginning July 1, 2014, applications must be received by March 1, 2015. For each fiscal year thereafter, applications will be accepted beginning on July 1 and must be received by September 1. Subject to the availability of funding, the authority may set additional application deadlines after September 1 and before the end of a fiscal year.

**65.6(3)** Applications for all forms of financial assistance will be reviewed by staff for completeness and eligibility. If additional information is required, the applicant shall be provided with notice, in writing, to submit additional information. Recommendations from the advisory council will be submitted to the board. The board may approve, deny or defer an application.

**65.6(4)** Application forms for the brownfield redevelopment program and the redevelopment tax credits program for brownfields and grayfields are available on the authority's website.

**65.6(5)** The authority may provide technical assistance as necessary to applicants. Authority staff may conduct on-site evaluations of proposed activities.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 9746B, IAB 9/7/11, effective 8/19/11; ARC 0007C, IAB 2/8/12, effective 3/14/12; ARC 1827C, IAB 1/21/15, effective 2/25/15; ARC 6792C, IAB 1/11/23, effective 2/15/23]

**261—65.7(15) Application to the brownfield redevelopment program—agreements.**

**65.7(1)** Every application for assistance shall include evidence of sponsorship and any other information the authority deems necessary in order to process and review the application. An application shall be considered received by the authority only when the authority deems it to be complete. Applications for assistance shall also include the following information:

*a.* A business plan. The business plan should, at a minimum, include a remediation plan, a project contact/applying agency, a project overview (which would include the background of the project area, goals and objectives of the project, and implementation strategy), and a project/remediation budget.

*b.* A statement of purpose describing the intended use of and proposed repayment schedule for any financial assistance received by the applicant.

**65.7(2)** The authority shall accept and review applications in conjunction with the council and the board. The council shall consider applications in the order complete applications are received and make application recommendations to the board. The council will score applications according to the application review criteria established pursuant to rule 261—65.9(15). The board shall approve or deny applications.

**65.7(3)** Approved applicants shall enter into an agreement with the authority.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 9746B, IAB 9/7/11, effective 8/19/11; ARC 0007C, IAB 2/8/12, effective 3/14/12; ARC 1827C, IAB 1/21/15, effective 2/25/15]

**261—65.8(15) Application to the redevelopment tax credits program—registration of projects—agreements.**

**65.8(1)** *System for application, review, registration, and authorization of projects.* The authority will administer a system for application, review, registration, and authorization of projects as described in this subrule and will only issue tax credit certificates pursuant to subrule 65.11(3).

*a.* The authority will accept and, in conjunction with the council, review applications for tax credits provided in Iowa Code section 15.293A and, with the approval of the council, make tax credit award recommendations regarding the applications to the board.

*b.* Applications for redevelopment tax credits will only be accepted during the established application period as provided in subrule 65.6(2).

*c.* Upon review of an application, the authority may register the project with the redevelopment tax credits program. If the authority registers the project, the authority may, in conjunction with the council, make a preliminary determination as to the amount of tax credit for which an award recommendation will be made to the board.

*d.* After registering the project, the authority will notify the investor of successful registration under the redevelopment tax credits program. The notification may include the amount of tax credit for which an award recommendation will be made to the board. If an award recommendation is included in the notification, such notification will include a statement that the award recommendation is a recommendation only. The amount of tax credit included on a tax credit certificate issued pursuant to this rule shall be contingent upon an award by the board and upon completion of the requirements in this rule.

*e.* (1) All completed applications will be reviewed and scored, pursuant to subrule 65.8(2), on a competitive basis by the council and the board. In reviewing and scoring applications, the council and the board may consider any factors the council and board deem appropriate for a competitive application process, including but not limited to the financial need, quality, and feasibility of a qualifying redevelopment project.

(2) For purposes of this rule:

1. “*Feasibility*” means the likelihood that the project will obtain the financing necessary to allow for full completion of the project and the likelihood that the proposed redevelopment or improvement that is the subject of the project will be fully completed.

2. “*Financial need*” means the difference between the total costs of the project less the total financing that will be received for the project.

3. “*Quality*” means the merit of the project after considering and evaluating its total characteristics and measuring those characteristics in a uniform, objective manner against the total characteristics of other projects that have applied for the tax credit provided in this chapter during the same established application period.

*f.* Upon reviewing and scoring all applications that are part of an annual application period, the board may award tax credits provided in this chapter.

*g.* If the applicant for a tax credit provided in this chapter has also applied to an agency of the federal government or to the authority, the board, or any other agency of state government for additional financial assistance, the authority, the council, and the board will consider the amount of funding to be received from such public sources when making a tax credit award pursuant to this rule.

*h.* An applicant that is unsuccessful in receiving a tax credit award during an established application period may make additional applications during subsequent application periods. Such applicants must submit a new application and must be competitively reviewed and scored in the same manner as other applicants in that same application period.

**65.8(2)** *Scoring criteria.*

*a.* Each application for tax credits during each established application period will be scored according to criteria set forth in this paragraph. Points will be added together and the resulting score averaged with the scores of applications evaluated by all council members. Scoring criteria include:

(1) The project’s feasibility: 25 points.

(2) The project’s financial need: 25 points.

(3) The project's quality: 25 points.

b. There is no minimum score required for a project to receive a recommendation for funding, but a higher score indicates that the council views a project more favorably. The council's funding recommendation will reflect its overall view of the project in relation to other applying projects.

**65.8(3) Required information.** An investor applying for a tax credit shall provide the authority with all of the following:

a. Information showing the total costs of the qualifying redevelopment project, including the costs of land acquisition, cleanup, and redevelopment.

b. Information about the financing sources of the investment which are directly related to the qualifying redevelopment project for which the investor is seeking approval for a tax credit, as provided in this chapter.

c. Any other information deemed necessary by the board and the council to review and score the application pursuant to this rule.

**65.8(4) Agreement required—recapture of credits.** If an investor is awarded a tax credit pursuant to this rule, the authority and the investor shall enter into an agreement concerning the qualifying redevelopment project. If the investor fails to comply with any of the requirements of the agreement, the authority may find the investor in default under the agreement and may revoke all or a portion of the tax credit award. The department of revenue, upon notification by the authority of an event of default, shall seek repayment of the value of any such tax credit already claimed in the same manner as provided in Iowa Code section 15.330(2).

**65.8(5) Project completion.** A registered project shall be completed within 30 months of the date the project was registered unless the authority provides additional time to complete the project. If the registered project is not completed within the time required, the project is not eligible to claim a tax credit pursuant to this chapter.

**65.8(6) Audit required.**

a. Upon completion of a registered project, an audit of the project, completed by an independent certified public accountant licensed in this state, must be submitted to the authority.

b. Upon review of the audit and verification of the amount of the qualifying investment, the authority will issue a tax credit certificate to the investor stating the amount of tax credit that the investor may claim.

[ARC 1827C, IAB 1/21/15, effective 2/25/15; ARC 4511C, IAB 6/19/19, effective 7/24/19; ARC 6042C, IAB 11/17/21, effective 12/22/21]

**261—65.9(15) Application review criteria.** Brownfield redevelopment funds will be awarded on a competitive basis. Applications will be reviewed and prioritized based on the following criteria:

1. Whether the project meets the definition of a brownfield site.
2. Whether alternative forms of assistance have been explored and used by the applicant.
3. The level of distress or extent of the problem on the site has been identified.
4. Whether the site is on or proposed to be added to the U.S. Environmental Protection Agency's list of CERCLA sites.
5. The degree to which awards secured from other sources are committed to the subject site.
6. The leveraging of other public and private resources beyond the 75 percent minimum required.
7. Type and terms of assistance requested.
8. Rationale that the project serves a public purpose.
9. The level of economic and physical distress within the project area.
10. Past efforts of the community/owner to resolve the problem.
11. Ability of the applicant to outline the goals and objectives of the project and describe the overall strategy for achieving the goals and objectives.
12. Ancillary off-site development as a result of site remediation.

[ARC 7844B, IAB 6/17/09, effective 7/22/09]

**261—65.10(15) Administration of awards.**

**65.10(1)** A contract shall be executed between the recipient and the authority. These rules and applicable state laws and regulations shall be part of the contract.

**65.10(2)** The recipient must execute and return the contract to the authority within 45 days of transmittal of the final contract from the authority. Failure to do so may be cause for the board to terminate the award.

**65.10(3)** Certain activities may require that permits or clearances be obtained from other state or local agencies before the activity may proceed. Awards may be conditioned upon the timely completion of these requirements.

**65.10(4)** Awards may be conditioned upon commitment of other sources of funds necessary to complete the activity.

**65.10(5)** Awards may be conditioned upon the authority's receipt and approval of an implementation plan for the funded activity.

[ARC 7844B, IAB 6/17/09, effective 7/22/09; ARC 9746B, IAB 9/7/11, effective 8/19/11; ARC 0007C, IAB 2/8/12, effective 3/14/12]

### **261—65.11(15) Redevelopment tax credit.**

**65.11(1) Purpose.** The purpose of the redevelopment tax credits program is to make tax credits available for a redevelopment project investment. The authority may cooperate with the department of natural resources and local governments in an effort to disseminate information regarding the redevelopment tax credit.

**65.11(2) Eligible applicant.** An individual, partnership, limited liability company, S corporation, estate, or trust electing to have income taxed directly to the individual may claim a redevelopment tax credit. Once an applicant is deemed eligible, the applicant shall be considered a qualifying investor for a redevelopment tax credit. A city or county may not apply for a redevelopment tax credit.

**65.11(3) Tax credit certificate.**

*a. Issuance.* The authority shall issue a redevelopment tax credit certificate upon completion of the project and submittal of proof of completion by the qualified investor. The tax credit certificate shall contain the qualified investor's name, address, and tax identification number; the amount of the credit; the name of the qualifying investor; whether the taxpayer has satisfied the requirements for the credit to be refundable; any other information required by the department of revenue; and a place for the name and tax identification number of a transferee and the amount of the tax credit being transferred.

*b. Claims.* To claim a tax credit under this rule, a qualified investor shall file a claim with the department of revenue pursuant to the department's applicable rules. The qualified investor must include one or more tax credit certificates with the qualified investor's tax return. A tax credit certificate shall not be used or included with a return filed for a taxable year beginning prior to the tax year listed on the certificate. The tax credit certificate or certificates included with the qualified investor's tax return shall be issued in the qualified investor's name, expire on or after the last day of the taxable year for which the qualified investor is claiming the tax credit, and show a tax credit amount equal to or greater than the tax credit claimed on the qualified investor's tax return.

*c. Transfer.* Tax credit certificates issued under this rule may be transferred to any person or entity pursuant to the department of revenue's applicable rules, except a tax credit certificate that is refundable pursuant to Iowa Code section 15.293A(1)"c"(2) as amended by 2022 Iowa Acts, House File 2317, shall not be transferable.

**65.11(4) Tax credit amount and limitations.**

*a. Refundability.* A tax credit in excess of the taxpayer's liability for the tax year is refundable only to the extent indicated in Iowa Code section 15.293A(1)"c"(2) as amended by 2022 Iowa Acts, House File 2317.

*b. Percentage.* The amount of the tax credit shall equal one of the following:

- (1) Twelve percent of the taxpayer's qualifying investment in a grayfield site.
- (2) Fifteen percent of the taxpayer's qualifying investment in a grayfield site if the qualifying redevelopment project meets the requirements of green development as defined in 261—65.2(15).
- (3) Twenty-four percent of the taxpayer's qualifying investment in a brownfield site.

(4) Thirty percent of the taxpayer's qualifying investment in a brownfield site if the qualifying redevelopment project meets the requirements of green development as defined in 261—65.2(15).

*c. Maximum credit per project.* The maximum amount of a tax credit for a qualifying investment in any one qualifying redevelopment project shall not exceed 10 percent of the maximum amount of tax credits available in any one fiscal year pursuant to paragraph 65.11(4) “d.”

*d. Maximum credit total.* For the fiscal year beginning July 1, 2021, and for each subsequent fiscal year, the maximum amount of tax credits allocated to the program by the authority shall be an amount determined by the board but not in excess of the amount established pursuant to Iowa Code section 15.119. Tax credits awarded pursuant to paragraph 65.11(7) “b” shall not be counted against the allocation determined by the board pursuant to this paragraph.

**65.11(5) Reduction of tax credit.**

*a.* Taxes imposed under Iowa Code section 422.11V, less the credits allowed under Iowa Code sections 422.12, 422.33, 422.60, 432.12L, and moneys and credits imposed under Iowa Code section 533.329 shall be reduced by a redevelopment tax credit allowed under Iowa Code sections 15.291 to 15.294.

*b.* For purposes of individual and corporate income taxes and the franchise tax, the increase in the basis of the redeveloped property that would otherwise result from the qualified redevelopment costs shall be reduced by the amount of the credit computed under this rule.

**65.11(6) Project completion.**

*a.* An investment shall be deemed to have been made on the date the qualifying redevelopment project is completed. An investment made prior to January 1, 2009, shall not qualify for a tax credit under this rule.

*b.* A registered project shall be completed within 30 months of the project's approval unless the authority, with the approval of the board, provides additional time to complete the project. If the registered project is not completed within the time required, the project is not eligible to claim a tax credit.

*c.* Failure to comply. If a taxpayer receives a tax credit pursuant to Iowa Code section 15.293A, but fails to comply with any of the requirements, the taxpayer loses any right to the tax credit. The Iowa department of revenue shall seek recovery of the value of the credit the qualified investor received.

**65.11(7) Tax credit carryover.**

*a.* If the maximum amount of tax credits available has not been issued at the end of the fiscal year, the remaining tax credit amount may be carried over to a subsequent fiscal year or the authority may prorate the remaining credit amount among other eligible applicants.

*b.* Tax credits revoked under subrule 65.8(4) including tax credits revoked up to five years prior to July 1, 2021, and tax credits not awarded under subrules 65.8(5) and 65.8(6), may be awarded in the next annual application period established in Iowa Code section 15.293B(1) “c.”

**65.11(8) Authority registration and authorization.** The authority shall develop a system for registration and authorization of tax credits. The authority shall control distribution of all tax credits distributed to investors, including developing and maintaining a list of tax credit applicants from year to year to ensure that if the maximum aggregate amount of tax credits is reached in one year, an applicant can be given priority consideration for a tax credit in an ensuing year.

**65.11(9) Other financial assistance considerations.** If a qualified investor has also applied to the authority, the board, or any other agency of state government for additional financial assistance, the authority, the board, or the agency of state government shall not consider the receipt of a tax credit issued pursuant to this rule when considering the application for additional financial assistance.

**261—65.12(15) Review, approval, and repayment requirements of redevelopment tax credit.**

**65.12(1)** A qualified investor seeking to claim a tax credit pursuant to Iowa Code sections 15.293A and 15.293B shall apply to the authority, and applications shall be reviewed by the council as established

in Iowa Code section 15.294. The council shall recommend to the board the tax credit amount available for each qualifying redevelopment project.

**65.12(2)** A qualified investor shall provide to the authority, the council and the board all of the following:

*a.* Information showing the total costs of the qualifying redevelopment project, including the costs of land acquisition, cleanup, and redevelopment.

*b.* Information about the financing sources of the investment which is directly related to the qualifying redevelopment project for which the taxpayer is seeking approval for a tax credit, as provided in Iowa Code section 15.293A.

## REQUEST FOR PROPOSAL – STEP 1 – LETTERS OF INTEREST REDEVELOPMENT OF 20 EAST MAIN STREET

The City of Marshalltown owns a two-story commercial building located at 20 East Main Street, in the Marshalltown Central Business District, and is interested in this property being redeveloped. The City obtained this property in May of 2022 through a court ordered sale pursuant to Iowa Code §657A.10B, Petition by the City for title to abandoned property. The building has been vacant for several years. The City Council wishes to sell the property pursuant to Iowa Code §403.8, which is allowed in urban renewal areas where slum and blight exist. This gives the Council the ability to seek request for proposals that allow the selection of the buyer based on the best proposal and not just the amount to be paid.

The property is zoned Urban Core and will be sold AS-IS. The building sits on a 20' x 180' lot and has approximately 3000 sq. ft. on each floor. The main floor and associated mezzanine have previously been used as retail space, most recently as a clothing store. The second floor currently only has access from an adjacent property and appears to have been used most recently only for storage. There is also an unfinished basement. Access to the main floor of the building is available on the north side from a public alley and on the south side off of E Main Street.

This building should be considered largely unfinished and will need substantial renovations to be brought up to code. All renovations will be required to meet the requirements of the Marshalltown Zoning Code for properties located in the Urban Core (UC) zoning district. The property is also located in the Main Street Historic District.

The city wishes to conduct a two-step request for proposal process to determine the best proposal for the sale of this property.

- Step 1 is intended to provide an opportunity for potential developers to view the property and submit general information to the City regarding their proposed redevelopment of the property through a letter of interest. Step 1 is intended so that Developers do not need to expend funds and significant resources/time to develop business or redevelopment plans.
- From Step 1, the City's selection committee will review the received interest, outline the parameters that will be used to determine what information will be required in Step 2, what information will be used to determine the best proposal and invite developers to submit on Step 2 of the Request for Proposal.

### CITY COUNCIL

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

RFP Cover  
Page 1 of 4

- Those developers interested in submitting Step 1, a Letter of Interest, shall include the following information in their letter:
  - name and contact information for the proposed buyer/development team;
  - the proposed end use of the property, including both the first and second floors;
  - a summary of the developer's experience and qualifications in redeveloping a property, especially one that is part of a historic and/or downtown district; and
  - a statement acknowledging the developers understanding that a project of this nature is expected to exceed \$500,000 in redevelopment expenses and their ability to financially take on a project of this magnitude (*no financial assurances/statements are required to be submitted with Step 1*).

The property is available to view at the following times during Step 1 of this Request:  
 Tuesday, May 21st @ 10 AM  
 Tuesday, May 28th @ 10 AM

**Letters of interest shall be submitted to the City Clerk's office no later than Tuesday, June 11th, 2024, at 10:00 AM CST.** Letters must be submitted in a sealed envelope and must be delivered or mailed to the office of the City Clerk, City Hall, 24 North Center Street, Marshalltown, Iowa, 50158. No faxed or emailed bids will be accepted.

Initial review of the received letters of interest will be completed by a selection committee consisting of representatives from the City of Marshalltown, Marshalltown Central Business District, and the Marshalltown Area Chamber of Commerce. The selection committee will make a recommendation to the City Council as to which developers will be invited to submit in Step 2 of this Request for Proposals. All letters of interest will ultimately be public records and should be prepared as such. The City Council reserves the right to reject any and all proposals.

### **Step 1 - Selection Criteria**

The Property is being sold with the primary purpose of adding additional retail opportunities on Main Street in the downtown commercial district. Mixed-use, with first-floor retail and useable/occupied space on the upper level, is preferred.

#### **CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
 Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

RFP Cover  
 Page 2 of 4

Interest in one of the following targeted uses on the property will score higher in the evaluation process:

- Clothing & Clothing Accessories
- General Merchandise or Miscellaneous Retail Stores
- Food & Drink (Restaurant, Brewery, Coffee Shop)
- Specialty Retail Stores (ie. bookstore, kitchen supplies, toys, gifts, etc.)
- Bakery
- Activities/Entertainment (ie. golf simulator, axe throwing, mini golf, etc.)
- Pet Supply Store
- Home Furnishings & Décor

There is no minimum sales price for the property. The bid amount and proposed use will both be taken into consideration when evaluating each proposal.

**The following attachments are included as part of this RFP:**

- Attachment A: Property Photos
  - Included in this section are photos of the property as of April 2024. You will notice that some of the pictures included in the Phase I and II documents indicated the building had a lot of material, products, and junk in it. The city has removed and disposed of the loose items.
- Attachment B: Phase I Environmental Site Assessment
  - Included in this section are not only environmental factors that were assessed on the property, but also a wealth of historical information on the building's past usage.
- Attachment C: Phase II Environmental Site Assessment
  - Included in this section are the results of a higher level of environmental assessment, which indicate "...Property represents a minimal risk to human health and the environment and should not inhibit redevelopment of the Property..."
- Attachment D: Lead-Based Paint Assessment & Requirements
  - Included in this section are results of lead-based paint (LBP) testing completed on the property. Refer to page 6 of the Disturbance Requirements for a summary of the samples where LBP components were detected. Information on when abatement is required and to what level is included; however, it should be noted that not all renovations and/or abatement that disturb LBP must follow specific regulations or require certified abatement Contractors. Estimates of cost if an independent project were completed to control/abate LBP are included in Appendix D.
- Attachment E: Asbestos Assessment & Specifications for Abatement
  - Included in this section are results of asbestos testing completed on the property. Refer to Section 02 82 00 for a summary of the samples where asbestos containing material was identified. Also included are specifications

**CITY COUNCIL**

Barry Kell, Mike Ladehoff, Mark Mitchell,  
Greg Nichols, Jeff Schneider, Gary Thompson, Vacancy

RFP Cover  
Page 3 of 4

that could be used to have asbestos abated. The extent of the renovations may dictate the most cost-effective strategy for abatement. Estimates of cost if an independent project were completed to abate asbestos are included in Appendix B.

- Attachment F: Marshalltown Downtown Historic District Registration
  - Included in this section is the National Register of Historic Places Registration for the Downtown Historic District. 20 East Main Street's building is not an individual building listed on the National Register of Historic Places; however, Marshalltown Downtown is registered as a Historic District. 20 E Main Street is listed as a key contributing building to the historic district.
- Attachment G: Main Street Iowa Study
  - Included in this section is the Market-Based Strategic Planning Study completed in 2023 by the Marshalltown Central Business District, in partnership with Main Street Iowa.
- Attachment H: Main Street Renderings
  - Included in this section are three design renderings prepared by Main Street Iowa that are in line with historic attributes and color palettes of this District.

### **Ultimate Sale of Building**

Developers should be aware that it is the hope of the City that Step 2 of the Request for Proposals will result in selling of the property and building. The Property will be conveyed to the successful purchaser by quit claim deed with right of reversion. If an abstract is requested, the Purchaser must furnish this at their own expense.

### **Questions ?**

Questions on this RFP may be addressed to:

Heather Thomas, P.E.  
Public Works Director  
City of Marshalltown  
Phone: 641-754-5734 Ext. 4100

## 1.0 Executive Summary

---

### 1.1 Property Description

Impact7G was retained by the City of Marshalltown to conduct a Phase I Environmental Site Assessment (ESA) in general conformance with the scope and limitations of ASTM International's E1527-21 *Standard Practice for Environmental Site Assessments* (referred to herein as "the ASTM E1527-21 Standard Practice") for the parcel or parcels of land (referred to herein as the "Property") outlined in the following table and shown on **Figure 1**:

| Property / Facility Name | Property Address(es) | Parcel ID(s)    | Parcel Size | Property Description or Operations |
|--------------------------|----------------------|-----------------|-------------|------------------------------------|
| City of Marshalltown     | 20 E Main Street     | 8418-26-456-021 | 0.08 acres  | Vacant commercial building.        |

The Property, located on E Main Street, consists of a vacant commercial building which covers a footprint of approximately 3,400 square feet (see **Figure 2**). The original building on the Property is a two-story brick structure with a basement constructed circa 1890. A one-story brick addition was constructed circa 1964.

### 1.2 Property Vicinity

The Property is located in a commercial business district in the downtown area of Marshalltown. The adjacent parcels consist of retail commercial businesses and multi-family residential apartments (typically upper floors). The Property is surrounded immediately by an alleyway and paved parking lot to the north, commercial buildings to the east and west, and E Main Street to the south.

### 1.3 Historical Use of Property and Vicinity

Based on Impact7G's evaluation of reasonably ascertainable records, historical use of the Property and surrounding area is summarized as follows:

| Approximate Date(s) | Property             | Surrounding Area                                                                                                                                                                                                                                                      |
|---------------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1884-1965           | Commercial building  | <b>North:</b> Alleyway followed by commercial buildings a feed yard.<br><b>East:</b> Commercial and residential buildings.<br><b>South:</b> E Main Street followed by public square/Marshall County Courthouse.<br><b>West:</b> Commercial and residential buildings. |
| 1971 to present     | Commercial building. | <b>North:</b> Alleyway followed by paved parking lot<br><b>East:</b> Same as above<br><b>South:</b> Same as above<br><b>West:</b> Same as above                                                                                                                       |

## 1.4 Phase I ESA Findings Summary

This is an executive summary of findings and should not be relied upon without considering the complete report for a detailed description of the Phase I ESA performed by Impact7G. This report is subject to the limitations stated in **Section 2.4**.

Based on the available information obtained, reviewed, and reported as part of the Phase I ESA, Impact7G has concluded the following regarding environmental conditions, business risks, or other considerations in connection with the Property, as defined by the ASTM E1527-21 Standard Practice:

**Recognized Environmental Condition (REC)** is “(1) the presence of hazardous substances or petroleum products in, on, or at a Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at a Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at a Property under conditions that pose a material threat of a future release to the environment.

Impact7G identified the following RECs in connection with the Property:

- A nearby parcel to the north (7 E State Street), located approximately 285 feet north of the Property, was an oil service station with buried gas tanks in 1921. The tanks have few regulatory records associated with it, however, based on the proximity to the Property and the absence of any sort of investigation regarding closure of the tanks, the potential exists for this site to have contaminated the subsurface of the Property. The historic use of the nearby parcel as an oil service station which also contained underground storage tanks is considered to represent a REC to the Property.
- Two nearby parcels to the northeast (24 & 26 N 1<sup>st</sup> Avenue), located approximately 230 feet northeast of the Property, were identified as a Chinese laundry and laundry facility in 1921 and 1931, respectively. It is unknown if the laundry facilities performed dry cleaning operations or used solvents. However, based on the absence of additional information, proximity to the Property and the up-gradient location, the historic use of nearby parcels as laundry facilities is considered to represent a REC to the Property.
- The adjoining property to the north across the alleyway (15-25 E State Street) was identified as an auto repair shop (1931) and auto repair and auto sales and service (1964). Auto service shops typically involve the use of oils and solvents and generate waste consisting of used oils and solvents some of which contain heavy metals. Based on the former use and proximity to the Property, the adjoining property to the north is considered to represent a REC to the Property.

**Controlled Recognized Environmental Condition (CREC)** is a “REC affecting the Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain place subject to the implementation of required controls (for example, activity and use limitations or other property use limitations).”

Impact7G did not identify any CRECs in connection with the Property.

**Historical Recognized Environmental Condition (HREC)** is “a previous release of hazardous substances or petroleum products affecting the Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities, without subjecting the Property to any controls (for example, activity and use limitations or other property use limitations).”

Impact7G did not identify any HRECs in connection with the Property.

**De Minimis Condition** is “a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.”

Impact7G did not identify any de minimis conditions in connection with the Property.

**Business Environmental Risk (BER)** is a “risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in [the ASTM E1527-21 Standard Practice].”

Impact7G did not identify any BERs in connection with the Property.

**Non-Scope Considerations** are “environmental issues or conditions at a Property that parties may wish to assess in connection with commercial real estate that are outside the scope of [the ASTM E1527-21 Standard Practice].”

- The structure located on the Property was constructed circa 1890 and 1964. Based on the circa 1890 and 1964 construction dates, the existence of Asbestos Containing Materials (ACM) and Lead-Based Paint (LBP) is possible. Therefore, further ACM and LBP investigation of this Property is warranted if building materials and/or painted surfaces are to be disturbed or renovated.

Based on the Scope of Work for this Phase I ESA, the User did not elect to pursue any additional Non-Scope Considerations or other items outside the scope of the ASTM E1527-21 Standard Practice.

### **1.5 Significant Data Gaps**

The ASTM E1527-21 Standard Practice defines a significant data gap is “a data gap that affects the ability of the Environmental Professional to identify a recognized environmental condition.”

Impact7G did not encounter any significant data gaps in the course of this assessment.

## 2.0 Introduction

---

Impact7G was retained by the City of Marshalltown (“Client”) to conduct a Phase I ESA in general conformance with the scope and limitations of ASTM E1527-21, the *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (referred to herein as the “ASTM E1527-21 Standard Practice”). This Phase I ESA is also intended to document the results of an inquiry per United States Environmental Protection Agency’s All Appropriate Inquiries Rule, or AAI (as promulgated by 40 CFR §312). Impact7G conducted this Phase I ESA for the parcel of land (referred to herein as the “Property”) outlined in **Section 2.1**, below.

### 2.1 Property Description, Location, Ownership, and Occupancy

The Property subject to this Phase I ESA is summarized in the following table and shown on a topographic map (**Figure 1**). Refer to **Figure 2** for an outline of the Property and its immediate surroundings. Property parcel records available from local agencies are included in **Appendix A**.

| Property Location, Ownership, and Occupancy Summary |                                                                                                                                                                                                                                                           |
|-----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Property/Facility Name:                             | City of Marshalltown                                                                                                                                                                                                                                      |
| Address(es):                                        | 20 E Main Street, Marshalltown, Marshall County, IA 50158                                                                                                                                                                                                 |
| Parcel ID(s) and Area:                              | According to Marshall County Assessor records, the land associated with the Property covers 0.08 acres, including the following Parcel ID:<br>8418-26-456-021                                                                                             |
| Geographic Location:                                | The latitude and longitude coordinates for the approximate center of the Property are 42° 2’ 57.4” North and 92° 54’ 43.3” West.<br>The Property is further described as located in the SW ¼ of the SE ¼ of Section 26, Township 84 North, Range 18 West. |
| Tax or Legal Description:                           | W 20’ LOT 10 BLK 10<br>(see <b>Appendix A</b> for complete legal descriptions, if available).                                                                                                                                                             |
| Zoning:                                             | Marshall County Assessor records report the land associated with the Property is zoned COMMERCIAL.                                                                                                                                                        |
| Owner:                                              | City of Marshalltown                                                                                                                                                                                                                                      |
| Occupant(s):                                        | None – the Property is currently vacant                                                                                                                                                                                                                   |
| Current Use:                                        | Vacant commercial building                                                                                                                                                                                                                                |

### 2.2 Scope of Services

The Client contracted with Impact7G to conduct a Phase I ESA of the Property for the purpose of identifying RECs or other potential environmental liabilities in association with hazardous substances and/or petroleum products at or in the vicinity of the Property. In conducting this scope of work, Impact7G utilized the Phase I ESA elements and methods outlined in Sections 7 through 12 of the ASTM E1527-21 Standard Practice. This included:

- *A Records Review* to obtain and evaluate records such as physical setting sources; Federal, State, and Tribal environmental records; regulatory agency files; historical records; and prior environmental assessments.
- *A Reconnaissance* including observation of the exterior and any structures located on, and operations conducted at, the Property. The reconnaissance also included observation of adjoining sites and the surrounding area, at least to the extent visible from the periphery of the Property or from adjacent public thoroughfares.
- *Interviews with Past and Present Owners, Operators, and Occupants* to obtain information about current and past features, uses, activities, and conditions at the Property.
- *Interviews with State and/or Local Government Officials* to obtain commonly known information or records about the environmental condition of the Property or surrounding area.
- *Evaluation and Report Preparation* to document the findings and conclusions of the Phase I ESA, supported by the Environmental Professional's opinions and appropriate documentation to support the findings.

Unless specified in **Section 7.0** of this report, Impact7G did not complete any non-scope considerations Pursuant to Section 13.1.5 of the ASTM E1527-21 Standard Practice.

## **2.3 Significant Assumptions**

To estimate local groundwater flow direction, the Environmental Professional obtained information including, but not limited to, the physical setting sources summarized in **Section 5.1** of this report. Other data sources may have included local experience, publicly available reports on groundwater quality and flow direction, water well data, and regional groundwater gradient maps. If the only applicable or reasonably ascertainable source was topographic maps, then the Environmental Professional's interpretation was that shallow groundwater generally flows in the direction of surface topographic gradients and/or the direction of the nearest body of water.

## **2.4 Limitations and Exceptions**

The ASTM E1527-21 Standard Practice recognizes that performance of its process (1) Cannot wholly eliminate uncertainty regarding the potential for RECs; (2) Does not mean an exhaustive assessment; and (3) Includes a level of assessment that will vary based upon the type of property and its future intended use, the expertise and risk tolerance of the User, and information collected and reviewed in the course of the inquiry.

This Phase I ESA reported conditions at the time of completion of its individual elements. Any conclusions regarding potential environmental risks or particular events and practices are limited by the quality and/or quantity of information provided by such things as available historical documents and government databases, the visual inspection, and interviews with Property owners/operators and government officials.

The information and conclusions presented in this report are based solely on the observations made during the Property evaluation and on data provided by others. Thus, the accuracy of the resulting reporting and conclusions drawn from this information is inherently based on the accuracy and completeness of the information that was obtained and provided. The conclusions and opinions stated herein do not represent or warrant that the Property is free from contamination, pollution, or other environmental issues. In summary, there is always a possibility that some contamination may be present on the Property of interest which was not discovered or noted during the Phase I ESA activities conducted by Impact7G. Therefore, no guarantees, representations, or warranties as to the condition of the Property of interest or suitability of Property use for any particular purpose are made or implied by Impact7G.

## **2.5 Special Terms and Conditions**

Contractual terms, conditions, and liability limitations are specified in the contract between the Client and Impact7G. Information used to prepare this report was provided by a number of parties, which could include, as applicable, government agencies, third party vendors, and persons familiar with the Property. The Environmental Professional did not independently verify all information obtained and reviewed unless actual knowledge of Property conditions or history indicated obvious inconsistencies or errors.

## **2.6 User Reliance**

This report has been prepared on behalf of and for the exclusive use of the City of Marshalltown solely for use in evaluating the potential RECs and is not intended for any other purpose nor the benefit or use of any other person or entity. This report and the findings contained herein shall not in whole, or in part, be disseminated or conveyed to any other party, or be used by any other person, without the prior written consent of Impact7G, except that the report may be conveyed to persons or groups of persons within the City of Marshalltown.

## **3.0 User Provided Information**

---

For this Phase I ESA to fully constitute an AAI assessment (per 40 CFR §312) and should the User of the report seek innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability (i.e., the *landowner liability protections*, or LLPs), Impact7G requested completion of a User Questionnaire. The information requested was modeled from *Appendix X3* of the ASTM E1527-21 Standard Practice.

The User Questionnaire and any records provided by the User are included in **Appendix B**. Pertinent User-provided information is summarized in this section and disseminated throughout this report.

### **3.1 Environmental Liens**

The User did not provide title documentation or information on environmental liens.

### **3.2 Activity and Use Limitations (AULs)**

The User did not provide title documentation or information on AULs.

### **3.3 Specialized Knowledge**

The User did not report having specialized knowledge or experience related to the Property or nearby sites.

### **3.4 Valuation Reduction for Environmental Issues**

The User reported that the Property was awarded to the City of Marshalltown through a 657A judgement as an abandoned property.

### **3.5 Commonly Known or Reasonably Ascertainable Information**

The User provided all commonly known and reasonably ascertainable information for the Property to assist Impact7G in evaluating potential environmental conditions as part of this Phase I ESA, which is summarized as follows:

- The past uses of the building include general retail. The User reported no knowledge of chemical use or storage on the Property.

### **3.6 Obvious Indicators of Contamination**

The User reported the following information relative to the possible indicators of contamination at the Property:

- Expectation of Lead Based Paint and Asbestos due to the age of the building.

### **3.7 Owner, Property Manager, and Occupant Information**

The User reported that the Property is currently owned by the City of Marshalltown and that there are no current occupants. Ms. Michelle Spohnheimer is currently the City of Marshalltown's representative for the Property.

### **3.8 Reason for Performing Phase I ESA**

The City of Marshalltown took control of the Property through a legal process and would like to assess in order to encourage private redevelopment.

### **3.9 Additional Information to Support the Phase I ESA**

No additional reports or information pertinent to this Phase I ESA was provided by the User.

## 4.0 Property Reconnaissance

Per Section 9 of the ASTM E1527-21 Standard Practice, Impact7G coordinated and completed a reconnaissance of the Property to evaluate operations and obtain information pertaining to RECs or other environmental conditions on the Property. Photographs representative of the Property and adjoining sites are included in **Appendix C**.

### 4.1 Methodology and Limiting Conditions

| Property Reconnaissance Details |                                                                                                                                                                                                                                                                                              |

| Recon Date:                     | August 11, 2022                                                                                                                                                                                                                                                                              |
| Weather:                        | 82°, Sunny                                                                                                                                                                                                                                                                                   |
| Escort:                         | None                                                                                                                                                                                                                                                                                         |
| Methodology:                    | Based on the developed nature of the Property, the reconnaissance consisted of walking through and assessing each room in the building located on the Property.                                                                                                                              |
| Limiting Conditions:            | A building covered part of the Property, which limited observations of the ground. Access was limited in the basement due to possible asbestos pipe wrap on the floor in some locations. There were no additional limiting conditions for the Property or surrounding area during the visit. |

### 4.2 Use(s) of the Property

The Property, located on E Main Street, consists of a vacant commercial building which covers a footprint of approximately 3,400 square feet (see **Figure 2**). The original building on the Property is a two-story brick structure with a basement constructed circa 1890. A one-story brick addition was constructed circa 1964.

### 4.3 Use(s) of Adjoining Sites and the Surrounding Area

The Property is located in a commercial business district in the City of Marshalltown. The adjacent parcels consist of retail commercial businesses, offices, and parking lots. The Property is surrounded immediately by an alleyway and paved parking lot to the north, a variety of retail commercial businesses and offices to both the east and west, and E Main Street to the south. Observed uses of sites adjoining the Property included:

| Adjoining Site Use Summary |                  |                                                      |
|----------------------------|------------------|------------------------------------------------------|
| Direction                  | Address(es)      | Occupancy and Use Description(s)                     |
| North                      | E State Street   | Alleyway followed by paved parking lot               |
| East                       | 22 E Main Street | Shomo – Madsen Insurance and commercial buildings    |
| South                      | 1 E Main Street  | E Main Street followed by Marshall County Courthouse |
| West                       | 16 E Main Street | Penn Mutual and commercial buildings                 |

#### 4.4 Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions

To assess the migration potential of any known or suspect contaminants due to RECs, CRECs, or HRECs, Impact7G reviewed a recent *USGS 7.5 Minute Topographic Map* and other useful sources covering the Property and surrounding area (refer below to **Section 5.1**). In addition, Impact7G made the following observations during the Property reconnaissance:

| Observed Property and Surrounding Area Setting |                                                  |
|------------------------------------------------|--------------------------------------------------|
| Surface Topography:                            | Relatively flat and similar to surrounding area. |
| Surface Water:                                 | None observed                                    |
| Hydrogeologic or Hydrologic Conditions:        | None observed                                    |
| Buried Utilities or Other Features:            | None observed, unknown buried utilities.         |

#### 4.5 Property Description

The following table describes the Property and its structural features, as observed by Impact7G during the reconnaissance.

| Descriptions of Structures and Utilities          |                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description of Structures and Other Improvements: | The Property is improved with a two-story, brick building that covers a footprint of 3,400 square feet. There is a basement associated with the structure. The building was constructed circa 1890 with an addition added in 1964 according to Marshal County Assessors records. |
| Description of Roads and Parking Lots:            | Access to the property is via E Main Street to the south and an alleyway to the north.                                                                                                                                                                                           |
| Source(s) of Potable Water:                       | The Property building is connected to municipal water supplied by the City of Marshalltown.                                                                                                                                                                                      |
| Sewage Disposal System(s):                        | The Property building is connected to the City of Marshalltown sanitary sewer system.                                                                                                                                                                                            |
| Heating/Cooling System(s):                        | The building on the Property appeared to consist of forced air heating and cooling systems sourced by natural gas and electricity.                                                                                                                                               |
| Notable Other Utilities:                          | None                                                                                                                                                                                                                                                                             |

The following table describes interior and exterior features and characteristics of the Property, as observed by Impact7G during the reconnaissance.

| <b>Property Interior &amp; Exterior Observations Summary</b>                                                                                                                                                                                                     |                    |           |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|-----------|
| <b>Feature or Condition<br/>(Summary of observation or environmental finding follows)</b>                                                                                                                                                                        | <b>Identified?</b> |           |
|                                                                                                                                                                                                                                                                  | <b>Yes</b>         | <b>No</b> |
| <i>Hazardous Substances &amp; Petroleum Products (for use in Property operations):</i>                                                                                                                                                                           |                    | X         |
| <i>Aboveground Storage Tanks (ASTs):</i>                                                                                                                                                                                                                         |                    | X         |
| <i>Underground Storage Tanks (USTs) or indicators of past or present USTs:</i>                                                                                                                                                                                   |                    | X         |
| <i>Strong, Pungent, or Noxious Odors and Their Sources:</i>                                                                                                                                                                                                      |                    | X         |
| <i>Standing Surface Water and Pools or Sumps Containing Liquids Likely to be Hazardous Substances or Petroleum Products:</i>                                                                                                                                     |                    | X         |
| <i>Drums, Totes, and Intermediate Bulk Containers, 55-gallons or larger:</i>                                                                                                                                                                                     |                    | X         |
| <i>Hazardous Substance and Petroleum Product Containers Not in Connection with Identified Uses:</i>                                                                                                                                                              |                    | X         |
| Various household cleaners, lubricants, weed killers, and paint cans were observed throughout the building. These containers were presumably used in building maintenance operations. No evidence of leakage or spills was noted where containers were observed. |                    |           |
| One large helium tank was observed on the main floor of the building.                                                                                                                                                                                            |                    |           |
| <i>Unidentified Substance Containers:</i>                                                                                                                                                                                                                        |                    | X         |
| <i>Items Containing or Likely Containing Polychlorinated Biphenyls (PCBs):</i>                                                                                                                                                                                   |                    | X         |
| <i>Stains or Corrosion on Floors, Walls, or Ceilings:</i>                                                                                                                                                                                                        |                    | X         |
| <i>Interior Drains and Sumps:</i>                                                                                                                                                                                                                                | X                  |           |
| A drain was observed in the shower on the 1 <sup>st</sup> floor. No staining or chemical storage was observed around the drain.                                                                                                                                  |                    |           |
| <i>Pits, Ponds, or Lagoons:</i>                                                                                                                                                                                                                                  |                    | X         |
| <i>Stained Soil or Pavement (Exterior Surfaces):</i>                                                                                                                                                                                                             |                    | X         |
| <i>Stressed Vegetation (from something other than insufficient water):</i>                                                                                                                                                                                       |                    | X         |
| <i>Evidence of Solid Waste Disposal (trash, construction debris, landfilling):</i>                                                                                                                                                                               | X                  |           |
| Various piles of debris were observed in the basement and 2 <sup>nd</sup> floor of building. Hazardous materials were not observed in the debris piles.                                                                                                          |                    |           |

## 5.0 Records Review

Pursuant to Section 8 of the ASTM E1527-21 Standard Practice, Impact7G obtained and reviewed records to help identify RECs in connection with the Property. These records included physical setting sources, standard and additional environmental records sources, and historical use records that were publicly available, obtainable within reasonable time and cost constraints, and practically reviewable.

## 5.1 Physical Setting Summary

Impact7G evaluated the physical setting of the Property and surrounding area in support of evaluating the potential or likelihood that subsurface environmental impacts could affect the Property. The following table provides physical setting information for the Property and surrounding area.

| Physical Setting of Property and Surrounding Area |                                                                                                                                                                                                  |                                                     |
|---------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|
| Information                                       | Comments                                                                                                                                                                                         | Source(s)                                           |
| Inferred Groundwater Flow Direction:              | The inferred groundwater flow direction is to the south-southeast, based on interpretation of ground surface topography, surface water flow, and other physical setting sources evaluated below. | Topographic Map ( <b>Figure 1</b> )<br>Google Earth |
| Property Elevation:                               | Approximately 942 feet above mean sea level.                                                                                                                                                     | EDR Report                                          |
| Property and Regional Topography:                 | Both the Property itself and the regional landscape gently dip downward to the south, towards Linn Creek.                                                                                        | Topographic Map<br>Google Earth                     |
| Nearest Surface Water:                            | Linn Creek, located approximately 0.65 mile south of the Property and runs northeast towards Iowa River.                                                                                         | Topographic Map<br>Google Earth                     |
| Water Wells:                                      | Three water wells are within a 1,000 ft of the Property.                                                                                                                                         | EDR Report<br>Property Reconnaissance               |
| General Geology:                                  | <u>Rock Stratigraphic Unit</u><br>Era: Paleozoic; System: Devonian; Series: Upper Devonian (D3)<br>Category: Stratified Sequence                                                                 | EDR Report ( <b>Appendix I</b> )                    |
| Primary Soil Type(s):                             | Tama silty clay loam (well-drained soil)<br>Muscataine silty clay loam (somewhat poorly drained soil)                                                                                            | EDR Report                                          |
| Flood Zone:                                       | The Property is located within an area of minimal flood hazard.                                                                                                                                  | EDR Report                                          |
| Wetlands:                                         | No National Wetland Inventory areas are mapped on the Property.                                                                                                                                  | EDR Report                                          |

## 5.2 Historical Use of Property and Surrounding Area

Impact7G evaluated the historical use of the Property and surrounding area using reasonably ascertainable records. Detailed outlines of historical information obtained from standard historical resources are included below in subsections **5.2.1 through 5.2.6**.

### 5.2.1 Aerial Photographs

Impact7G has summarized the review of available aerial photographs (**Appendix D**) in the following table:

| <b>Aerial Photograph Review Summary</b>               |                                                                                                                                                    |                                                                                                                                                                                                                                        |

| Surrounding Area:                            | No environmental findings.                                    |                                                                                                                                    |

### 5.2.4 Local Street Directories

Impact7G reviewed available street directory listings for the Property and nearby sites to identify ownership, occupancy, and/or former uses that may suggest the storage or handling of potentially hazardous materials or petroleum products.

Impact7G requested that EDR provide street directory listings at approximate five-year intervals (or as available) for the streets identified in the tables below. Impact7G has summarized all listings for the Property and only pertinent listings for adjoining and surrounding area sites in the table below. Refer to **Appendix G** for the complete listings provided by EDR.

| Street Directory Review Summary        |                                                                                                                                                                                                                |

### 5.2.5 Local Property Records

Pertinent records obtained from Marshall County confirmed construction of the building in 1890 with an addition added in 1964. These records are included in Appendix A.

### 5.2.6 Other Historical Records

Impact7G did not identify any other sources of historical information that was either reasonably ascertainable or likely to contain information to support this Phase I ESA.

## 5.3 Local, State, and Federal Government Record Sources

Impact7G requested records from local, state, and/or federal sources to supplement the Standard Environmental Record Sources evaluated below in Section 5.4. The agencies from which records were requested or databases reviewed are outlined below in Sections 5.3.1 through 5.3.3. Any copies of

records obtained from these sources that are pertinent to this Phase I ESA are included in **Appendix H**.

### **5.3.1 Local/Municipal Records**

#### **Marshall County Assessor and Geographic Information System (GIS):**

Impact7G accessed the Marshall County Assessor's Beacon website on May 27, 2022, to search for records, parcel information, and maps pertaining to the Property. Information from the database is included in Section 2 of this report.

#### **City of Marshalltown Housing and Community Development:**

Impact7G submitted a Freedom of Information Act (FOIA) request to the City of Marshalltown department of Housing and Community Development on July 26, 2022, requesting any knowledge or environmental records, including fire incidents/inspections, complaints, hazmat/spill responses, underground or aboveground storage tanks, dry cleaning facilities, or any compliance/enforcement pertaining to the Property. No records were found pertaining to the Property.

#### **City of Marshalltown, IA:**

Impact7G submitted a FOIA request to the City of Marshalltown City Clerk on July 26, 2022, and the Fire Department on July 26, 2022, requesting any knowledge or environmental records for to the Property. By the completion of this report a response had not been received.

#### **Marshall County Emergency Management:**

Impact7G contacted the Marshall County Emergency Management Department on July 26, 2022, requesting any knowledge or environmental records for to the Property. By the completion of this report a response had not been received.

#### **Marshall County Environmental Health Department:**

Impact7G contacted the Marshall County Environmental Health Department on July 26, 2022, requesting any knowledge or environmental records for to the Property. By the completion of this report a response had not been received.

### **5.3.2 State Environmental Records**

#### **Iowa Department of Natural Resources (DNR) Facility Explorer:**

Impact7G accessed the Iowa DNR's Facility Explorer database for all "Environmental Facility" listings on July 26, 2022. No listings were identified on the Property.

#### **Iowa DNR and Public Safety State Fire Marshal Office Storage Tanks Database:**

Impact7G accessed this database on July 26, 2022, to search for any underground storage tanks (USTs) or leaking UST (LUST) records for the Property. The Property was not identified.

### 5.3.3 Federal Environmental Records

#### U.S. Environmental Protection Databases:

Impact7G accessed the US EPA's Enforcement and Compliance History Online database on July 26, 2022. No compliance category listings were identified for the Property or adjacent sites.

### 5.4 Standard Environmental Record Sources

Impact7G commissioned EDR to provide a summary of Federal, State, and tribal environmental record sources to at least the minimum search distances established by the ASTM E1527-21 Standard Practice. The purpose of the Standard Environmental Records Sources search was to obtain and review information that would aid in identifying RECs, CRECs, HRECs, and/or De Minimis Conditions in connection with the Property. Impact7G has reviewed and summarized information from the Standard Environmental Record Sources in the following sections. The complete environmental records database report ("EDR Report") is included in Appendix I.

In addition to the records outlined above, the EDR Report included a number of listings for “historical auto” or “historical cleaner” sites that EDR referenced from their proprietary database, generally derived from city directory listings. Pertinent listings include:

- Wards DX Service, EDR HIST AUTO, 1987 (13 S. Center Street) – approximately 346 feet southwest of the Property.
- Niehouse Cleaners, EDR HIST CLEANER, 1969-1971 (107 E State) – approximately 364 feet northeast of the Property.

#### **5.4.1 Unmapped Sites**

The EDR Report identified four (4) unmapped, or “orphan sites,” whose locations could not be verified due to inadequate address information but that may be located within the applicable search distances from the Property.

- M. Gervich2 & Sons Inc., (Brooks Ward & Robertson 6 W Main Street).
- Old Marshalltown Dump (3000 County Highway E35 Main Street).
- Marshalltown Substation Expansion-Construction (3001 E Main Street).
- ITC Midwest Marshalltown Fletcher Substation-Construction (3001 E Main Street).

After review, these sites are not located within the applicable search distances relative to the Property.

#### **5.4.2 Database Evaluation for Property Listings**

The databases searched did not include any listings for the Property.

#### **5.4.3 Database Evaluation for Adjoining Site Listings**

The databases searched did not include any listings for the Adjoining Sites.

#### **5.4.4 Database Evaluation for Other Sites Within Applicable Search Distances**

In the prior subsections, Impact7G discussed listings in the EDR Report that were been determined to be related to or adjoining the Property. The EDR Report also included listings for additional sites, not all of which in the Environmental Professional's opinion, warranted detailed evaluation as part of this Phase I ESA. For instance, nearby site listings absent any conditions indicating an environmental condition or release do not necessarily indicate a material threat to the Property or that a release to the environment has occurred or is likely to occur. Other identified release sites may be listed in inferred up-gradient locations relative to the Property, but release incidents have been granted regulatory closure or are at a distance that are unlikely to impact the Property. Therefore, except as noted or listed below, these sites are not expected to be a REC in connection with the Property.

| Database Summary:                                               | This site was identified as a CERCLA Preremedial site which was closed August 27, 2020. No institutional controls were reported for this industrial type.                                                                                                                                                                                                                                                                                                                                                              |
| File Review or Findings Summary:                                | Impact7G reviewed IDNR's Extended Site Screening for this site. The reports indicate there is a small amount of groundwater contamination which appears to be fairly localized. Contaminants from multiple soil vapor samples exceed the EPA's vapor intrusion screening levels. However, it appears the source of the vapor contamination is an off-site source. Based on the information reviewed and distance from the Property, Impact7G does not consider this nearby site a REC in connection with the Property. |

| Database Summary:                                               | This site is listed as leaking underground storage tank (LUST) site #9LTS46. The site was discovered April 29, 2019 and was stopped.                                                                                                                                                                   |
| File Review or Findings Summary:                                | Impact7G reviewed IDNR's Tier 2 Report for this site. The reports indicate that the detected contamination does not reach or have high potential to impact the subject Property. Based on the information reviewed, Impact7G does not consider this nearby site a REC in connection with the Property. |

| Database Summary:                                               | This site is listed as a former RCRA-VSQG, FINDS, and ECHO and identified by RCRA ID IAD062777149. This conditionally exempt small quantity generator site does not have any reported RCRA violations.                                                              |
| File Review or Findings Summary:                                | Impact7G reviewed information available in U.S. EPA databases and did not find any other pertinent information or files related to this former facility. Based on the regulatory status and database types, no further review is considered warranted at this time. |

## 6.0 Interviews

This component of the Phase I ESA process consisted of interviews intended to gather information indicating RECs or other potential environmental risks in connection with the Property.

### 6.1 Key Site Manager Interview

No key site manager was identified for interview because the Property was vacant at the time of this assessment.

### 6.2 Owner/Occupant Interview

Impact7G interviewed Ms. Michelle Spohnheimer, owner representative for the City of Marshalltown, owner of 20 E Main Street. Ms. Spohnheimer indicated that Property building was constructed in 1890 with an addition added in 1964. According to Ms. Spohnheimer, the historical uses of the Property was for commercial/retail establishments. Ms. Spohnheimer also mentioned that the Property was abandoned. Ms. Spohnheimer stated that she is unaware of any environmental conditions or concerns at this time.

### 6.3 State or Local Government Official Interview

Impact7G interviewed Mr. David Rierson, City of Marshalltown Fire Department Fire Chief, by email on July 26, 2022. Mr. Joshua Warnell, City of Marshalltown Fire Marshal, responded stating they do not have records of environmental concerns at the Property.

Impact7G interviewed, Mrs. Kim Elder, Marshall County Emergency Management Department EMA Coordinator, by email on July 26, 2022. Ms. Elder stated that they do not keep information related to emergency responses, spills, underground storage tanks or other environmental concerns in her office and the Iowa DNR would keep that information.

Impact7G interviewed Mr. Todd Apfel, Marshall County Environmental Health Department Zoning Administrator, by email on July 26, 2022. Mr. Apfel stated that they do not keep information related to emergency responses, spills, underground storage tanks or other environmental concerns as the Property is in the City of Marshalltown and his office does not have jurisdiction in the City.

### 6.4 Other Interviews

No other persons were interviewed as part of this Phase I ESA.

## 7.0 Non-Scope Considerations

---

Following is a list of non-scope items sometimes considered in connection with commercial real estate transactions, as listed in Section 13.1.5 of the ASTM E1527-21 Standard Practice.

- Asbestos-containing building materials\*
- Lead-based paint\*
- Biological agents
- Lead in drinking water
- Cultural and historic resources
- Mold or microbial growth conditions
- Ecological resources
- PCB-containing building materials
- Endangered species
- Naturally occurring radon
- Health and safety Regulatory compliance
- Indoor air quality\*
- Wetlands
- Industrial hygiene
- Substances not currently defined as hazardous substances (including some “emerging contaminants”)

*\*unrelated to associated releases into the environment*

Based on the Scope of Work for this Phase I ESA, the User did not elect to pursue any of these Non-Scope Considerations or other items outside the scope of the ASTM E1527-21 Standard Practice.

The structure located on the Property was constructed circa 1890 and 1964. Based on the circa 1890 and 1964 construction dates, the existence of ACM and LBP is possible. Therefore, further ACM and LBP investigation of this Property is warranted if building materials and/or painted surfaces are to be disturbed or renovated.

## 8.0 Deviations

---

The ASTM E1527-21 Standard Practice requires that all additions to or deletions and deviations from this practice (if any) be listed individually and in detail, including client-imposed constraints.

Outside of the variability allowed within the ASTM E1527-21 Standard Practice, there were no deviations, and no significant conditions were encountered in performance of this Phase I ESA that limited Impact7G's ability to complete the scope of services contracted with the User.

### 8.1 Data Failure

As defined by the ASTM E1527-21 Standard – Section 8.3.6, a data failure is *“a failure to achieve the historical research objectives...even after reviewing the standard historical sources...that are reasonably ascertainable and likely to be useful.”*

Impact7G encountered data failure while completing this Phase I ESA based on the following gap(s) in historical research objectives:

- Available historical records did not identify use of the Property prior to its first documented development with what appears to have been for commercial purposes as early as 1884 (as evidenced by various historical records).

Impact7G does not consider this data failure to be a significant data gap based on the availability of information from other sources used for this Phase I ESA, along with the consistent information across historical records suggesting the Property's history has been almost exclusively commercial with some residential occupancy.

### 8.2 Data Gaps

As defined by the ASTM E1527-21 Standard Practice, a data gap is *“a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information.”*

Impact7G did not encounter any data gaps while completing this Phase I ESA.

## 9.0 Environmental Findings

Based on available information obtained, reviewed, and reported as part of this Phase I ESA, Impact7G has identified the following findings, including features, activities, uses, and conditions of the Property that, in the Environmental Professional's opinion, may indicate the presence or likely presence of hazardous substances or petroleum products at the Property.

| Environmental Findings Summary Table       |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| Fire Insurance Maps                        | 5.2.2          | <p>The fire insurance maps depicted a dense commercial development all around the Property. An oil service station with buried gas tanks was identified to the north in 1921. There are no known regulatory records associated with the buried gas tanks.</p> <p>A Chinese laundry was identified to the northeast in 1921 and a laundry was identified to the northeast in 1931. It is unknown if the laundry facilities performed dry cleaning.</p> <p>Auto repair was identified to the north in 1931 and 1964 and auto sales and service were identified to the north in 1964. Auto service shops typically involve the use of soils and solvents and generate waste consisting of used oils and solvents some of which contain metals.</p> <p>In the absence of any additional documentation, Impact7G considers these historic uses from the north of the Property to be a REC.</p> |

The Environmental Professional(s) evaluated each of the findings outlined above, along with all other information obtained as part of this assessment, and has determined which findings constitute environmental conditions, business risks, or other considerations in connection with the Property, as defined by the ASTM E1527-21 Standard Practice. These are described below in **Sections 9.1 through 9.6**.

### **9.1 Recognized Environmental Conditions (RECs)**

Impact7G identified the following RECs in connection with the Property:

- A nearby parcel to the north (7 E State Street), located approximately 285 feet north of the Property, was an oil service station with buried gas tanks in 1921. The tanks have few regulatory records associated with it, however, based on the proximity to the Property and the absence of any sort of investigation regarding closure of the tanks, the potential exists for this site to have contaminated the subsurface of the Property. The historic use of the nearby parcel as an oil service station which also contained underground storage tanks is considered to represent a REC to the Property.
- Two nearby parcels to the northeast (24 & 26 N 1<sup>st</sup> Avenue), located approximately 230 feet northeast of the Property, were identified as a Chinese laundry and laundry facility in 1921 and 1931, respectively. It is unknown if the laundry facilities performed dry cleaning operations or used solvents. However, based on the absence of additional information, proximity to the Property and the up-gradient location, the historic use of nearby parcels as laundry facilities is considered to represent a REC to the Property.
- The adjoining property to the north across the alleyway (15-25 E State Street) was identified as an auto repair shop (1931) and auto repair and auto sales and service (1964). Auto service shops typically involve the use of oils and solvents and generate waste consisting of used oils and solvents some of which contain heavy metals. Based on the former use and proximity to the Property, the adjoining property to the north is considered to represent a REC to the Property.

### **9.2 Controlled Recognized Environmental Conditions (CRECs)**

Impact7G did not identify any CRECs in connection with the Property.

### **9.3 Historical Recognized Environmental Conditions (HRECs)**

Impact7G did not identify any HRECs in connection with the Property.

### **9.4 De Minimis Conditions**

Impact7G did not identify any de minimis conditions in connection with the Property.

## **9.5 Business Environmental Risks (BERs)**

Impact7G did not identify any BERs in connection with the Property.

## **9.6 Non-Scope Considerations**

- The structure located on the Property was constructed circa 1890 and 1964. Based on the circa 1890 and 1964 construction dates, the existence of Asbestos Containing Materials (ACM) and Lead-Based Paint (LBP) is possible. Therefore, further ACM and LBP investigation of this Property is warranted if building materials and/or painted surfaces are to be disturbed or renovated.

Based on the Scope of Work for this Phase I ESA, the User did not elect to pursue any additional Non-Scope Considerations or other items outside the scope of the ASTM E1527-21 Standard Practice.

## **10.0 Conclusions and Opinions**

---

Impact7G has performed a Phase I ESA in conformance with the scope and limitations of the ASTM E1527-21 Standard Practice for 20 E Main Street, Marshalltown, Marshall County, IA 50158 (the "Property"). Any exceptions to or deletions from this practice are described in **Sections 2.4, 4.1 and 8.0** of this report.

As outlined above in **Section 9** of this report, this assessment has revealed evidence of RECs in connection with the Property based on the past use of adjoining and nearby parcels to the north and northeast as a former oil service station with buried gas tanks (1921), Chinese laundry (1921), laundry (1931), auto repair (1931), and auto repair and auto sales and service (1964).

It is Impact 7G's opinion that quality of the environment beneath or in the immediate vicinity of the Property may have been degraded based on historical use of the adjoining and nearby parcels including an oil service station with buried gas tanks, laundry facilities, and auto repair shop and auto sales and service. There are no records of removal of the buried gas tanks that were once located at the nearby parcel. Subsurface environmental testing would be the most conclusive way to understand if the environmental condition of the Property has been adversely impacted by historical uses of the adjoining and nearby parcels.

## 12.0 Signature(s) of Environmental Professional(s)

---

Under the direct supervision of the Environmental Professional(s) listed below, this Phase I ESA report was supported by the following:

Report Research & Preparation:

---

Laurel Maier

Environmental Specialist I

We declare that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR 312 and we have the specific qualifications based on education, training, and experience to assess a *Property* of the nature, history, and setting of the *subject site*. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312. Qualifications of the Environmental Professionals are included in **Appendix J**.

## **Appendix B – User-Provided Information**

**Phase I Environmental Site Assessment  
User Questionnaire**  
(modeled from Appendix X.3 of the ASTM E1527-21 Standard Practice)

**A. Purpose:**

To qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “*Brownfields Amendments*”), the User must conduct the following inquiries (Section C, below) required by [40 C.F.R. §§312.25, 312.28, 312.29, 312.30, and 312.31](#). These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The User should provide to the environmental professional the following information for the property subject to the Phase I ESA (the “Property”). Failure to conduct these inquiries could result in determination that “all appropriate inquiries” is not complete.

**B. User and Property Information:**

1. Name / Organization of User: City of Marshalltown
2. Date Questionnaire was completed 07/19/2022
3. Property Address(es): 20 E Main Street, Marshalltown, IA 50158  
(please provide Property map or other records, if necessary, to identify all parcels and boundaries)

**C. Results of Property Inquiries:**

*This section is to be completed by the User of the Phase I Environmental Site Assessment (ESA) report. Please include any lengthy responses on a separate sheet and refer to the number or letter of the item from this page.*

1. **Environmental liens that are filed or recorded against the Property (40 CFR §312.25).**  
Did a search of land title records (or judicial records\* where appropriate) identify any environmental liens filed or recorded against the Property under federal, tribal, state, or local law?  
  
No
2. **Activity and use limitations that are in place on the Property or that have been filed or recorded against the Property (40 CFR §312.25).**  
Did a search of land title records (or judicial records\* where appropriate) identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls that are in place at the Property and/or have been filed or recorded against the Property under federal, tribal, state, or local law?  
  
No

*\*In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records shall be searched for environmental liens and AULs.*

**3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR §312.28).**

Do you have any specialized knowledge or experience related to the Property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the Property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No

**4. Relationship of the purchase price to the fair market value of the Property if it were not contaminated 40 CFR §312.29).**

Does the purchase price being paid for this Property reasonably reflect the fair market value of the Property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the Property?

Property was awarded through a 657A judgement as an abandoned property.

**5. Commonly known or reasonably ascertainable information about the Property (40 CFR §312.30).**

Are you aware of commonly known or reasonably ascertainable information about the Property that would help the environmental professional to identify conditions indicative of releases or threatened releases?

For example (*summarize details, if known*):

(a.) Do you know the past uses of the Property?

General retail

(b.) Do you know of specific chemicals that are present or once were present at the Property?

No

(c.) Do you know of spills or other chemical releases that have taken place at the Property?

No

(d.) Do you know of any environmental cleanups that have taken place at the Property?

No

**6. The degree of obviousness of the presence or likely presence of contamination at the Property, and the ability to detect the contamination by appropriate investigation [40 CFR §312.31).**

Based on your knowledge and experience related to the Property, are there any obvious indicators that point to the presence or likely presence of releases at the Property?

Expectation of Lead Based Paint and Asbestos due to the age of the building

**D. Additional Information to Support the Phase I ESA:**

*This information is intended to assist the environmental professional in completing the Phase I ESA report, but it is not necessarily required to qualify for one of the LLPs as part of "all appropriate inquiries."*

**1. State the reason(s) the User is performing this Phase I ESA.**

The City took control of the property through a legal process and would like to assess in order to encourage private redevelopment.

**2. Describe the current use and occupancy of the Property subject to this Phase I ESA.**

Vacant

**3. Summarize any other knowledge or experience with the Property that may be pertinent to the environmental condition of the Property or useful to the environmental professional completing the Phase I ESA report. This could include prior environmental assessment reports, compliance reports, or other documents or correspondence. Provide copies of reports or correspondence, where possible.**

None

## **Appendix C – Property Photographs**

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Impact7G, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting [www.edrnet.com/sanborn](http://www.edrnet.com/sanborn).

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

### RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

### RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

| <u>Year</u> | <u>Target Street</u>                | <u>Cross Street</u>                 | <u>Source</u>         |
|-------------|-------------------------------------|-------------------------------------|-----------------------|

## **Appendix H – Local, State, and Federal Records**

FEBRUARY 18, 2020

MATT KARJALAHTI  
KARJALAHTI ENTERPRISES INC  
932 MAIN ST  
GRINNELL IA 50112

SUBJECT: **Certificate of No Further Action to be filed with the County Recorder's Office**  
Site: **FORMER STATION, 28 E STATE ST, MARSHALLTOWN IA 50158**

Registration No. **197910667**LUST No. **9LTS46**

Dear Mr. Karjalahti,

Attached to this letter is the original No Further Action (NFA) certificate for the above-referenced underground storage tank (UST) site.

This certificate is valid only for the site referenced on its face, and only for the referenced leaking underground storage tank (LUST) number. **You are responsible for filing this certificate** with the UST site location's County Recorder pursuant to Iowa Code § 455B.474(1)a(8)(c). Within 30 days, please **submit a file-stamped copy of the recorded certificate to: LUST Coordinator, Department of Natural Resources, 502 East Ninth Street, Des Moines, IA 50319-0034 OR by email to: Dawn.SantaMaria@dnr.iowa.gov**

Upon the issuance of an NFA certificate, an owner or operator shall not be responsible for additional assessment, monitoring, or corrective action activities at a site for the release (LUST) that is issued a no further action certificate unless it is determined that the certificate was issued based upon false material statements that were knowingly or intentionally made by a groundwater professional and the false material statement resulted in the incorrect classification of the site. However, this certificate does not prevent the Department from requiring further corrective action at the site if a new petroleum release occurs, or if a previously unknown or unforeseen risk condition should arise. In the event of the latter, the Department will seek to work with resources other than the owner to investigate the new condition. See Iowa Code § 455G.9(1)(k).

Be advised that property owners who were not the owner of the USTs at the site, and who were not responsible for a new release or the aggravation of the historical contamination, would not generally be considered responsible parties for taking corrective action if regulation of the site is reopened in the future. Additionally, state funds have been allocated which may provide discretionary funding and resources to the Department to use if further corrective action is required at the site.

This certificate should not be relied upon as a warranty or representation that the site is, for all purposes and under all circumstances, environmentally clean. Residual concentrations of soil and/or groundwater contamination may remain at the site. Public files are available which better describe the contamination conditions documented at the site. These files may be obtained by contacting the Iowa Department of Natural Resources Records Center at 515-725-8480.

If you have any additional questions concerning this certificate, please contact the UST Section of the Iowa Department of Natural Resources at 515-725-8365.

Sincerely,

A handwritten signature in cursive script that reads "Elaine R. Douskey". The signature is written in dark ink and is positioned above the typed name and contact information.

**Prepared By:** Dawn Santa Maria, 515.725.8365

IOWA DEPARTMENT OF NATURAL RESOURCES, 502 E 9<sup>TH</sup> ST, DES MOINES, IA 50319-0034

**Return To:** MATT KARJALAHTI, KARJALAHTI ENTERPRISES INC, 932 MAIN ST, GRINNELL IA 50112

This document certifies that the referenced underground storage tank (UST) site has been classified by the Iowa Department of Natural Resources (Department) as "no further action" as provided in Iowa Code § 455B.474(1)a(8)(a). This certificate must be recorded in the referenced site's County Recorder Office. See Iowa Code § 455B.474(1)(a)(8)(c).

**Date of Issuance:** FEBRUARY 18, 2020

**Owner/Operator of the Tank Site:** KARJALAHTI ENTERPRISES INC

**Department File Reference:** UST No. 197910667  
LUST No. 9LTS46

**UST Facility Address:** FORMER STATION  
28 E STATE ST  
MARSHALLTOWN IA 50158

**Owner/Operator Mailing Address:** ATTN MATT KARJALAHTI  
KARJALAHTI ENTERPRISES INC  
932 MAIN ST  
GRINNELL IA 50112

**Legal Description of the UST Site:**

The South 120 feet of Lot 12, Block 3, Original Town of Marshall, Marshall County, Iowa.

If any monitoring wells are subsequently found they should be properly abandoned in accordance with Chapter 567-39 of the Iowa Administrative Code.

This certificate prohibits the Department from requiring a property owner or a responsible party to conduct further corrective action if the only reason is a change in action levels See Iowa Code § 455B.474(1)(a)(8)(c). An owner or operator shall not be responsible for additional assessment, monitoring, or corrective action activities at a site for the release (LUST) that is issued a no further action certificate unless it is determined that the certificate was issued based upon false material statements that were knowingly or intentionally made by a groundwater professional and the false material statement resulted in the incorrect classification of the site. See Iowa Code § 455B.474(1)(a)(8)(a). However, this certificate does not prevent the Department from requiring corrective action at the site if a new petroleum release occurs. See Iowa Code § 455B.474(1)(a)(8)(c). If a previously unknown or unforeseen risk condition should arise related to the release covered by this certificate, the Department, in conjunction with the Iowa comprehensive petroleum underground storage tank fund board, may fund investigation and corrective action to address the risk. See Iowa Code § 455G.9(1)(k).

This certificate does not constitute a warranty or representation of any kind to any person as to the environmental condition, marketability, or value of the above-referenced property other than that NFA-qualifying status was achieved upon the date of certificate issuance. See 567 Iowa Administrative Code 135.12(10)(b)(6).

12 E State St., Marshalltown, Iowa

From Des Moines, take I-80 east to exit 142 for US-6W toward US-65N/Iowa 330. Turn left onto NE Hubbel Ave. Continue on to US-65N for 5 miles. Continue onto IA-330N for 22 miles. Continue straight onto Marshalltown Blvd for 2 miles. Continue onto Lincoln Way for 2 miles. Turn left onto S 9<sup>th</sup> St. Turn right onto W State St. Site is on the left side

Directions to site: of the road.

**Summarize the site history (past usages, past ownerships, wastes, known or suspected contamination pathways such as tanks, septic tank/tile field, lagoon, land applications, SW burial, etc.)**

The site is currently a parking lot and appears to have a history of being used for alley access, feed mill, and storage sheds. The 1910 Sanborn map indicates there was a buried gasoline tank at 12 E State St. which belonged to Benedict Peek & Co. flour and feed mill (directly east of the site). Additionally, the site is adjacent to a former dry cleaner (101 N Center St.) and another former dry cleaner (104 N Center St.) is nearby. The area is mainly commercial but redevelopment is planned. Refer to Figure 1 for the site map.

**Briefly describe the site assessment that was conducted (number of borings, monitoring wells, number of samples, depth of soil samples and monitoring wells, analysis, etc.)**

The previous Phase II investigation for the 12 East State Street property included three soil borings (B5, B6 and B7) with samples collected at a depth of 10-12 ft. below ground surface (bgs), three groundwater samples (B5, B6 and B7) and one soil gas sample (VP3) collected at the B5 boring location. Soil and groundwater samples were analyzed for Volatile Organic Compounds (VOCs) using Iowa Method OA-1, OA-2, and EPA 8260. The soil gas sample was analyzed using EPA Method TO-15. Due to the tetrachloroethene (PCE) concentrations found in the soil gas, the Iowa DNR required additional sampling in a letter dated August 27, 2019.

Recent sampling was performed on October 22, 2019. Three geoprobe borings were installed onsite from B8-B10, each at a depth of 15-20 ft. bgs and were screened with a photoionization detector (PID). A sample was collected from the highest PID interval (B8 at 3-5 ft. bgs, B9 at 10-13 ft. bgs, and B10 at 13-15 ft. bgs). A temporary well was installed at every boring and a groundwater sample was collected. Groundwater and soil samples were analyzed for VOCs using EPA Method 8260. In addition, a temporary vapor probe was installed at each location. The vapor probe was installed to a depth of 3 ft. which is shallower than normally accepted by the Iowa DNR, however the area is paved so introduction of ambient air during sampling is unlikely to occur. The vapor samples were analyzed for VOCs using EPA Method TO-15. Refer to Figure 2 for sample locations.

**Summarize the findings and conclusions regarding the contaminants found and their extent and concentrations. Relate those values to known criteria such as statewide standards, MCLs, water quality standards, background levels or other benchmarks used to determine site priority.**

#### **Soil Findings**

A total of six soil samples have been taken at this property. There were several detections of non-petroleum VOCs (see Table 1) in the soil samples, however none exceeded statewide standards (SWS).

| Table 1-Soil Sample Results for Non-Petroleum VOCs (mg/kg) |                 |                        |                        |                  |                         |

### Groundwater Findings

Groundwater samples were collected in six locations across this properties as seen in Table 2. One temporary well location (B10) exceeded SWS for PCE and 1,2,4-trimethylbenzene.

| Chemical of Concern | Table 2-Groundwater Sample Results for Non-Petroleum VOCs (mg/L) |                        |                        |                        |                   |
|---------------------|------------------------------------------------------------------|------------------------|------------------------|------------------------|-------------------|
|                     | n-Propylbenzene                                                  | 1,2,4-Trimethylbenzene | 1,3,5-Trimethylbenzene | 1,2,3-Trimethylbenzene | Tetrachloroethene |

### Soil Gas Findings

Four soil gas samples were collected at this property and results are presented below (Table 3). Soil gas taken at VP-3 shows the highest PCE concentrations at the site and exceeds EPA's Vapor Intrusion Screening Levels (VISL). Additionally, PCE concentrations at VP-4 and VP-6 exceed EPA's VISL.

| Chemical of Concern                         | Table 3- Soil Gas Sample Results for Non-Petroleum VOCs (µg/m³) |                 |                   |

| VP-4                                        | ND                                                              | ND              | <b>600</b>        |
| VP-5                                        | ND                                                              | ND              | 5.7               |
| VP-6                                        | ND                                                              | ND              | <b>880</b>        |

**Identify on-site or off-site potential and actual targets (e.g., municipal wells, private wells, drinking water intakes). What is known of the neighboring area, i.e., are there residences, businesses, public use areas, etc.? Are there utility lines that could be impacted by site contaminants? Identify any other use/location issues that deserve consideration.**

According to the Iowa DNR Facility Explorer application, there are three wells within 1,000 ft. of this location (refer to Appendix B). The nearest well (Well No. 30908) is 222 ft. deep (bedrock noted at 90 ft.). The area appears to be mostly commercial and the City of Marshalltown has an acceptable ordinance for drinking water wells.

**Summarize the reasoning, knowledge or any other information used in determining your recommendation regarding the priority assigned to this site.**

This site has a small amount of groundwater contamination that appears to be fairly localized. The City of Marshalltown has an acceptable ordinance for restriction of drinking water wells. Onsite vapor concentrations are concerning. However, it appear the source of the vapor contamination is coming from offsite (onsite groundwater and soil data are fairly clean); however, the vapor source area has not been identified. The Iowa

DNR will approach the current owner (the City of Marshalltown) about voluntarily placing an environmental covenant on the site to address issues with future construction projects.

**Site recommended for:**

- ☒ No further action
- ☐ Additional investigation under state program (activity code 2824)
- ☐ Additional investigation under CERCLA (Extended Site Screening)
- ☐ Transfer to LUST/UST

MS JESSICA KINSER  
CITY OF MARSHALLTOWN  
24 N CENTER ST  
MARSHALLTOWN IA 50158

RE: 12 East State Street, Marshalltown, Iowa

Dear Ms. Kinser,

On December 5, 2019 the Iowa Department of Natural Resources Contaminated Sites Section (Iowa DNR) received an Additional Phase II Site Investigation for the 12 E State St. property in Marshalltown, Iowa. The Iowa DNR reviewed the submittal. Analytical results indicate soil gas concentrations exceed applicable EPA Vapor Intrusion Screening Levels (VISLs) and groundwater exceeds Iowa DNR standards for tetrachloroethene (PCE) and 1,2,4-trimethylbenzene.

Groundwater concentrations onsite indicate a fairly small area of contamination. However, soil gas samples indicate a potential for vapor intrusion to occur across the site. The Iowa DNR recommends the implementation of an environmental covenant (EC) to ensure the protection of human health. The EC should include a restriction on wells, construction requirements for future buildings (i.e. vapor barrier), and a soil management plan for future construction projects. Implementing an EC would not only protect the health of those working on this site in the future, but would also close the site under the Iowa DNR Contaminated Sites Section.

Within 30 days, please notify the Iowa DNR Project Manager of your intentions regarding an environmental covenant at this site. If you have any questions or would like to discuss the future of the site, please call me at (515)725-8372 or email me at [shelly.nellesen@dnr.iowa.gov](mailto:shelly.nellesen@dnr.iowa.gov).

Sincerely,

Shelly Nellesen  
Environmental Specialist  
Contaminated Sites Section

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527-21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

## EXECUTIVE SUMMARY

### TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

### DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

### STANDARD ENVIRONMENTAL RECORDS

#### ***Lists of Federal NPL (Superfund) sites***

NPL..... National Priority List  
Proposed NPL..... Proposed National Priority List Sites  
NPL LIENS..... Federal Superfund Liens

#### ***Lists of Federal Delisted NPL sites***

Delisted NPL..... National Priority List Deletions

#### ***Lists of Federal sites subject to CERCLA removals and CERCLA orders***

FEDERAL FACILITY..... Federal Facility Site Information listing

#### ***Lists of Federal RCRA generators***

RCRA-LQG..... RCRA - Large Quantity Generators

#### ***Federal institutional controls / engineering controls registries***

LUCIS..... Land Use Control Information System  
US ENG CONTROLS..... Engineering Controls Sites List  
US INST CONTROLS..... Institutional Controls Sites List

#### ***Federal ERNS list***

ERNS..... Emergency Response Notification System

#### ***Lists of state- and tribal hazardous waste facilities***

SHWS..... Registry of Hazardous Waste or Hazardous Substance Disposal Sites

#### ***Lists of state and tribal leaking storage tanks***

LAST..... Leaking Aboveground Storage Tank Sites  
INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land

#### ***Lists of state and tribal registered storage tanks***

FEMA UST..... Underground Storage Tank Listing

## EXECUTIVE SUMMARY

AST..... Aboveground Storage Tank Sites  
INDIAN UST..... Underground Storage Tanks on Indian Land

### ***State and tribal institutional control / engineering control registries***

INST CONTROL..... Sites with Institutional Controls

### ***Lists of state and tribal voluntary cleanup sites***

INDIAN VCP..... Voluntary Cleanup Priority Listing  
VCP..... Land Recycling Program Sites

### ***Lists of state and tribal brownfield sites***

BROWNFIELDS..... Brownfields Site Listing

### **ADDITIONAL ENVIRONMENTAL RECORDS**

#### ***Local Lists of Landfill / Solid Waste Disposal Sites***

INDIAN ODI..... Report on the Status of Open Dumps on Indian Lands  
DEBRIS REGION 9..... Torres Martinez Reservation Illegal Dump Site Locations  
ODI..... Open Dump Inventory  
IHS OPEN DUMPS..... Open Dumps on Indian Land

#### ***Local Lists of Hazardous waste / Contaminated Sites***

US HIST CDL..... Delisted National Clandestine Laboratory Register  
DEL SHWS..... Delisted Contaminated Sites Listing  
US CDL..... National Clandestine Laboratory Register  
PFAS..... PFAS Contamination Site Listing

#### ***Local Land Records***

LIENS..... Liens Filed Listing  
LIENS 2..... CERCLA Lien Information

#### ***Records of Emergency Release Reports***

HMIRS..... Hazardous Materials Information Reporting System  
SPILLS..... Spills Database  
SPILLS 90..... SPILLS 90 data from FirstSearch

#### ***Other Ascertainable Records***

FUDS..... Formerly Used Defense Sites  
DOD..... Department of Defense Sites  
SCRD DRYCLEANERS..... State Coalition for Remediation of Drycleaners Listing  
US FIN ASSUR..... Financial Assurance Information  
EPA WATCH LIST..... EPA WATCH LIST  
2020 COR ACTION..... 2020 Corrective Action Program List  
TSCA..... Toxic Substances Control Act  
TRIS..... Toxic Chemical Release Inventory System  
SSTS..... Section 7 Tracking Systems

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

## EXECUTIVE SUMMARY

### STANDARD ENVIRONMENTAL RECORDS

#### ***Lists of Federal sites subject to CERCLA removals and CERCLA orders***

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 04/27/2022 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

#### ***Lists of Federal CERCLA sites with NFRAP***

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 04/27/2022 has revealed that there are 3 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

## EXECUTIVE SUMMARY

### ***Lists of Federal RCRA facilities undergoing Corrective Action***

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 06/20/2022 has revealed that there are 2 CORRACTS sites within approximately 1 mile of the target property.

### ***Lists of Federal RCRA TSD facilities***

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 06/20/2022 has revealed that there is 1 RCRA-TSDF site within approximately 0.5 miles of the target property.

| <u>Lower Elevation</u>                               | <u>Address</u>       | <u>Direction / Distance</u>    | <u>Map ID</u> | <u>Page</u> |

### ***Lists of Federal RCRA generators***

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/20/2022 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 06/20/2022 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

### ***Lists of state and tribal landfills and solid waste disposal facilities***

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Natural Resources' Permitted Solid Waste Management Facilities list.

A review of the SWF/LF list, as provided by EDR, and dated 02/28/2022 has revealed that there is 1 SWF/LF site within approximately 0.5 miles of the target property.

### ADDITIONAL ENVIRONMENTAL RECORDS

#### **Local Brownfield lists**

US BROWNFIELDS: The EPA's listing of Brownfields properties from the Cleanups in My Community program, which provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

A review of the US BROWNFIELDS list, as provided by EDR, and dated 02/23/2022 has revealed that there are 21 US BROWNFIELDS sites within approximately 0.5 miles of the target property.

### Local Lists of Hazardous waste / Contaminated Sites

ALLSITES: All the sites included in the Contaminated Sites Tracking Database. The database includes several regulatory compliance programs and actions.

A review of the ALLSITES list, as provided by EDR, and dated 04/11/2022 has revealed that there are 5 ALLSITES sites within approximately 0.5 miles of the target property.

### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/20/2022 has revealed that there are 11 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

### EDR HIGH RISK HISTORICAL RECORDS

#### **EDR Exclusive Records**

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and

## EXECUTIVE SUMMARY

non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

| <u>Lower Elevation</u> | <u>Address</u>       | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |
|------------------------|----------------------|-----------------------------|---------------|-------------|
| MARSHALLTOWN MFG GAS   | 501 E NEVADA ST (S O | SE 1/2 - 1 (0.524 mi.)      | 84            | 383         |

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 9 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 7 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

[Click Here for FRS Facility Detail Report:](#)

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Name: 134 EAST MAIN STREET  
Address: 134 EAST MAIN STREET  
City,State,Zip: MARSHALLTOWN, IA 50158  
Recipient Name: Marshalltown, City of  
Grant Type: Assessment  
Property Number: 07-26-457-020  
Parcel size: 0.58  
Latitude: 42.049414  
Longitude: -92.909919  
HCM Label: Interpolation-Map  
Map Scale: -  
Point of Reference: Center of a Facility or Station  
Highlights: There were metals and a couple of VOC constituents detected in groundwater samples exceeding the protected Statewide Standard beneath the site. However, the Public Works has a groundwater Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers.

| Highlights:                   | There were metals and a couple of VOC constituents detected in groundwater samples exceeding the protected Statewide Standard beneath the site. However, the Public Works has a groundwater Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers. |

Point of Reference:  
Highlights:

Center of a Facility or Station  
There were metals and a couple of VOC constituents detected in groundwater samples exceeding the protected Statewide Standard beneath the site. However, the Public Works has a groundwater Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers.

redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers.

| Highlights:                         | There were metals and a couple of VOC constituents detected in groundwater samples exceeding the protected Statewide Standard beneath the site. However, the Public Works has a groundwater Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers. |

Point of Reference: Center of a Facility or Station  
Highlights: There were metals and a couple of VOC constituents detected in groundwater samples exceeding the protected Statewide Standard beneath the site. However, the Public Works has a groundwater Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers.

Recipient Name: Iowa Department of Natural Resources  
Grant Type: Section 128(a) State/Tribal  
Property Number: 07-26-457-020  
Parcel size: 0.58  
Latitude: 42.049414  
Longitude: -92.909919  
HCM Label: Interpolation-Map  
Map Scale: -

Point of Reference: Center of a Facility or Station  
Highlights: There were metals and a couple of VOC constituents detected in groundwater samples exceeding the protected Statewide Standard beneath the site. However, the Public Works has a groundwater Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers.

City,State,Zip: MARSHALLTOWN, IA 50158  
Recipient Name: Marshalltown, City of  
Grant Type: Assessment  
Property Number: 07-26-457-020  
Parcel size: 0.58  
Latitude: 42.049414  
Longitude: -92.909919  
HCM Label: Interpolation-Map  
Map Scale: -  
Point of Reference: Center of a Facility or Station  
Highlights: There were metals and a couple of VOC constituents detected in groundwater samples exceeding the protected Statewide Standard beneath the site. However, the Public Works has a groundwater Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers.

Resolution No. 374 effective 3-17-2003, which prevents the installation of potable wells within City limits; therefore, the groundwater ingestion pathway is incomplete. given this Institutional Control. Therefore, groundwater cleanup is not required prior to redevelopment of the site. Building materials cleanup was completed. A private developer from St. Paul, Minnesota renovated the 7-story building into a more modern mixed-use structure. The 11.3 million Tallcorn Towers project features commercial/retail space on the ground floor and 49 one-and-two bedroom affordable apartments in the upper levels. The development also offers a variety of support services such as youth homework programs and mentoring activities. Former Use: The property contained residential development in 1884, commercial hotel and residential development in 1888, and commercial development since 1910. Commercial uses include a steam laundry in 1910 a sale barn in 1910 an auto garage and various retail stores from 1921-1945 a hotel from 1928-1973 and an apartment building from 1984-present. Jasper Corp. was a previous owner of the property, as was Tallcorn Towers.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

IDNR-EFD (Iowa Department Of Natural Resources - Emission Factor Documentation) provides information about existing emission factors

[Click Here for FRS Facility Detail Report:](#)

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Marshalltown. The City completed asbestos and lead based paint surveys at the building which is proposed for rehabilitation into 28 affordable senior housing units. The U.S. Department of Housing and Urban Development (HUD) recently awarded the City of Marshalltown a 1 million HOPE VI Main Street Grant for the 6.3 million project located at 201 East Main Street. The developers are currently applying for low-income housing tax credits to further close the funding gap. This project will help the community implement several smart growth concepts including maintaining its development density, re-using existing infrastructure, promoting walk-able neighborhoods, etc.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Recipient Name: Marshalltown, City of  
Grant Type: Assessment  
Property Number: 735203009  
Parcel size: 0.23  
Latitude: 42.048414  
Longitude: -92.909369  
HCM Label: Address Matching-House Number  
Map Scale: -  
Point of Reference: Entrance Point of a Facility or Station  
Highlights: A Phase I Environmental Site Assessment was conducted on the Property located at 20 South 2nd Avenue and completed in August, 2010. Based on the findings of the Phase I Environmental Assessment, further investigation may be warranted at the 20 South 2nd Avenue Property. While there were Phase II findings of petroleum and arsenic in soil, the detected contaminants were at or below their applicable Statewide Standard. In addition, cumulative risk calculations were below regulatory limits, thus cleanup is not required. Former Use: The property is a warehouse built in 1900. The property was previously a car dealer and auto repair shop. The property is located in a primarily commercial area of Marshalltown.

Name: 204 E CHURCH ST  
Address: 204 EAST CHURCH STREET  
City,State,Zip: MARSHALLTOWN, IA 50158  
Recipient Name: Marshalltown, City of  
Grant Type: Assessment  
Property Number: 735203011  
Parcel size: 0.13  
Latitude: 42.048  
Longitude: -92.909  
HCM Label: Address Matching-House Number  
Map Scale: -  
Point of Reference: Entrance Point of a Facility or Station  
Highlights: A Phase I Environmental Site Assessment was conducted on the Property located at 204 East Church Street and completed in August, 2010. Based on the findings of the Phase I Environmental Assessment, further investigation may be warranted at the 204 East Church Street Property. While Phase II confirmed petroleum and arsenic contaminatin in soil, the detected contaminants were at or below their applicable Statewide Standard. In addition, cumulative risk calculations were below regulatory limits. Former Use: The property is a warehouse built in 1910 and was historically a retail store. The property is located in a primarily commercial area of Marshalltown.  
  
Datum: North American Datum of 1983

| Highlights:                   | A Phase I Environmental Site Assessment was conducted on the Property located at 204 East Church Street and completed in August, 2010. Based on the findings of the Phase I Environmental Assessment, further investigation may be warranted at the 204 East Church Street Property. While Phase II confirmed petroleum and arsenic contamination in soil, the detected contaminants were at or below their applicable Statewide Standard. In addition, cumulative risk calculations were below regulatory limits. Former Use: The property is a warehouse built in 1910 and was historically a retail store. The property is located in a primarily commercial area of Marshalltown. |
